2687. PESTICIDE APPLICATOR CERTIFICATION FEES FOR EPA ADMINISTERED PROGRAMS

Legal Authority: 31 USC 9701/FIFRA 4

CFR Citation: 40 CFR 171.12

Legal Deadline: None.

Abstract: This rule is intended to implement a program for assessing fees for certification and training of commercial and private applicators who apply restricted use pesticides. Fees will be collected in States with Federally-administered pesticide certification and training programs, and will cover the costs of administering such programs.

2688. ● REGISTRATION DATA REQUIREMENTS FOR PESTICIDE PRODUCT PERFORMANCE AND COMPANION PESTICIDE ASSESSMENT GUIDELINES

Legal Authority: 7 USC 136 /FIFRA 3

CFR Citation: 40 CFR 158.160

Legal Deadline: None.

Abstract: The objective in revising the regulations is to make explicit the Agency's requirement of pesticide producers to submit quantitative data on the yield/quality enhancing performance of their pesticides as compared to alternative pesticides. These data will improve the quality and timeliness of benefit analyses the Agency uses in making risk/benefit decisions to regulate pesticides under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA). The companion revised guidelines regarding how to conduct studies will produce the acceptable comparative performance data. Registrants might experience very minor cost increases to register pesticide products. The benefit would be substantial in the form of better and more uniform data on pesticide product performance, for use by Agency analysts and others.

Legal Authority: 21 USC 136a/FFDCA 409

CFR Citation: 40 CFR 180.32

Legal Deadline: None.

Abstract: This regulation will set forth procedures by which food additive tolerances, required by section 409 of the Federal Food, Drug and Cosmetic Act (FFDCA), may be amended or revoked. It may include revisions to FIFRA section3 and FFDCA section 408 regulations to make them consistent with the new regulations.

2690. RESTRICTED USE CLASSIFICATION FOR CERTAIN ACTIVE INGREDIENTS USED IN TERMITICIDES

Significance: Regulatory Program

Legal Authority: 7 USC 136 /FIFRA 3

CFR Citation: 40 CFR 162.31

Legal Deadline: None.

Abstract: FIFRA requires that pesticides be classified for either general use or restricted to trained, certified pesticide applicators. This rule would classify certain active ingredients in termiticides for restricted use based on the hazards of misuse. Classification for restricted use permits the continued use of certain pesticides which, if used without restrictions, may have adverse effects on human health and the environment.

2691. ● RESTRICTED USE CLASSIFICATION FOR GROUNDWATER CONTAMINATING PESTICIDES

Significance: Regulatory Program

Legal Authority: 7 USC 136 /FIFRA

CFR Citation: 40 CFR 162.30

Legal Deadline: None.

Abstract: This rule will provide a scheme for identifying pesticides which may pose an unacceptable hazard because of a tendency to leach into groundwater. Options for mitigating the hazard of pesticides having the potential for leaching into groundwater will be developed as well as criteria for classifying them for restricted use. Restricted use pesticides generally may be applied only by state certified applicators. Other restrictions on conditions or locations of use will be considered when application by skilled persons may not be sufficient to prevent pesticides from posing a hazard due to its tendency to leach into groundwater.

Abstract: This action is intended to develop regulations to allow the sale of restricted use pesticides to persons who are not certified under special circumstances as set forth by Congress in 1978. 2695. EXPERIMENTAL USE PERMITS (REVISION)

Legal Authority: 7 USC 136 /FIFRA 4

CFR Citation: 40 CFR 172

Legal Deadline: None.

Abstract: This proposed revision will amend the existing regulations (40 CFR 172) pertaining to Experimental Use Permits (EUPs) to incorporate the policies set forth in the Office of Science and Technology Policy, which were published in the Federal Register on June 26, 1986 (51 FR 23313). The existing regulations exempt prospective registrants from the requirement of obtaining an EUP if they propose to conduct tests which will involve less than 10 acres of land and less than one surface acre of water. The proposed revision would require them to notify EPA if tests are to involve genetically altered or manipulated microorganisms or nonindigenous pathogenic microorganisms and will describe certain data required to be submitted at the time of notification so that the Agency may determine whether an EUP will be required.

Significance: Regulatory Program

Legal Authority: 7 USC 136 / FIFRA 25

CFR Citation: 40 CFR 170

Legal Deadline: None.

Abstract: The worker protection standards for agricultural pesticides will be revised to reflect new and developing requirements for the registration, reregistration and use of pesticides. The current standards need to be revised in order to increase the scope of coverage, update the provisions, clarify definitions and responsibilities, and improve implementation, compliance, and enforcement.

Significance: Regulatory Program

Legal Authority: 7 USC 136(a) / FIFRA 3

CFR Citation: 40 CFR 162

Legal Deadline: None.

Abstract: These regulations will revise procedures and requirements for the registration, reregistration and classification of pesticide products as restricted use. The revisions are intended to improve the clarity of the existing rule and to integrate into the procedures aspects of the registration process, such as the Registration Standards program, which were initiated since the original regulation was promulgated.

2699. REPORTING REQUIREMENTS FOR RISK/BENEFITS INFORMATION

Legal Authority: 7 USC 136 /FIFRA 6

CFR Citation: 40 CFR 153

Legal Deadline: None.

Abstract: FIFRA Section 6(a)(2) requires that registrants report to EPA additional factual information regarding unreasonable adverse effects of their products. In September 1985, EPA revised its 1979 section 6 (a)(2) enforcement policy by publishing a notice which expanded upon the types of factual information which must be reported and established uniform timeframes for compliance. In response to comments received on this notice, the Agency is revising it to clarify the types of information which registrants must report to EPA.

2700. REGISTRATION OF PESTICIDE PRODUCING ESTABLISHMENTS (REVISION)

Legal Authority: 7 USC 136 / FIFRA 7

CFR Citation: 40 CFR 167

Legal Deadline: None.

Abstract: This regulation amends the existing regulations on registering establishments that produce pesticides.

EPA—FIFRA

Final Rule Stage

The regulation implements the Congressional mandate to register establishments that produce active ingredients used in pesticides.

Legal Authority: 7 USC 136 /FIFRA 12, 18

CFR Citation: 40 CFR 153.12; 40 CFR 166.7

Legal Deadline: None.

Abstract: EPA is proposing to treat as unlawful under FIFRA section 12 or restrict the advertising of certain uses of pesticides authorized for experimental use, emergency use, and special local needs. The proposed policy will also address advertising of other unregistered pesticides and pesticide use patterns. This policy is intended to prevent misuse of pesticides which could cause unreasonable adverse effects on humans or the environment.

Significance: Regulatory Program

Legal Authority: 31 USC 9701 /Independent Offices Appropriation Act of 1952

CFR Citation: 40 CFR Not applicable

Legal Deadline: None.

Abstract: Under the authority of the Independent Offices Appropriation Act (IOAA) of 1952, the Agency is proposing to establish user fees for processing pesticide registration actions which constitute special services to registrants. The Agency is also considering establishing fees for other special services such as re-registration. The proposed registration fee system would place all or part of the burden of payment for the Agency's services on those who benefit from the service rather than on the Agency.

Legal Authority: 15 USC 2605/TSCA 6; 15 USC 2607/TSCA 8

CFR Citation: 40 CFR 761

Legal Deadline: None.

Abstract: Under the authority of TSCA, EPA is considering rulemaking which would require that all PCB wastes be manifested for disposal. The purposes of the regulation would be 1) to obtain information about handlers and storers of PCB wastes; and 2) to track shipment of wastes containing PCBs. Issues still under consideration are the scope of the generator's obligation to notify, and whether to exclude small quantities of wastes.

2707. ● RESTRICTIONS ON DISPOSAL OF DRAINED ELECTRICAL EQUIPMENT

Legal Authority: 15 USC 2605

CFR Citation: 40 CFR 761.60(b)(4)

Legal Deadline: None.

Abstract: EPA is considering rulemaking to address the issues posed by improper disposal of electrical equipment which once contained PCB contaminated oil. Alternatives being considered are regulation of the scrapyards which receive the drained equipment. Benefits of the regulatory action may be a reduction in the number of Superfund sites.

2708. DECISIONS ON TEST RULES

Legal Authority: 15 USC 2603 / TSCA 4

CFR Citation: 40 CFR 799

Legal Deadline: None.

Abstract: The following table lists chemicals for which EPA will initiate rulemaking to require testing or publish a notice which provides the reasons for not doing so. The list includes chemicals which have been designated for priority testing consideration by the Interagency Testing Committee as well as those chemicals (i.e., recommended and non-designated chemicals) for which the 12-month statutory requirement does not apply. The list also includes chemicals or categories of chemicals which have been identified for testing consideration by other EPA program offices and through TSCA review processes.

2712. CHEMICAL SPECIFIC SIGNIFICANT NEW USE RULES TO EXTEND PROVISIONS OF SECTION 5(E) ORDERS

Legal Authority: 15 USC 2604 /TSCA 5

CFR Citation: 40 CFR 721

Legal Deadline: None.

Abstract: When the Agency determines that in the absence of adequate safety data, the uncontrolled manufacture, import, processing, distribution, use or disposal of a PMN substance may present an unreasonable risk, it may issue a proposed order under section 5(e) to limit the aforementioned activities. However, section 5(e) orders apply only to the PMN submitter. Once the substance is placed on the TSCA chemical inventory, other persons process the substance without controls. Therefore EPA, by rule, are free to manufacture, import, or process the substance without controls. Therefore EPA, by rule, designates manufacture, import, or processing of the substances for use without the specified controls as a significant new use. These SNURs ensure that the original submitter is not at a competitive disadvantage and that no uncontrolled activities will occur without an opportunity for prior Agency review.

2713. GENERIC SIGNIFICANT NEW USE RULE FOR ACRYLATE COMPOUNDS

Legal Authority: 15 USC 2694 /TSCA Section 5

CFR Citation: 40 CFR 721

Legal Deadline: None.

Abstract: The generic acrylate significant new use rule may require any person who proposes to manufacture, import, or process an acrylate/methacrylate subject to the category definition contained within the proposed rule to notify EPA at least 90 days in advance of the initiation of a significant new use. The significant new use rule will apply to a subset of acrylates and methacrylates added to the inventory after the effective date of the rule. It will no longer be necessary to issue routine 5(e) orders or chemical specific SNURs for those acrylates covered by the rule.

2714. ● RULEMAKING CONCERNING CERTAIN MICROBIAL PRODUCTS ("BIOTECHNOLOGY")

Significance: Regulatory Program

Legal Authority: 15 USC 2604 /TSCA 5; 15 USC 2607 /TSCA 8

CFR Citation: 40 CFR 704; 40 CFR 720; 40 CFR 721

Legal Deadline: None.

Abstract: Under the authority of the Toxic Substances Control Act, the agency is proposing three separate regulatory actions for manufacturers, importers, and processors of certain microbial products of biotechnology. Under section 5, the Agency is propos proposing to amend its definition of "small quantities solely for research and development" contained in the Premanufacture Notification (PMN) Rule, thereby requiring persons to submit PMNs prior to testing new microorganisms in the environment. EPA also is proposing significant new use notification requirements under section 5(a)(2), which would require persons to notify the Agency of new environmental applications of certain pathogens. In addition, the Agency may be proposing section 8(a) reporting requirements for persons who are using microorganisms in the requirements. The primary objective of these actions is to ensure uses of microorganisms in the environment, and to obtain data for use in evaluating the biotechnology programs and the biotechnology industry. 2715. NITROSAMINES IN METALWORKING FLUIDS

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6

CFR Citation: 40 CFR 747

Legal Deadline: None.

Abstract: The formulation of water-based metalworking fluids with nitrite in combination with alkanolamines may present an unreasonable risk to machinists due to the formulation of nitrosamines, particularly n-nitrosodiethanolamine (NDELA). Recent studies indicate that NDELA is a potent animal carcinogen. EPA may either propose to prohibit the intentional addition of inorganic nitrites to water-containing metalworking fluids that contain amines, refer occupational risks to the Occupational Safety and Health Administration under section 9(a) of TSCA, or initiate other actions.

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6; 15 USC 2608 / TSCA 9

CFR Citation: 40 CFR 765

Legal Deadline: None.

Abstract: As described in the Federal Register on May 23, 1984, the Agency has been investigating regulatory options for the reduction of three categories of exposure to formaldehyde: 1) residents exposed to formaldehyde emissions from wood products used in the construction of manufactured homes: 2) similarly exposed residents of conventional homes: 3) apparel manufacture employees exposed to formaldehyde released from treated fabrics. Because OSHA proposed a standard in December 1985 that applies to all occupational exposure, EPA has terminated its investigation with respect to apparel manufacturing employees. Investigation of risks from exposure to formaldehyde emissions from wood products is being conducted in consultation with HUD and CPSC. This investigation may lead to the initiation of various control alternatives, including section 9 referral to other agencies and/ or section 6 regulations.

Abstract: Section 6(e)(3)(b) of TSCA provides that the Administrator may grant, by rule, exemptions from the prohibitions on the manufacture, processing and distribution in commerce of PCBs upon finding (1) that granting the exemption will not pose an unreasonable risk of injury to health or the environment, and (2) that good faith efforts have been made to develop a PCB substitute which does not pose an

Significance: Regulatory Program

Legal Authority: 15 USC 2605 / TSCA 6, 15 USC 2608 / TSCA 9

CFR Citation: 40 CFR 754

Legal Deadline: None.

Abstract: EPA, in consultation with the Consumer Product Safety Commission, Occupational Safety and Health Administration and Food and Drug Administration, is developing a comprehensive and integrated strategy for a regulatory investigation of methylene chloride and five other chlorinated solvents. In some cases, these chlorinated solvents are competitive and can be easily substituted for each other in a number of uses. The integrated effort is being conducted to reach general agreement on the risks associated with the solvents and to avoid ineffective risk management actions that may occur due to solvent switching or pollutant transfer among media which could be caused by piecemeal regulation. Data are being gathered for six solvents (methylene chloride, perchloroethylene, trichloroethylene, methyl chloroform, carbon tetrachloride, and CFC-113) and their potential substitutes. This regulatory investigation is focused on four major use categories: dry cleaning, metal degreasing, paint stripping and aerosol application. The investigation will determine whether coordinated regulatory controls are needed to eliminate or reduce exposure to these solvents.

2721. SARA SECTION 313 TOXIC CHEMICAL RELEASE REPORTING RULE

Significance: Regulatory Program

Legal Authority: SARA Sec 313

CFR Citation: 40 CFR Not applicable

Legal Deadline: Statutory, December 1987.

Abstract: This action publishes a uniform Toxic Chemical Release Reporting form for the annual reporting of emissions of over 300 designated toxic chemicals and compounds to all environmental media. As required by statute, owners and operators of facilities in SIC Codes 20-39 with 10 or more full time employees must report annually on their emissions if they manufacture, process, or otherwise use a listed toxic chemical in amounts that exceed thresholds as outlined in the statute.

Abstract: This amends the test rule development and exemptions procedural rule published October 10, 1984 (49 FR 39776) to allow for rulemaking to be conducted in a single phase (i.e., a proposed rule and a final rule covering both the effects for which testing is necessary and the testing methodology) and adds consent orders as a means of obtaining test data required under Section 4 of TSCA. In addition, this rule will simplify the procedures governing the development and implementation of testing requirements under 2-phase rulemaking, and amend the current procedures governing modification of test standards and schedules for tests required under test rules and testing consent agreements.

Abstract: Subpart A of part 721 of 40 CFR contains general provisions for Significant New Use Rules (SNURs). The Agency has received comments requesting that the general provisions be modified to revise its hazard communication provisions to make them more compatible with OSHA's Hazard Communication Standard; and to allow manufacturers and processors to seek Agency approval, outside the context of a PMN submission, for risk management measures which are equivalent to those described in a SNUR. Based on comments, EPA has proposed revisions to the general provisions for SNURs.

Abstract: On October 22, 1986, the Asbestos Hazard Emergency Response Act (AHERA) of 1986 (Public Law 99-519) was signed into law. Under AHERA, EPA is directed to promulgate regulations which provide a framework for addressing asbestos problems in public and private schools. The statute sets deadlines of 180 days after enactment for EPA to issue proposed rules and 360 days for issuance of final rules. EPA must develop regulations which include requirements for: the inspection of all school buildings for asbestos-containing materials (ACM); the identification of circumstances requiring response actions; descriptions of the appropriate response actions; the implementation of response actions; the establishment of a periodic surveillance program for ACM; the establishment of an operations and maintenance program for friable ACM; the preparation and implementation of asbestos management plans by local educational agencies; and the transportation and disposal of waste ACM from schools.

2737. SECONDARY TREATMENT/PERCENT REMOVAL REQUIREMENTS FOR COMBINED SEWER SYSTEMS

Legal Authority: 33 USC 1311(b)(1)(B) /CWA 301(b)(1)(B); 33 USC 1314(d)(1) /CWA 304(d)(1)

CFR Citation: 40 CFR 133

Legal Deadline: None.

Abstract: In this amendment the Agency will propose a mechanism for permit adjustments for treatment plants served by Combined Sewer Systems similar to that which was recently promulgated (June 3, 1985) for separate sewer systems. The existing regulation requires 85% removal of BOD5 and suspended solids (65% for equivalent treatment) from treatment plants served by combined sewers during dry weather flow conditions. Problems exist in meeting these requirements when plants experience less concentrated influents.

CFR Citation: 40 CFR 501

Legal Deadline: Statutory. 12/15/86 for state program approval procedures (Water Quality Act of 1987).

Abstract: The agency proposed requiring States to develop and obtain approval for sludge management programs. Included in the proposal were: 1) program approval procedures; and 2) the elements of an approvable State program, including compliance monitoring and enforcement provisions. The agency will be developing revised state program regulations to conform to the new requirements of the Water Quality Act of 1987.

Legal Authority: 33 USC 1311 / CWA 301; 33 USC 1314 / CWA 304; 33 USC 1316 / CWA 306; 33 USC 1317 / CWA 307; 33 USC 1361 / CWA 501

CFR Citation: 40 CFR 455

Legal Deadline: Statutory, December 31, 1986. Statutory deadline indicates Congressional intent that this regulation be expeditiously promulgated.

Abstract: On October 4, 1985 the EPA promulgated a final regulation establishing best available technology economically achievable, new source performance standards, pretreatment standards for existing sources and pretreatmemt standards for new sources for the pesticide industry under the Clean Water Act. In response to a joint motion filed by the Agency ad interested parties for a voluntary remand, on July 25, 1986, the final

regulation was remanded to the EPA by the Eleventh Circuit Court of Appeals. EPA removed the BAT, NSPS, PSNS, and PSES pesticide regulation from the Code of Federal Regulations at the direction of the Court, and informed the public that the regulation is no longer effective (December 15, 1986; 51 FR 44911). The Agency intends to reconsider this regulation and to establish new effluent limitation guidelines and standards for the pesticide manufacturers and formulator/packagers industry in a future rulemaking. This action does not in any way affect the best practicable control technology currently available limitations which were published on April 25, 1978 and September 29, 1978. These limitations are still effective.

Legal Authority: 33 USC 1311(h)/CWA 301(h)

CFR Citation: 40 CFR 125

Legal Deadline: None.

Abstract: The revisions to the regulations primarily are intended to respond to statutory changes made to sec. 301(h) of the Clean Water Act (33 USC 1311(h)), which governs secondary treatment waivers for municipal discharges into marine waters. The statutory changes to be addressed include, among other things, new requirements for minimum treatment levels and additional requirements for pretreatment programs for certain waiver applicants. In addition, the Agency is considering revising the regulations to more specifically address procedures and requirements for the renewal of secondary treatment waivers. The revised regulations will affect only a limited number of municipal treatment plants since the statutory deadline for applying for a secondary treatment waiver expired in 1982.

Abstract: EPA will evaluate additional categories of industrial discharges for hazardous or toxic pollutants; identify subcategories based upon production processes, pollutants, and applicable technologies; and determine the extent of the environmental problem and the practicality and efficiency of issuing effluent guidelines. Potential industrial categories for analysis will be selected based on requests from the EPA regional offices, states, and municipalities and from results of internal studies. Examples of industrial categories which will be evaluated include: hazardous waste treaters; solvent, barrel, and waste oil reclaimers; hospitals; equipment manufacturers; transportation sources; industrial laundries; and several others. Regulations for these industries, if appropriate, will be based on complex engineering and economic studies to determine wastewater characteristics and treatment capabilities of each industrial category and subcategory.

Proposed Rule Stage

Legal Deadline: None.

Abstract: These amendments are necessary to clarify the existing regulations, incorporate program experience, and respond to statutory amendments and the results of two lawsuits. Those lawsuits are the City of New York decision (543 F. Supp.1084), which involved the consideration of the need for ocean dumping and availability and impacts of land-based alternatives, and NWF v. Costle decision (629 F. 2d 118), which involved dredged material issues. Among other things, the statutory amendments to be addressed in the Regulatory Revisions include provisions applicable to the ocean disposal of low-level radioactive waste. Significant impacts on small entities (i.e., small business and small governmental jurisdictions) seem unlikely.

2754. GUIDELINES FOR CLASSIFYING GROUND WATER UNDER THE EPA GROUND WATER PROTECTION STRATEGY

Significance: Regulatory Program

Legal Authority: None

CFR Citation: Not applicable

Legal Deadline: None.

Abstract: In August 1984, EPA issued Groundwater Protection Strategy to provide objectives to guide the Agency's efforts to protect ground water. The strategy incorporated views of State and local governments, industry, a broad-cross section of public-interest groups, and other Federal agencies who had been invited to comment on the development of the strategy. One of the major factors toward the development of the strategy was the need to achieve greater consistency among the many EPA programs in protecting ground water and the need to take into account its value and vulnerability in developing protection and cleanup approaches. These guidelines are designed to provide operational definitions for assisting in implementing such a differential protection approach. The Agency published draft final guidelines and solicited public comment through March 1987. The Agency will finalize the guidelines based on comments received.

2759. EFFLUENT GUIDELINES FOR PHARMACEUTICALS

Legal Authority: 33 USC 1311 / CWA 301; 33 USC 1314 / CWA 304; 33 USC 1316 / CWA 306; 33 USC 1317 / CWA 307; 33 USC 1361 / CWA 501

CFR Citation: 40 CFR 439

Legal Deadline: None.

Abstract: EPA has promulgated final BPT, BAT, NSPS, PSES and PSNS effluent limitations and standards for the pharmaceutical manufacturing point source category. Additionally, the Agency may promulgate NSPS regulations to control the discharge of conventional pollutants from new source direct dischargers. BCT limitations have been established based on the final BCT cost test methodology (51 FR 24974). The Agency will also finalize BAT and NSPS regulations to control the discharge of the nonconventional pollutant, COD, at a later time.

CFR Citation: 40 CFR 454

Legal Deadline: None.

Abstract: The Agency will promulgate BPT for subcategories A through F (promulgated as interim final on May 18, 1976 and subcategory G proposed November 29, 1979). NSPS regulations for four subcategories will also be promulgated, as proposed on November 29, 1979. All seven subcategories of the gum and wood chemicals industry (proposed in 1979), have been excluded from toxic pollutant control under authority of the NRDC/EPA settlement agreement (Paragraph 8). Therefore, BAT and pretreatment standards for new and existing sources (proposed in November 1979) will be withdrawn. The Agency will publish guidance describing wastewater treatment alternatives, and the bases for the exclusion of BAT and pretreatment standards.

Abstract: EPA promulgated effluent limitations guidelines and standards for BPT, BAT, NSPS and PSES for the pulp, paper and paperboard point source category (ro CFR 430) including builder's paper and board mills (40 CFR 431). The final BCT methodology was published on July 9, 1986 and EPA promulgated final BCT regulations for the pulp, paper and paperboard point source category on December 17, 1986 (51 CFR 45232). The Agency may promulgate PCB regulations for the fine and tissue paper sector of the de-ink subcategory and BOD5 limitations for the acetate grade production in the dissolving sulfite pulp subcategory.

Legal Deadline: Judicial, October 30, 1987.

Abstract: The Agency is developing BPT, BCT, BAT and NSPS for mines and mills that beneficiate gold ores by gravity separation methods. These methods include mining of placer deposits, dredge mining, and hydraulic mining operations. These limitations will apply to wastewater generated by these operations and are an addition to those Ore Mining and Dressing subcategories for which final regulations were issued on December 3, 1982. During the month of September, the Agency will file a motion for modification of the Consent Decree to extend the date for promulgation.

CFR Citation: 40 CFR 421

Legal Deadline: None.

Abstract: In response to Settlement Agreements, the Agency promulgated amendments to the regulations previously issued on 3/8/84 (49 FR 8742). The first portion of these amendments is in response to a Settlement Agreement (11/27/85) affecting the primary and secondary aluminum subcategories. The recently promulgated amendments for this segment include regulations for BAT, pretreatment, and new source standards to limit the discharge of pollutants from facilities in these subcategories. In response to separate Settlement 6/26/85, EPA will promulgate amendments for the primary tungsten subcategory. These amendments addressed limitations for BPT, BAT, pretreatment and new source standards to limit the discharge of pollutants from facilities in this subcategory.

2768. DISCHARGE OF OIL (REVISION)

Legal Authority: 33 USC 1321 / CWA 311

CFR Citation: 40 CFR 110

Legal Deadline: None.

Abstract: This regulation defines harmful quantities of oil for purposes of section 18(m)(3) of the Deepwater Port Act of 1974 and incorporates the 1977, 1978 and 1980 amendments to section 311 of the Clean Water Act (CWA). Generally, this action extends reporting requirements for oil spills beyond the continuous zone to ocean waters and provides for an exemption from section 311 for oil discharges covered under MARPOL and section 402 of the CWA.

Legal Authority: 33 USC 1321 / CWA 311

CFR Citation: 40 CFR 151

Legal Deadline: None.

Abstract: This regulation's purpose is to prevent spills of hazardous substances into navigable waters. It sets forth requirements for the Spills Prevention Control and Countermeasure Plans for facilities which (a) are not related to transportation, (b) which store, manufacture or otherwise handle hazardous substances at their facilities, and (c) are subject to NPDES permits. The Agency will likely exempt any small facilities which store less than ten times the reportable quantities of spilled, hazardous substances.

Legal Authority: 33 USC 1410 /MPRSA

CFR Citation: 40 CFR 228; 40 CFR 234

Legal Deadline: None.

Abstract: This action is a finalization of a portion of the ocean incineration regulation, which was proposed on February 28, 1985. This rule provides specific criteria for evaluating candidate sites, selecting specific sites and establishes the procedures for designating and listing sites for use after issuance of and under the terms of an ocean incineration permit. Designation of sites is a prerequisite to issuance of a permit for use of a site. Promulgation of this rule will allow the Agency to begin the lengthy process of site evaluation, selection and designation.

Legal Authority: 42 USC 2021(h) / AEA 274(h)

CFR Citation: 40 CFR 191

Legal Deadline: None.

Abstract: On August 15, 1987, the Agency promulgated generally applicable environmental standards for the management and disposal of spent nuclear fuel, high-level and transuranic radioactive wastes. These Standards applied to management and disposal of such materials generated by activities under the jurisdiction of the Department of Energy or regulated by the Nuclear Regulatory Commission. They established limits for the release of radioactive materials to the environmental, several petitions for review were filed and consolidated in the U.S. Court of Appeals for the First Circuit. On July 17, 1987, the Court vacated and remanded the Standards to the Agency for revision consistent with its ruling.

CFR Citation: 40 CFR 124; 40 CFR 144; 40 CFR 146; 40 CFR 148

Legal Deadline: Statutory, August 8, 1988.

Abstract: This action proposes to amend the regulations governing the underground injection of hazardous wastes in two major areas. Additions to Part 146 propose to impose stricter standards on the construction and operating requirements applicable to owners and operators of Class I hazardous waste wells. New Part 148 would codify the EPA's regulatory framework for implementing the land disposal restrictions that are directly applicable to injection wells. Amendments to Parts 124 and 144 modify administrative procedures that applicable to Class I wells.

2791. NATIONAL PRIMARY DRINKING WATER REGULATIONS: SYNTHETIC ORGANIC CHEMICALS AND INORGANIC CHEMICALS, MONITORING FOR UNREGULATED CONTAMINANTS

Significance: Regulatory Program

Legal Authority: 42 USC 300 / SDWA 1412

CFR Citation: 40 CFR 141

Legal Deadline: Statutory, June 19, 1988.

Abstract: EPA is reproposing maximum contaminant level goals (MCLGs) and proposing National Primary Drinking Water Regulations (NPDWRs) for about 40 synthetic organic chemicals and inorganic chemicals. The NPDWRs consist of proposed maximum contaminants level (MCLs), as well as proposed monitoring, reporting, and public notification requirements for these compounds. This notice proposes the best available technology (BAT) upon which the MCLs are based and BAT for the purposes of issuing variances. In addition to the NPDWRs for the synthetic organic chemicals and organic chemicals, the notice proposes monitoring requirements for other synthetic organic chemicals which are not regulated by NPDWRs.

Significance: Regulatory Program

Legal Authority: 42 USC 300 /SDWA 1412

CFR Citation: 40 CFR 141

Legal Deadline: Statutory, December 19, 1987.

Abstract: EPA plans to establish regulations specifying criteria that States will use to determine which surface water systems will be required to install filtration. The regulations will also address performance criteria for filtration systems. The basis of the regulations is protection from potential disease caused by Giardia, viruses, and other pathogens. MCLGs and MCLs monitoring requirements will also be set for microbiological contaminants, such as total coliforms and turbidity.

Significance: Regulatory Program

Legal Authority: 42 USC 300 /SDWA 1412

CFR Citation: 40 CFR 141

Legal Deadline: Statutory, January 1, 1988.

Abstract: A list of contaminants that may require regulation under the SDWA will be published. The Agency will then set Primary Drinking Water Regulations for any contaminant that may have any adverse effect upon the health of persons and which is known or anticipated to occur in public water systems. MCLGs and MCLs/Monitoring will be established for at least 25 of the contaminants on the list by January 1, 1991. Legal Deadline: Statutory, November 8, 1986.

Abstract: EPA has determined not to list recycled oil as a hazardous waste. Furthermore, the 11/19/86 notice 51 FR 41900 delineates the Agency's intention to pursue different strategies to control used oil which is to be recycled and use oil bound for disposal. Used oil bound for disposal will be regulated either under section 6 of TSCA or under a RCRA disposal listing. The 11/19/86 notice sets out schedules for both the TSCA and RCRA regulatory development strategies. The notice states that although some controls on recycling may be promulgated in the interim, comprehensive recycling management rules will not be issued until the disposal controls, under either TSCA or RCRA, are issued. The Agency does not have a more specific schedule for proposing these recycling regulations.

Legal Authority: 42 USC 6907a / RCRA 1008a; 42 USC 6944 / RCRA 4004; 42 USC 6949 / RCRA 4010

CFR Citation: 40 CFR 257

Legal Deadline: Statutory, March 31, 1988.

Abstract: The Hazardous and Solid Waste Amendments of 1984 (HSWA) require EPA, by March 31, 1987, to revise the subtitle D criteria for facilities that may receive hazardous household wastes or hazardous wastes from small quantity generators. In response to this statutory mandate, EPA is revising the subtitle D criteria for those facilities. At a minimum these criteria must include ground-water monitoring requirements, location restrictions, and corrective action requirements.

Abstract: This action will change the subpart F groundrules monitoring regulation. The following is a summary of the major changes:

o allow site-specific data for groundwater monitoring variances;

o allow flexibility in well installation requirements when access to waste management boundary is difficult;

o clarify definition of waste management area;

o allow a return to detection or compliance monitoring as appropriate;

o allow flexibility in schedules for submittal of information upon approval of Regional Administrator;

o require flow rate and direction determination upon change in ground water gradient;

o clarify monitoring authority of the uppermost aquifer; and

o clarify R.A.'s authority to allow monitoring of a subset of Appendix IX constituents.

Significance: Regulatory Program

Legal Authority: 42 USC 6924 /RCRA 3004

CFR Citation: 40 CFR 264.18

Abstract: Section 3004(o)(7) of RCRA requires EPA to promulgate additional standards for the location of hazardous waste treatment, storage, and disposal facilities. Two location standards (floodplain and seismic restrictions) already exist at 40 CFR Part 264.18. Additional standards will specify criteria for the acceptable location of new and existing treatment, storage and disposal facilities.

Legal Authority: 42 USC 6924 /RCRA 3004; 42 USC 6925 /RCRA 3005

CFR Citation: 40 CFR 264; 40 CFR 265

Legal Deadline: None.

Abstract: The current regulations require that closure of a hazardous waste unit begin after the final receipt of hazardous wastes. The proposed rule will identify the circumstances under which a unit that ceases to receive hazardous wastes may continue to accept non-hazardous wastes. Amendments will identify conditions for the subsequent use of a unit for non-hazardous waste management and coordination with other closure activities of a hazardous waste management facility. Portions of the closure requirements (Subpart G) will be amended in both parts 264 and 265. These changes will increase the flexibility in the current regulations.

Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3004(u), 3004(v)

CFR Citation: 40 CFR 264; 40 CFR 270

Legal Deadline: None.

Abstract: These regulations set forth the technical and procedural requirements for conducting corrective action to clean up significant releases to air, surface water, ground water and soil at solid waste management units (SWMUs) at operating, closed, or closing RCRA facilities. The regulations will be used to define the structure of the program, and the requirements for implementing remedial action, remedy selection and corrective measures. Currently, the permitting agencies must make case-by-case decisions on action.

Legal Authority: 42 USC 6924 /RCRA 3004

CFR Citation: 40 CFR 268

Legal Deadline: Statutory, January 15, 1988.

Abstract: The Agency is investigating the need to set separate treatment standards for soil and debris containing hazardous wastes. By statute, these wastes do not become subject to the Land Disposal Restrictions Rule (51 FR 40572 and 52 FR 25760) for Solvents and Dioxins (RCRA 3004(e)) and the California List (RCRA 3004(d)) until 11/8/88. Significance: Regulatory Program

Legal Authority: 42 USC 6925 /RCRA 3004 and 3005

CFR Citation: 40 CFR 270

Legal Deadline: None.

Abstract: This regulation will amend RCRA procedures (codified at 40 CFR 270.41 and 270.42) for modifying hazardous waste management permits. The rulemaking provides EPA, authorized states, and permittees more flexibility in modifying permits, particularly where modifications will increase public and environmental protection or facilitate compliance with new regulations. At the same time, the regulation will provide for improved public participation in the permit modifications. The rule is being developed through regulatory negotiation with representatives of EPA, the states, industry, and public interest groups. RIN 2050-AA37 has been combined with this action.

Significance: Regulatory Program

Legal Authority: 42 USC 6941 to 6949 /RCRA 4001-4009

CFR Citation: 40 CFR 261

Legal Deadline: None.

Abstract: Based on the mining waste Report to Congress submitted 12/31/85, comments on the report, and other available information, EPA has determined that regulation of mining waste under Subtitle C of the Resource Conservation and Recovery Act (RCRA) is not warranted at this time (51 FR 24496). Instead, EPA plans to develop a program for mining waste under Subtitle D of RCRA, working with the States to determine the specific nature of their current mining waste activities and their future plans to administer such programs. EPA will also work with other Federal agencies (e.g., DOI, USGS) to avoid duplication.

2835. HAZARDOUS WASTE MISCELLANEOUS UNITS

Legal Authority: 42 USC 6924 / RCRA 3004; 42 USC 6925 / RCRA 3005

CFR Citation: 40 CFR 264; 40 CFR 260; 40 CFR 270

Legal Deadline: None.

Abstract: General performance requirements will be established for hazardous waste management units that are not covered by 40 CFR Part 264, so that permits can be obtained. These types of facilities under Subpart X include deep mines, silos, salt mines, thermal treatment units, and open detonation units.

2836. BURNING OF HAZARDOUS WASTE IN BOILERS AND INDUSTRIAL FURNACES

Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3004, 3005

CFR Citation: 40 CFR 266

Legal Deadline: Statutory, November 8, 1986.

Abstract: Burning of hazardous waste in boilers for the purpose of heat recovery is currently exempt from regulation under RCRA. The Hazardous and Solid Waste Amendments of 1984 require the Agency to develop technical standards for the burning of hazardous waste fuels. This regulation will establish standards for controlling emissions of organic compounds, metals, and hydrogen chloride from boilers and industrial furnaces that burn hazardous waste.

Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3004; 42 USC 6925 / RCRA 3005

CFR Citation: 40 CFR 264; 40 CFR 265; 40 CFR 260; 40 CFR 270; 40 CFR 271

Legal Deadline: Statutory, May 8, 1987.

Abstract: EPA has proposed these regulations under the authority of section 3004(a) and 3004(o)(4) of the Resource Conservation and Recovery Act. The regulations will require: 1) new landfills, surface impoundments, waste piles, and land treatment units for the treatment, storage, or disposal of hazardous wastes to utilize an approved leak detection system; 2) double liners and leachate collection systems for waste piles, and certain landfills and surface impoundments; and 3) development of a construction quality assurance program for certain landfills and surface impoundments, as well as final covers at land treatment units.

2838. LIABILITY REQUIREMENTS FOR HAZARDOUS WASTE FACILITIES - CORPORATE GUARANTEE

Legal Authority: 42 USC 6901 / RCRA 3004

CFR Citation: 40 CFR 264; 40 CFR 265

Legal Deadline: None.

Abstract: The Agency is authorizing use of a corporate guarantee as a mechanism for providing liability coverage for bodily injury and property damage resulting from accidental occurrences at hazardous waste treatment, storage, and disposal facilities. The corporate guarantee, though restricted to parent corporations of hazardous waste facility owners and operators, enables more firms to comply with liability coverage requirements because it is an additional mechanism to insurance and the financial test. Legal Authority: 42 USC 6924 / RCRA 3004

CFR Citation: 40 CFR 260 to 271; 40 CFR 122 to 124

Legal Deadline: None.

Abstract: The purpose of this rule is to expand and elaborate on specific portions of the Final Codification Rule which was effective on July 15, 1985. The Final Codification Rule codified those requirements specified by the 1984 amendments to RCRA which were effective immediately or shortly after enactment. More specifically, this rule addresses such areas as corrective action for prior releases from solid waste management units, and permit modifications and post-closure permits.

Significance: Regulatory Program

Legal Authority: 42 USC 6924(o) /RCRA 3004(o)

CFR Citation: 40 CFR 264; 40 CFR 265; 40 CFR 260; 40 CFR 270; 40 CFR 144

Legal Deadline: Statutory, November 8, 1986.

Abstract: This rule establishes minimum technology requirements (e.g., double liners and leachate collection systems) for new hazardous waste landfills and surface impoundments, as well as lateral expansions and replacements to existing landfills and surface impoundments. This rule will establish standards for these systems enabling unit owners and operators to design and construct systems that will protect human health and the environment.

Significance: Regulatory Program

Legal Authority: 42 USC 6924 / RCRA 3004

CFR Citation: 40 CFR 264

Legal Deadline: None.

Abstract: EPA previously promulgated regulations for detecting contamination of groundwater at hazardous waste disposal facilities under the Resource Conservation and Recovery Act of 1976 (RCRA). The statistical methods for evaluating the groundwater data have been criticized by industry for a number of reasons. EPA is proposing revisions to the regulations. Legal Authority: 42 USC 6901 /RCRA 3004

CFR Citation: 40 CFR 264; 40 CFR 265

Legal Deadline: None.

Abstract: The Agency is considering further revisions to the financial responsibility requirements for liability coverage for third- party bodily injury and property damage resulting from accidental occurrences at hazardous waste treatment, storage, and disposal facilities. The revisions under development are intended to provide relief for hazardous waste facility owners and operators who have encountered difficulties in obtaining insurance and cannot otherwise meet liability coverage requirements. Other instruments, such as a nonparent corporate guarantee, are being analyzed for inclusion in this rulemaking. See related action in the final rule section of this Agenda.

Significance: Regulatory Program

Legal Authority: 42 USC 6905 /RCRA 3005

CFR Citation: 40 CFR 260; 40 CFR 265; 40 CFR 270

Legal Deadline: None.

Abstract: This action responds to a petition submitted to EPA by the Hazardous Waste Treatment Council (HWTC). It establishes state-wide permitting procedures for mobile hazardous waste treatment units and modifies hazardous waste delisting procedures, so that hazardous waste treatment residues could be delisted as part of the permitting process. In addition, the petition response will solicit comment on HWTC's request that EPA exempt certain treatment technologies from the requirements for hazardous waste management.

Significance: Regulatory Program

Legal Authority: 42 USC 6993(b) /RCRA 9003

CFR Citation: 40 CFR 280

Legal Deadline: Statutory. New and Existing Petroleum Tanks (02/08/87), New Chemical Tanks (08/08/87), Existing Chemical Tanks (08/08/88)

Abstract: This regulation will establish, under Subtitle I of RCRA, requirements for release detection, prevention, and corrective action all underground storage tanks holding petroleum and other regulated substances. Because of the large size of the regulated community, this rule could impact a significant number of small business entities and a Regulatory Flexibility Analysis would be conducted by EPA. Promulgation of this rule, will, for the first time, establish national requirements for storing regulated substances, including petroleum products, in underground tanks. It will not apply to underground tanks storing hazardous wastes, which are currently regulated under Subtitle C of RCRA. These regulations will include: performance standards for new tanks; address leak detection and upgrading of existing tanks; and specify response actions to releases.

Significance: Regulatory Program

Legal Authority: 42 USC 6991(b) /RCRA 9003

injury and property damage caused by sudden and nonsudden accidental releases arising from operating an underground storage tank containing petroleum. These requirements are applicable to all owners and operators, excluding Federal and State entities. The Agency is proposing aggregate levels of coverage for multiple tanks and will allow a variety of mechanisms to provide evidence of financial responsibility.

Abstract: On July 1, 1987, EPA issued an ANPRM soliciting public comment on the development of a new secondary (welfare-based) NAAQS for fine particles (those particles less than 2.5 micrometers in aerodynamic diameter). This action represents a continuation of the review process for the secondary standards for particulate matter discussed by the Agency on March 20, 1984 (49 FR 10408). The principal welfare effect to be addressed by such a standard is impairment of visibility. Once the comments on the ANPRM have been evaluated, a schedule for further action will be developed.

Abstract: The EPA has completed a preliminary assessment of air emissions from municipal waste combustors (MWC). Based on this assessment, EPA has concluded that MWC emissions may reasonably be anticipated to contribute to the endangerment of public health and welfare. As a result, EPA issued a notice in the Federal Register (52 FR 25399) that announces its intent to regulate emissions from new and modified MWC under Section 111(b). Pollutants to be regulated will include one or more designated pollutants (pollutants not regulated under Sections 108-110 or 112) thus invoking Section 111(d) which will require the issuance by EPA of existing source guidelines for use by States in the development of additional emissions standards for existing MWC.

Abstract: EPA issued a notice of intent to list cadmium under Section 112 (50 FR 42000). We are investigating emissions of cadmium and techniques that are available to control the emissions from identified source categories. If EPA decides that emission standards are warranted, cadmium will be listed under section 112, and EPA will develop proposed standards.

2865. FUEL AND FUEL ADDITIVE HEALTH EMISSIONS EFFECTS TESTING

Legal Authority: 42 USC 7545(e) / CAA 211(e)

CFR Citation: 40 CFR 79; 40 CFR 80

Legal Deadline: Statutory, August 7, 1978.

Abstract: The CAA mandates that testing protocols be developed to address at a minimum, the possible carcinogenic, mutagenic, and teratogenic effects of fuels and fuel additives as well as their effect on emissions and emission control devices. This action would implement protocols for such testing, which would have to be performed prior to: 1) fuel or additive registration, and 2) introduction of the fuel or additive into

EPA—CAA **Prerule Stage**

the marketplace. Fuels and additives already registered or on sale would also have to undergo testing, as provided for by the CAA.

Significance: Regulatory Program

Legal Authority: 42 USC 7545 / CAA 211

CFR Citation: 40 CFR 79; 40 CFR 80

Legal Deadline: None.

Abstract: Trap oxidizers, the use of which may be required to meet 1991 and later model-year heavy duty diesel particulate standards, may require the use of low sulfur diesel fuels. In promulgating the particulate standard, EPA promised to examine the need for low-sulfur fuel. In addition, fuel sulfur and aromatics content have been shown to have a direct effect on particulate emissions. This action will determine the costs and benefits of improving diesel fuel quality.

Abstract: EPA is reassessing health and welfare information which has become available since the last revision of the standard. In order to retain a unified regulatory review package in light of the emerging data base on health and welfare effects associated with longer-term averaging times, EPA has chosen to continue review of standards until such information is published and reviewed in the criteria document. The major issue is whether the new information will indicate that new standards with longer-term averaging times are required to protect public health and welfare.

Abstract: The scope of the Synthetic Organic Chemical Manufacturing Industry (SOCMI) reactor processes includes all reactor processes (other than air oxidation reactor processes) used to manufacture 173 synthetic organic chemicals produced in quantities of at least 100 million 1b/yr. These large-volume chemicals account for about 90 percent of the total domestic chemical production from the SOCMI. Furthermore, production of these large-volume chemicals is expected to have the greatest impact on nationwide VOC emissions, since the magnitude of emissions from reactor process units are generally proportional to chemical production rates.

CFR Citation: 40 CFR Not yet determined

Legal Deadline: Judicial, November 1987. Revised proposal by December 1987 and Final action by August 1988

Abstract: This action initiates a comprehensive research effort by EPA to assess issues related protection of the stratosphere, as directed by Part B, Section 157 of the CAA. The plan proposed that EPA enhance its research and analysis, participate in a series of domestic and international workshops related to stratospheric ozone, and arrive at a decision by November, 1987 whether additional regulation, either domestic or international, of stratospheric perturbants, is necessary. The plan also served as a basis for a settlement agreement between EPA and NRDC in a suit brought before the DC Circuit Court.

2888. TRADING AND BANKING OF HEAVY-DUTY ENGINE NOX AND PM EMISSION CREDITS

Significance: Regulatory Program

Legal Authority: 42 USC 7521 / CAA 202

CFR Citation: 40 CFR 86

Legal Deadline: None.

Abstract: In March 1985 the EPA promulgated NOx and PM emission standards for heavy-duty vehicles and engines. The rulemaking included a provision for emissions averaging for the final stages of standard implementation in order to mitigate the economic impact of the stringent standards. EPA realized that the averaging mechanism could provide more benefits to manufacturers with a broader product line. In order to address this issue, EPA included in the final package a provision to study the potential for mitigating this uneven distribution of benefits through an emissions credit trading program. The study was expanded to include the concept of 'banking' emissions credit. The study has been completed and made available to the public and a technical workshop was held in January 1987. EPA is analyzing the comments received from the public and from the workshop.

Legal Authority: 42 USC 7525 / CAA 206

CFR Citation: 40 CFR 86

Abstract: This action will result in amended rules to provide for certification of emissions compliance by small-volume manufacturers, including commercial importers importing vehicles into the United States. By a separate action, the Manufacturers Operations Division is revising its rules for nonconforming vehicle importation. This action is appropriate to improve the certification regulations and assure compliance with the exhaust emission standards. Current rules for small-volume manufacturers were not intended to specifically apply to conversion of previously manufactured but uncertified configurations. However, increasingly large numbers of manufacturers who import vehicles for resale have applied for EPA certification as an alternative to individual vehicle importation. This will primarily impact small businesses involved in importing motor vehicles. The likely impact of these changes will

be increased costs to these changes will be increased costs to these businesses.

Abstract: The particulate standards for 1987 and later model year Light- duty Diesel Vehicles and 1991 and later model year Heavy-duty Diesel Engines may require the use of trap-oxidizers for some vehicles and engines. Legal Authority: 42 USC 7525(b)/CAA 206; 42 USC 7542(a); 42 USC 7601(a)/CAA 501

CFR Citation: 40 CFR 86

Legal Deadline: None.

Abstract: These amendments would delete the mandatory reporting of manufacturers' internal quality assurance emission test data. Prior to promulgation of this requirement in 1980, many manufacturers voluntarily submitted their internal quality assurance data. The deletion of this requirement is not expected to improve the SEA program, especially since many manufacturers will continue to provide the data voluntarily.

Legal Authority: 42 USC 7541(b) / CAA 207(b)

CFR Citation: 40 CFR 85

Legal Deadline: None.

Abstract: This rulemaking will address the issue of establishing: (1) test procedures and standards for heavy-duty gasoline vehicles, (2) new standards for light-duty vehicles and light-duty trucks, and (3) alternative dynamometer loadings for the loaded short tests. These amendments are appropriate so that owners of heavy-duty vehicles will have emissions warranty protection and additional owners of light-duty vehicles and trucks will be entitled to warranty protection.

CFR Citation: 40 CFR 80.22; 40 CFR 80.23

Legal Deadline: None.

Abstract: This action will develop a voluntary "Preventative Action Program" to be used by gasoline retailers to help prevent self-serve fuel switching. Retailers will be afforded an affirmative defense to allegations of "allowing" fuel switching if they have effectively implemented this program. This action would also change the language of the fuel switching regulation to prohibit fuel switching in all vehicles designed to use unleaded gasoline, and not just those that still have an "unleaded only" label or fuel inlet restrictor.

Significance: Regulatory Program

Legal Authority: 42 USC 1857 /CAA 211

CFR Citation: 40 CFR 52.21; 40 CFR 51.166

Legal Deadline: Judicial, October 9, 1989.

Abstract: In March 1986, the Sierra Club, et al., filed suit against EPA for not promulgating regulations pursuant to section 166 of the Clean Air Act for nitrogen oxides (NOx). The court decision issued by the District Court for the Northern District of California on April 1, 1987, requires the EPA to propose regulations by February 9, 1988, and promulgate regulations by October 9, 1988. Work started in November on the development of PSD increment (or its equivalent) for NOx, comply with this court action.

CFR Citation: 40 CFR 52.21; 40 CFR 51.166; 40 CFR 52.24; 40 CFR 51, Appendix S

Legal Deadline: None.

Abstract: The various EPA regulations that govern new construction under the Clean Air Act generally apply to "major" new stationary sources of air pollution and "major" modifications of existing sources. They require fugitive emissions to be included in threshold applicability determinations of whether a new project is "major," but only for 30 categories of sources. The purpose of this action is to determine if surface coal mines should be added to the existing list of 30 categories.

Legal Authority: 42 USC 7524 /CAA 205

CFR Citation: 40 CFR 86

Legal Deadline: None.

Abstract: This action will address the availability of nonconformance penalties (NCPs) and specific upperlimits and penalty rates for 1991 through 1994 model year emission standards for heavy-duty vehicles and engines. The availability of NCPs will allow a manufacturer, whose vehicles or engines fail to conform with certain applicable emission standards, but which do not exceed a designated upper limit, to be issued a certificate of conformity upon payment of a monetary penalty. This rule is the third phase of NCP rulemaking. The first, published August 30, 1985 established generic aspects of NCPs. The second, published December 31, 1985, addressed NCPs applicable to 1987 and 1988 model years.

Legal Authority: 42 USC 2003 / EPCA 503

CFR Citation: 40 CFR 600

Legal Deadline: None.

Abstract: In January 1982, the United States Court of Appeals for the Sixth Circuit issued an order requiring EPA to initiate rulemaking to establish procedures for determining what, if any adjustments were due for the 1980-85 Corporate Average Fuel Economy (CAFE) test results. Adjustments for light-duty vehicles have been finalized. This rule will address the need for adjusting test results of light-duty trucks. Specifically, a supplemental proposal will consider further whether the adjustments in CAFE made for light-duty vehicles should be made for light-duty trucks.

Significance: Regulatory Program

Legal Authority: 42 USC 6924/RCRA 3004, 3007

CFR Citation: 40 CFR 264, Subparts I,J,K,L,M,N

Legal Deadline: Statutory, May 1987.

Abstract: The purpose of this action is to investigate the magnitude of the area non-combustion source air emissions from hazardous waste treatment, storage, and disposal facilities and to develop standards for monitoring and control as needed. Area sources include surface impoundments, landfills, waste piles, land treatment operations and waste water treatment facilities. Pollutants to be considered by such standards would include volatile organic compounds, particulate matter, specific toxic substances, or a combination of these. The mandate for standards development under RCRA is to protect human health and the environment.

Legal Authority: 42 USC 7410/CAA 110; 42 USC 7491/CAA 169

CFR Citation: 40 CFR 51.300-307

Legal Deadline: Judicial, August 31, 1987.

Abstract: Section 169 of the Clean Air Act requires EPA to remedy existing and prevent future visibility impairment in certain national parks, wildernesses, and international parks. In 1980 EPA promulgated these regulations for 36 states. On July 12, 1986 EPA published Federal promulgation of SIPs to cover visibility new source review and monitoring. On March 12, 1987, as required by a settlement agreement EPA proposed federal promulgation of SIPs to cover the remaining elements for 32 states which have not submitted adequate SIPs. Unless states submit revised SIPs to EPA by August 31, 1987, EPA must publish the Federal promulgation of the SIPs by November 12, 1987. Under the settlement agreement, EPA deferred action on remedying existing impairment in 4 states until August 1988.

Legal Deadline: Statutory, August 1986.

Abstract: EPA is reviewing this NSPS to determine whether revisions are warranted. The review will assess performance and costs of asphalt processing and asphalt roofing manufacturing plant control systems as well as the experience of the industry and control agencies in implementing the standard. EPA will announce the results of its review in the Federal Register.

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61

Legal Deadline: Statutory, December 1984. Statutory - Promulgation due 12/00/84

Abstract: This regulation will control benzene emissions generated by the processing of gaseous and liquid streams at coke by-product plants. The emission sources to be controlled include process equipment, storage vessels, and fugitive emissions. The standards may consist of equipment specifications, work practices, design specifications, and emission limits.

Legal Authority: 42 USC 7412 / CAA 112

CFR Citation: 40 CFR 61 G

Legal Deadline: Statutory, March 1985. Statutory - Proposal due 3/00/85

Abstract: This regulation will control emissions of coke oven emissions, which have been designated as hazardous under section 112. It will require improved maintenance and operation to limit visible emissions from wet-coal-charged coke oven batteries. The standards may apply to charging and leaks from doors, lids, or offtakes for all existing or new sources.

Legal Authority: CAA 165(e)

CFR Citation: 40 CFR 51.24(l); 40 CFR 52.21(m)

Legal Deadline: None.

Abstract: These guidelines were promulgated on September 9, 1986. However, a supplemental proposed rule was also published on that date which includes: (1) addition of specific version of the Rough Terrain Dispersion Model (RTDM) as a screening model; (2) modification of the downwash algorithm of the Industrial Source Complex (ISC) model; (3) addition of the Offshore and Coastal Dispersion (OCD) model to Appendix A; and (4) addition of the AVACTA II model to Appendix B. The purpose of the proposed changes is to augment the guidance in response to a substantial number of public comments urging the Agency to do so. EPA is only soliciting public comment on these four proposed changes.

2921. EMISSION STANDARDS AND TEST PROCEDURES FOR METHANOL-FUELED NEW MOTOR VEHICLES

Legal Authority: 42 USC 7521 / CAA 202

Legal Deadline: None.

Abstract: This rule will develop emission standards and test procedures applicable to methanol-fueled light-duty vehicles, light-duty trucks, heavy-duty engines, and motorcycles. Current regulations apply only to gasoline-fueled and diesel-powered vehicles. The lack of regulations is a hindrance to the development of methanol-fueled vehicles.

Significance: Regulatory Program

CFR Citation: 40 CFR 86

Legal Deadline: None.

Abstract: In-use motor vehicle evaporative hydrocarbon emissions greatly exceed their applicable EPA emissions standards. A major reason is that the volatility of commercial gasoline is substantially greater than that of the certification test fuel specified by EPA. This rule will consider options to deal with this problem including control of commercial fuel volatility and a change to certification test fuel volatility.

Legal Authority: 42 USC 7521/CAA 202; 42 USC 7525/CAA 206; 42 USC 7601/CAA 501

CFR Citation: 40 CFR 86

Legal Deadline: None.

Abstract: EPA is considering revising the particulate emission standards for light-duty diesel trucks with a loaded vehicle weight equal to or greater than 3751 pounds. The standard would be relaxed for the 1987-1990 model years, allowing manufacturers to devote their resources to developing particulate trap oxidizer technology. Then in 1991, the standard would be tightened to 0.13 grams per mile which is twice as stringent as the current applicable standard.

Legal Authority: 42 USC 7522 / CAA 203

CFR Citation: 40 CFR 85

Legal Deadline: None.

Abstract: EPA is considering various options for improving the effectiveness and administration of EPA's present regulation concerning the importation of nonconforming vehicles. Nonconforming vehicles are ones which have not been demonstrated to conform with Federal emission requirements. The regulatory revision options range from requiring that only certificate holders may import the vehicles (thereby bearing responsibility for their emission performance) to continuing the approach in the current regulation with various improvements, to elimination of importation of such vehicles (with

Abstract: The U.S. Court of Appeals for the D.C. Circuit has directed EPA to amend the aftermarket parts certification regulations. There were four specific areas which the Court directed EPA to revisit. EPA was directed to develop better procedures for determining adequate grounds for manufacturer denial of a warranty claim; reconsider inclusion of specialty parts into the certification system; improve the procedure for resolution of warranty cost claims by vehicle manufacturers' against certified parts manufacturers; and labeling for certified parts.

Abstract: In the May 25, 1983 NPRM (48 FR 23552) that proposed to adjust certain reportable quantities (RQs) for releases of hazardous substances, EPA explained the Agency's interpretation of each of the types of releases exempted by the definition of "federally permitted release" in Section 101(10) of CERCLA. Because of the amount of time that has passed and additional analysis undertaken since that NPRM, this action reproposes regulations to clarify the statutory language in Section 101(10) of CERCLA.

Legal Deadline: Statutory. NPRM, December 31, 1986; Final Action, April 30, 1988.

Abstract: The proposed reportable quantity (RQ) adjustments for methyl isocyanate (MIC) and lead were withdrawn by the Agency on April 4, 1985 (50 FR 13472) and September 29, 1986 (51 FR 34534), respectively. The Agency decided to retain the statutory one-pound RQs for these substances pending further technical analysis. The purpose of this action is to propose and promulgate final RQ adjustments for lead and four lead compounds. The statutory RQ for MIC will be retained until analysis of human data. CFR Citation: 40 CFR 300, Appendix A

Legal Deadline: Statutory, April 17, 1988. Deadline of 4/88 required by SARA

Abstract: This action revises the Hazard Ranking System (HRS) which is Appendix A of the National Contingency Plan. The HRS is a system for determining the relative severity of risks among releases of hazardous substances. The HRS is the primary mechanism for establishing the National Priorities List under CERCLA. SARA requires that the HRS be amended to assure, to the extent feasible, that it accurately assesses relative risk to public health and the environment. SARA specifically requires that the HRS take into consideration natural resource damages that may affect the human food chain as well as potential air contamination. The HRS must also appropriately assess human health risks associated with contamination of surface waters for drinking or recreation.

Legal Authority: 42 USC 9605 /CERCLA 105; 42 USC 9620 /CERCLA 120

CFR Citation: 40 CFR 300.66

Legal Deadline: Statutory. Annual Update.

Abstract: This action revises the National Priorities List (NPL) for uncontrolled hazardous waste sites in the National Contingency Plan (NCP). CERCLA requires that the NPL be revised at least annually. Periodic revisions will allow EPA to include sites on the NPL with known or threatened hazardous substances releases and to delete sites that have been cleaned up. Abstract: This section of SARA requires that EPA, in consultation with the General Services Administration promulgate rules which will require the disclosure of the type and quantity of any hazardous substances that have been stored, released or disposed of on federally owned land when such land is sold or otherwise transferred from the federal domain. These regulations also require that: (1) the agencies holding such land provide, at the time of transfer, a covenant warranting that all remedial actions necessary for protection of human health and the environment have been taken; and (2) any additional action found to be necessary after the transfer will be undertaken by the U.S.

2944. WORKER PROTECTION STANDARDS FOR HAZARDOUS WASTE OPERATIONS AND EMERGENCY RESPONSE

Legal Authority: 42 USC 9626(f) /SARA Sec 126(f)

CFR Citation: 40 CFR Undetermined

Legal Deadline: Statutory. 90 days after the Department of Labor promulgates standards.

Abstract: The Superfund Amendments and Reauthorization Act of 1986 (SARA) required the Secretary of Labor, within one year of the date of enactment, to promulgate standards for the health and safety protection of

EPA—CERCLA

Proposed Rule Stage

employees engaged in hazardous waste operations. SARA requires the Administrator of EPA to promulgate identical standards. The EPA apply to employees of State and Local governments in each State (currently 30) that does not have in effect an approved State Plan under section 18 of the Occupational Safety and Health Act of 1970.

Legal Authority: 42 USC 11042 /SARA 322; 42 USC 11043 /SARA 323

CFR Citation: 40 CFR 350

Legal Deadline: None.

Abstract: The regulations under section 322 provide information submitted under sections 303, 311, 312 and 313 of the Superfund Amendments and Reauthorization Act of 1986 may be claimed trade secret. Included here will be the methods for making claims of trade secrecy with the Agency, as well as Agency procedures for handling petitions from the public requesting disclosure of information claimed trade secret. The regulations under section 323 provide that health professionals may under certain circumstances request trade secret information directly from the person making the trade secret claim. Included here will be the procedures for making such a request, and the standards for documents (a statement of need and a confidentiality agreement) which must accompany the request.

2946. REPORTABLE QUANTITIES (RQS) FOR RELEASES OF POTENTIAL CARCINOGENS AND OTHER HAZARDOUS SUBSTANCES

Significance: Regulatory Program

Legal Authority: 42 USC 9602 / CERCLA 102; 33 USC 1321 / CWA 311

CFR Citation: 40 CFR 117; 40 CFR 302

Legal Deadline: Statutory. Legislation imposed a 12/31/86 deadline for proposal and a 4/30/88 deadline for the final rule.

Abstract: In March 1987 the Agency proposed adjusting, where appropriate, the statutory reportable quantities (RQs) for 273 of the hazardous substances identified in Section 101(14) of CERCLA, as amended. Most (269) of these substances have been evaluated for potential carcinogenicity. SARA 202 amends CERCLA 306 to require the Department of Transportation (DOT) to list and regulate as hazardous materials all CERCLA hazardous substances. These regulations require that when these materials are shipped in quantities equal to or greater than their RQs, they be identified as hazardous substances on shipping papers and package markings. DOT promulgated this rule with an effective date of July 1, 1987. The DOT has received several inquiries concerning six frequently transported CERCLA hazardous substances that had their RQs proposed to be adjusted in the March 16, 1987 rule. EPA has decided to expedite the final RQ adjustments for these six substances to relieve the regulatory burden on industry.

2947. REPORTABLE QUANTITIES (RQS) FOR RELEASES OF RADIONUCLIDES

Significance: Regulatory Program

Legal Authority: 42 USC 9602 /CERCLA 102

CFR Citation: 40 CFR 302

Legal Deadline: Statutory. Legislation imposes a 12/31/86 deadline for proposal and a 4/30/88 deadline for the final rule.

Abstract: EPA is adjusting the statutory one-pound reportable quantity (RQ) for radionuclides pursuant to Section 102 of CERCLA. Radionuclides consist of approximately 1,800 radioactive isotopes whose release represents differing degrees of potential harm to human health and the environment. The Agency has proposed individual adjusted RQs for 757 radionuclides, and an RQ of one curie for all of the remaining radionuclides.

CFR Citation: 40 CFR 300.66

Legal Deadline: Statutory. Annual Update.

Abstract: This action revises the National Priorities List (NPL) for uncontrolled hazardous waste sites in the National Contingency Plan (NCP). CERCLA requires that the NPL be revised at least annually. Periodic revisions will allow EPA to include sites on the NPL with known or threatened hazardous substances releases and to delete sites that have been cleaned up. EPA uses the Hazard Ranking System (HRS) to evaluate the sites. The Agency will promulgate Updates 3, 4, 5, and 6. See the related action in the proposed rule section of this Agenda.

Significance: Regulatory Program

Legal Authority: 33 USC 1344 /CWA 404(c)

CFR Citation: 40 CFR 231

Legal Deadline: None.

Abstract: This action will revise EPA's existing 404(c) regulations, in effect since October 9, 1979. It will establish the procedures to be used when EPA is considering the use of Section 404(c) of the CWA to prevent the discharge of dredged or fill material into a defined area of the waters of the United States. Section 404(c) gives the Administrator authority to prohibit or withdraw the specification of a site as a disposal site or to deny or restrict use of a disposal site. The revisions will reflect our experiences to date under Section 404(c), and more clearly address use of 404(c) in advance of a specific proposed discharge.

Semiannual Regulatory Agenda

AGENCY: Equal Employment Opportunity Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The Equal Employment Opportunity Commission is publishing its semiannual regulatory agenda pursuant to Executive Order No. 12291, 3 CFR Part 127 (1981 Compilation) and the Regulatory Flexibility Act, 5 U.S.C. Chapter 6. The agenda contains all regulations which are scheduled for review or development during the next twelve months.

FOR FURTHER INFORMATION CONTACT: Dianna B. Johnston, Acting Assistant Legal Counsel for Coordination, Office of the Legal Counsel, Equal Employment Opportunity Commission, 2401 "E" Street, NW., Washington, DC 20507; telephone (202) 634-7581.

SUPPLEMENTARY INFORMATION: The Commission identified sixteen current and projected rulemakings for inclusion in the agenda. Ten are currently under development or review by Commission staff. Three are currently in effect as interim regulations. Two of the listings have been circulated as NPRMs and one regulation has been approved in final for submission to OMB.

Signed in Washington, DC, this 28th day of August, 1987.

Abstract: UGESP Recordkeeping Provisions. On March 15, 1983, the Commission voted to review those portions of the recordkeeping provisions of the Guidelines which relate to the maintenance of data necessary to determine adverse impact. Pursuant to that vote, the Commission published in the Federal Register a notice seeking public comment in general and on several specific questions about UGESP recordkeeping. 48 Fed. Reg. 34766 (Aug. 1, 1983). Approximately 45 comments were received. The Commission is currently reviewing the comments and is considering further action. On June 12, 1984, the Commission voted to prepare an NPRM concerning certain UGESP recordkeeping requirements. Prior to publication for comment, co-signatories to UGESP will engage in discussion of recommended changes and other affected agencies will be consulted under E.O. 12067.

2967. EQUAL EMPLOYMENT OPPORTUNITY IN THE FEDERAL GOVERNMENT: HANDICAP

Significance: Regulatory Program

Legal Authority: 29 USC 701 et seq Rehabilitation Act of 1973, as amended

CFR Citation: 29 CFR 1613.701 et seq

Legal Deadline: None.

Abstract: The Commission is considering alternative ways of resolving various interpretative issues involving the definition of handicapped persons used in its section 501 regulations. One alternative would be

EEOC **Proposed Rule Stage**

to amend the definitions in the regulation itself. The purpose of these revisions would be to clarify the scope of the definitions.

2968. UNIFORM GUIDELINES ON EMPLOYEE SELECTION PROCEDURES

Significance: Regulatory Program

Legal Authority: 42 USC 2000e et seq Title VII of the Civil Rights Act of 1964

CFR Citation: 29 CFR 1607

Legal Deadline: None.

Abstract: On March 15, 1983, the Commission voted to review the recordkeeping portions of the Guidelines. During that review process, several questions arose which pertained to the substantive, non-recordkeeping provisions of the Guidelines. Consequently, the Commission decided to review the substantive portions of the Guidelines. The major substantive areas under review are: 1) the purpose of the Guidelines and whether there is still a need for the Guidelines; 2) the theory of adverse impact and the method of determining when such impact is significant; and 3) how to establish test validity. When the review is completed, the Commission will decide whether any regulatory revisions are needed.

Semiannual Regulatory Agenda

FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA)

FEDERAL EMERGENCY MANAGEMENT AGENCY

44 CFR Ch. I

Semiannual Agenda

AGENCY: Federal Emergency Management Agency (FEMA).

ACTION: Semiannual agenda.

SUMMARY: Pursuant to section 5 of Executive Order 12291 ("Federal Regulations") the Federal Emergency Management Agency is publishing its semiannual agenda for FEMA. The agenda lists regulations that will be under development or review during the period October 1, 1987 to October 1, 1988.

ADDRESS: Rules Docket Clerk, Office of General Counsel, Room 840, 500 C Street, SW., Washington, DC 20472.

FOR FURTHER INFORMATION CONTACT: For general information, contact Susan Kantor Bank, Office of General Counsel, Federal Emergency Management Agency, Washington, DC 20472, (202) 646-3973. For additional information about a specific regulation, contact the person listed as the contact point in the agenda.

SUPPLEMENTARY INFORMATION: Executive Order 12291, "Federal Regulations," directs each Executive agency to adopt procedures to improve existing and future regulations. Publication of an agenda of significant regulations is called for at least semiannually in order to give the public adequate notice of agency rulemaking activities; also publication of a regulatory flexibility agenda concerning rules likely to have a significant impact on a substantial number of small entities must be published in accordance with 5 U.S.C. 601 et seq.

In fulfillment of requirements imposed by the Executive Order and 5 U.S.C. 601 et seq., this agenda describes current and projected regulations, and regulations which will be under review during the period October 1, 1987 to October 1, 1988. This agenda also contains information on regulations on which action was completed since the last FEMA semiannual agenda published April 27, 1987 at 52 FR 14930.

Public comment on the agenda, including that by State and local governments, is invited and should be submitted to the Rules Docket Clerk.

The agenda is not limited to major or significant rules and contains as much information as possible concerning all FEMA regulations to be published in the next 12 months except for routine flood elevation determinations, listing of eligible communities under the National Flood Insurance Program, listing of suspended communities and similar designations, and organizational and management matters.

Dated: August 27, 1987.

Spence W. Perry,

General Counsel.

CFR Citation: 44 CFR 305; 44 CFR 302; 44 CFR 360; 44 CFR 301; 5 CFR 900

Legal Deadline: None.

Abstract: The comprehensive aspect of the CCA process itself was not created by legislation or even by regulation; Presidential emphasis on grants consolidation and FEMA policy on integrating programs created the CCA. The cooperative agreement aspect of the CCA process is based on PL 95-224, the Federal Grant and Cooperative Agreement Act of 1977. Cooperative agreements are used when stimulating a public purpose (the multiple programs delivered in each CCA are aimed at stimulating public purposes, primarily civil defense). The Federal Civil Defense Act of 1950, as amended, authorizes the major portion of CCA programs and assistance dollars, and is therefore the major legislative authority underpinning the CCA process. Various Civil Preparedness Guides, primarily CPG 1-38 and CPG 1-3 address the CCA process and associated programs. However, a regulation would provide complete notice to States and interested parties and complete the policy and procedural requirements identified by the Office of General Counsel. Specific quantitative estimates cannot be cited. However, the use of FEMA funds for CCA associated programs could be substantially improved as a (CONT)

2998. FLOOD INSURANCE RATING SYSTEM CHANGES

Significance: Regulatory Program

Legal Authority: 42 USC 4001 et seq; EO 12127

CFR Citation: 44 CFR 61

Legal Deadline: None.

Abstract: National Flood Insurance Program premium rating system changes under consideration include a community rating system and a system to use revised FIRM's producing higher rates for existing policyholders, subject to a rate cap. The community rating system would be designed to recognize circumstances within local communities that mitigate or exacerbate the flooding risk, such as the inaction of a community in addressing flood problems or the performance of a community that goes beyond minimum NFIP floodplain management requirements. The use of revised FIRM's for existing policyholders would replace the current practice of allowing premium rates for such policyholders to be based on the map in existence at the time of construction so long as the construction met the requirements at that time.

3000. NATIONAL FLOOD INSURANCE PROGRAM REDEFINITION OF COASTAL HIGH HAZARD AREA

Significance: Regulatory Program

Legal Authority: 42 USC 4001 et seq; EO 12127

CFR Citation: 44 CFR 59

Legal Deadline: None.

Abstract: The proposed rule would modify the definition of "coastal high hazard area" at 44 CFR 59.1 to include the primary frontal dune on barrier islands and other sandy shorelines exposed to the open coast. Including primary frontal dunes in the definition of coastal high hazard areas would recognize their inherent susceptibility to flood and erosion hazards during major coastal storms. Classification of these dunes as VE zones on Flood Insurance Rate Maps would assure that adequate insurance rates are assessed and that the construction standards, appropriate to the hazards, are imposed should new construction on the primary frontal dunes be permitted by State or local ordinances.

Legal Authority: 42 USC 4001 et seq; EO 12127

CFR Citation: 44 CFR 59; 44 CFR 61; 44 CFR 72

Abstract: Possible changes to the NFIP regulations include changes in the standard flood insurance policy, a change to flood plain management standards by specifying criteria under which communities may permit flood plain and floodway developments which would increase base flood elevations and the procedures to be followed in revising maps when these situations occur, a change to flood plain management standards by providing criteria which clarify a community's responsibilities with regard to the maintenance of altered water courses, a change to the procedures for map correction under the provisions of 44 CFR 70.3 by correcting an inconsistency with a subsequent section, and a change in the fee exemption provisions of 44 CFR 72.5 to give the Administrator discretion in waiving fees associated with the review of proposed projects that, when completed, could result in a NFIP map revision.

3002. CRITERIA FOR HURRICANE PREPAREDNESS ASSISTANCE TO STATE AND LOCAL GOVERNMENTS

Significance: Agency Priority

Legal Authority: 42 USC 5131; 50 USC App. 2251 to 2297; EO 12148; EO 12381

CFR Citation: 44 CFR 362

Legal Deadline: None.

Abstract: Under PL 93-288, the Federal Emergency Management Agency provides financial and technical assistance to States and local governments in their hurricane preparedness planning. Except for some instances, FEMA has provided 100 percent funding to designated States that have high risk hurricane hazard areas for the development of population preparedness and property protection studies. This proposed rulemaking will establish a plan for having States share the cost of these activities. These changes to 44 CFR 300.6 will affect only the hurricane preparedness portion of this rule; the earthquake hazards reduction portion will be revised in a separate concurrent rulemaking effort.

Significance: Regulatory Program

Legal Authority: 42 USC 4001 et seq; EO 12127

CFR Citation: 44 CFR 61

Legal Deadline: None.

Abstract: FEMA has determined that there is an imbalance between the general taxpayers and the NFIP policyholders in shouldering the costs of the NFIP that should be rectified by the policyholders, the direct Program beneficiaries, bearing more of the costs. The proposed rule would increase the chargeable (subsidized) premium rates, which apply to all structures in communities participating in the emergency program of the National Flood Insurance Program and to certain structures in communities in the regular program.

Abstract: The General Services Administration proposes this regulation to implement all of the above cited Federal laws. These statutes prohibit discrimination, in whole or in part, so that no person in the United States shall on the grounds of race, color, national origin, or sex be excluded from participation in, be denied the benefits of, or be subject to discrimination under any program activity receiving Federal assistance from the General Services Administration. In addition, the objectives of the regulation are to streamline certain administrative procedural requirements by consolidating prohibitions of discrimination into one regulation and to make requirements clear and convenient for applicants and recipients to comply with, as well as making the regulation manageable for GSA to administer.

Legal Deadline: None.

Abstract: This rule updates GSA's policies and procedures concerning the Federal surplus personal property donation program. It would: (1) prescribe new and revised definitions; (2) implement Title IX of the Education Amendments of 1972; (3) change procedures for donating aircraft, drugs, biologicals, and reagents; (4) clarify cannibalization procedures; (5) add additional terms to the State agency distribution documents; (6) clarify that conditional title, not unrestricted title, passes to a donee at the time it takes possession of the property; (7) prohibit reimbursement to State agencies for certain sales expenses; (8) change reporting requirements; and (9) revise eligibility criteria for educational activities. This amendment is necessary to comply with the provisions of Title IX of the Education Amendments of 1972, section 502(a) of Public Law 94-241, and the Congressional Reports Elimination Act of 1980 (Public Law 96-470). Its intent is to increase the efficiency and effectiveness of the donation program.

Legal Authority: 26 USC 5688(a)

CFR Citation: 41 CFR 101-48.2

Legal Deadline: None.

Abstract: This rule would emphasize that all forfeited distilled spirits, wine, or malt beverages donated to eleemosynary institutions are to be used only by their inpatients for medicinal purposes. Allegations of misuse of these donated spirits have created a need for this regulation. There should be no significant costs to the public as a result of this rule. It has been determined that potential benefits to society from this rule will outweigh potential costs.

Legal Authority: 40 USC 486(c); 40 USC 751 (f)

CFR Citation: 41 CFR 201-38

Legal Deadline: None.

Abstract: This regulation changes provisions in the Federal Information Resources Management Regulation regarding Federal employee use of Government telephone systems. The intent is to take a more rational approach to what abuse is and to reasonably reflect the practice in the private sector. Enforcement of the new provisions should deter abuse by making it possible to detect and control genuine abuse.

CFR Citation: 41 CFR 201-1; 41 CFR 201-2; 41 CFR 201-23; 41 CFR 201-24

Legal Deadline: Statutory, October 18, 1986. Pub. L. 99-500 was enacted on October 18, 1986. FIRMR Temporary Regulation 13, effective December 23, 1986, applies retroactively to the enactment of Pub. L. 99-500. The Supplement 1 extends the effectivity of provisions in Temporary Regulation 13 which expires December 23, 1987.

Abstract: This supplement 1 to the Federal Information Resources Management Regulation (FIRMR) Temporary Regulation 13 extends the expiration date 1 year beyond current expiration of December 23, 1987. The extension allows additional time for agency comments useful to modification of FIRMR provisions prior to codification.

Semiannual Regulatory Agenda

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION (NARA)

NATIONAL ARCHIVES AND RECORDS ADMINISTRATION

36 CFR Ch. XII

Unified Agenda of Federal Regulations

AGENCY: National Archives and Records Administration.

ACTION: Semiannual agenda.

SUMMARY: This agenda announces the proposed regulatory actions that the National Archives and Records Administration (NARA) plans for the next 12 months and those actions that have been completed since April 1987. This agenda was developed under the guidelines in OMB Bulletin No. 87-16, dated June 25, 1987. NARA's purpose in publishing this agenda is to allow interested persons an opportunity to have more comprehensive documentation of NARA's regulatory plans and to provide a systematic means of monitoring regulatory activity in NARA. None of the regulations listed in the agenda are considered major under Executive Order 12291, Federal Regulation.

FOR FURTHER INFORMATION CONTACT: John A. Constance, Chief, Information Management and Directives Branch, (202) 523-3214.

Claudine J. Weiher,

Acting Archivist of the United States.

3121. NARA IMPLEMENTATION OF PRESIDENTIAL RECORDS ACT

Legal Authority: 44 USC 2206

CFR Citation: 36 CFR 1270

Legal Deadline: None.

Abstract: 44 USC 2206 requires that the Archivist promulgate regulations to carry out the Presidential Records Act. The law requires that the regulations provide for:

1. advance public notice of intention to dispose of valueless records;

2. notice to the former President of impending opening of otherwise restrictable records in response to judicial process, a request from the

incumbent President, or request from Congress;

3. notice to the former President when disclosure of documents may adversely affect any rights or privileges he may have; and

4. establishment of procedures for consultation between the Archivist and appropriate Federal agencies regarding Presidential records which may be restricted as investigatory records compiled for law enforcement purposes.

3126. ● LOANS OF ORIGINAL RECORDS FOR EXHIBITION PURPOSES

Legal Authority: 44 USC 2104a; 44 USC 2109

CFR Citation: 36 CFR 1254

Legal Deadline: None.

Abstract: NARA lends original records for exhibition purposes to qualified institutions that are capable of providing care comparable with that provided at NARA. This regulation will make NARA's existing minimum requirements for security, environmental conditions, lighting, handling and advance notice more conveniently available to potential borrowers. Since loan requests are reviewed in accordance with an established administrative procedure and are subject to existing requirements, no additional costs will be involved.

Abstract: The proposed rule amends the National Endowment for the Arts regulation for collecting debts. Principally, the amendments implement the Debt Collection Act of 1982 (PL 97-365), which amended the Federal Claims Collection Act of 1966 (31 USC 3711, 3716-3718) to authorize among other things, charging of interest penalties and administrative costs, and the use of administrative offset, private collection agencies and credit agencies by the Government. The amendments also implement government-wide regulations issued by the Department of Justice and the General Accounting Office (49 FR 8889) and Office of Personnel Management (49 FR 27470).

Federal Regulation; Semiannual Regulations Agenda

AGENCY: National Science Foundation.

ACTION: Publication of semiannual regulations agenda.

SUMMARY: The National Science Foundation (NSF) publishes its semiannual agenda of regulations under development or review as required by Executive Order 12291, Federal Regulation (46 FR 13193, February 17, 1981). This agenda has been prepared in accordance with OMB Bulletin No. 87-16, Unified Agenda of Federal Regulations.

FOR FURTHER INFORMATION CONTACT: For additional information regarding any particular regulatory action contained in the agenda, contact the individual identified as the contact person in the agenda. Comments or inquiries of a general nature about the agenda should be directed to Sukari S. Smith, Office of the General Counsel, National Science Foundation, Washington, DC 20550, (202) 357-9435.

Dated: August 25, 1987.

3142. EFFECTUATION OF TITLE IX OF THE EDUCATION AMENDMENTS OF 1982 (SEX DISCRIMINATION)

Legal Authority: 20 USC 1681; PL 93-568, Sec 901 to 902; PL 93-380, Sec 844

CFR Citation: 45 CFR 620, (New)

Legal Deadline: None.

Abstract: This regulation is to effectuate Title IX of the Education Amendments of 1972, as amended, which prohibits discrimination on the basis of sex in connection with education programs and activities receiving Federal financial assistance from the National Science Foundation. Costs, if any, should be nominal since most NSF recipients are also covered by HHS regulations. Potential benefits are to ensure that any educational program or activity receiving financial assistance from NSF does not, on the basis of sex (1) exclude any person from participation in, (2) deny any person the benefits of, or subject any such person to discrimination under that program or activity.

CFR Citation: 45 CFR 650

Legal Deadline: None.

Abstract: The Bayh-Dole Act (34 USC 200 et seq) was amended by Title V of PL 98-620 (98 Stat. 3364, 3368). The Department of Commerce has prepared a Government-wide implementing regulation. The Foundation's Patents regulation (45 CFR 650) conform to it. Because the revision to the NSF Patents regulation will merely echo a Government-wide regulation on which the public will have had an opportunity to comment, the Foundation expects that the revision will be published as a final rule. No additional costs will be imposed on the public as a result of the revision.

Timetable:

Additional Information: The notable changes to be made in the revision of the NSF Patents regulation will be: elimination of restrictions on the licensing of NSF-supported inventions by nonprofit organizations, including universities; modification of the criteria and procedures for determining that "exceptional circumstances" warrant restricting a grantee's right to retain principal patent rights to its employees' NSF-supported inventions; and elimination of the Foundation's authority to waive the Government license and "march-in" rights in awards not subject to the Bayh-Dole Act. All these changes are required by amendments to the Bayh-Dole Act.

Semiannual Regulatory Agenda

OFFICE OF MANAGEMENT AND BUDGET (OMB)

OFFICE OF MANAGEMENT AND BUDGET

5 CFR Ch. III

Federal Regulations; OMB Directives Included in the Semiannual Agenda of Upcoming Activities

AGENCY: Office of Management and Budget.

ACTION: Publication of semiannual agenda.

SUMMARY: The Office of Management and Budget (OMB) is publishing its semiannual agenda of upcoming activities on OMB Circulars and Office of Federal Procurement Policy Letters (OFPP Policy Letters). This action is in accordance with OMB's internal procedures for implementing Executive Order No. 12291. OMB directives are issued under authority derived from several sources including: Subtitles I, II, and V of Title 31, United States Code, Executive Order No. 11541, and other specific authority as cited. The agenda includes actions on issuances which are not regulations, but which are of public interest.

OMB Circulars and OFPP Policy Letters are directives that communicate significant government-wide policy of a continuing nature. For purposes of this agenda, we have included Circulars and Policy Letters which are designed to implement, interpret, or prescribe law or policy, or describe the procedure or practice requirements of an agency. Excluded are directives that outline procedures to be followed in connection with the President's budget and legislative programs, and directives that affect only the internal functions, management, or personnel of Federal agencies.

FOR FURTHER INFORMATION CONTACT: See agency person listed for each entry in the agenda, c/o Office of Management and Budget, Washington, DC 20503. On the overall agenda, contact Darrell A. Johnson (202/395-7250) at the above address.

Darrell A. Johnson,

Assistant Director for Administration.

3168. ● EXCEPTED SERVICE -- SCHEDULE B AUTHORITY TO APPOINT AND CONVERT COOPERATIVE EDUCATION STUDENTS

Legal Authority: EO 12015

CFR Citation: 5 CFR 213.3202

Legal Deadline: None.

Abstract: Current regulations unnecessarily limit agencies' ability to make full use of cooperative education programs. Changes under consideration would increase program flexibility and effectiveness and eliminate a number of current restrictions.

3170. EMPLOYMENT (GENERAL); EMPLOYMENT PRACTICES

Legal Authority: 5 USC 3301; 5 USC 3302; 5 USC 3304

CFR Citation: 5 CFR 300

Legal Deadline: None.

Abstract: Clarification of the policy and appeal procedures used in developing and implementing employment practices in the recruitment, measurement and selection of individuals for appointments and promotion within the competitive service. The proposed amendments would remove a non-statutory appeal procedure which was created to provide a simple, streamlined administrative review procedure but which has, instead, become a time-consuming, convoluted process. Additionally, the proposed changes would avoid a duplicative enforcement procedure currently subject to review by OPM and MSPB, which is, more properly, within the sole jurisdiction of the EEOC.

Legal Authority: 5 USC 1302; 5 USC 3301; 5 USC 3302

CFR Citation: 5 CFR 302; 5 CFR 333

Legal Deadline: None.

Abstract: Permits agencies to rank and refer candidates for either excepted appointments or appointments outside registers in one of two ways: (1) in the same way as in the competitive service (i.e., numerical scores from 70 to 100, extra points for veterans preference, and rule of three); or (2) referral in order of veterans preference without ranking. (Currently, the first method is required for all excepted appointments, and the second method is required for all appointments outside registers.)

Abstract: Proposed regulations to add a new subpart to implement Pub. L. 97-35, August 13, 1981, as amended by Pub.L. 97-346, October 15, 1982, and Pub. L. 98-615, November 8, 1984, which added provisions to Title 5 to govern SES reduction-in-force actions affecting career executives. Regulations are needed to cover certain areas not in the law, such as notification to employees and retention of records, and to implement the provisions in the law dealing with OPM's responsibility to help place career executives identified for reduction in force and with "fallback" rights following a RIF.

Legal Authority: 5 USC Ch 43; 5 USC Ch 45; 5 USC Ch 53; 5 USC Ch 54

CFR Citation: 5 CFR 430

Legal Deadline: None.

Abstract: Establishes requirements for the Performance Management Systems for General Schedule, Prevailing Rate, and SES employees. Regulations will be streamlined to eliminate impediments to management flexibility while still assuring pay-for-performance systems.

3183. PAY UNDER THE GENERAL SCHEDULE; DETERMINING RATE OF BASIC PAY

Legal Authority: 5 USC 5305(a); 5 USC 5334(a); 5 USC 5338; EO 11721

CFR Citation: 5 CFR 531, Subpart B

Legal Deadline: None.

Abstract: Proposed regulations would restructure the General Schedule pay administration rules to clarify the flexibility agencies would have in establishing pay rates for employees upon promotion, demotion, reassignment, transfer, reemployment, or change in type of appointment. In addition, proposed regulations would revise the current regulations to conform to the principles of the Performance Management System and correct certain longstanding basic pay administration problems.

3184. PAY UNDER THE GENERAL SCHEDULE; PREVAILING RATE SYSTEMS; GRADE AND PAY RETENTION

Legal Authority: 5 USC 5334(a); 5 USC 5338; 5 USC 5365

CFR Citation: 5 CFR 531; 5 CFR 532; 5 CFR 536

Legal Deadline: None.

Abstract: Under current regulations, numerous pay administration problems exist in movements between Federal pay systems. For example, the method of determining entitlement to grade retention in movements between pay systems results in unnecessary expenditures of Federal funds and false expectations for affected employees. Proposed regulations would revise definitions of "promotion" and "demotion" to improve pay administration and minimize the number of employees entitled to grade retention in movements between pay systems.

3214. ● ELIGIBILITY OF DISTRICT OF COLUMBIA GOVERNMENT EMPLOYEES FOR SUPERIOR QUALIFICATIONS APPOINTMENTS

Legal Authority: 5 USC 5333

CFR Citation: 5 CFR 531

Legal Deadline: None.

Abstract: Permits District of Columbia Government employees to be appointed to positions at grades GS-11 and above at rates above the first step of the grade based on their superior qualifications. (Current requirement in section 531.203(b) for a 90-day break in service following D.C. Government employment has been made obsolete by the Home Rule Act.)

3216. PAY ADMINISTRATION (GENERAL); OVERTIME PAY COMPUTATION

Legal Authority: 5 USC 5548

CFR Citation: 5 CFR 550, Subpart A

Legal Deadline: None.

Abstract: Final regulations would clearly distinguish between overtime work in excess of 8 hours in a day outside the basic 40-hour workweek and overtime work in excess of 8 hours in a day within the basic 40-hour workweek. This change would correct a recent Comptroller General decision that results in an improper payment for overtime work for employees on unusual work schedules.

3228. RETIREMENT; CREDIT FOR SERVICE UNDER CSRS FOR CERTAIN SERVICE AS NATIONAL GUARD TECHNICIANS, CADET NURSE, AND NONAPPROPRIATED FUND EMPLOYEES

Legal Authority: 5 USC 8347; PL 99-638; PL 99-661

CFR Citation: 5 CFR 831, Subpart C

Legal Deadline: Statutory, January 10, 1987. Deadline for PL 99-638 is January 10, 1987. Deadline for PL 99-661 is October 1, 1987.

Abstract: Public Laws 99-638 and 99-661 provide that service performed as a National Guard technician prior to 1968 or two or more years of service in the Cadet Nurse Corps during World War II may be creditable service if certain conditions are met. Public Law 99-638 also extends CSRS service credit to certain nonappropriated fund employees who were employed after June 18, 1952, and before January 1, 1966, and who were subject to CSRS on November 9, 1986. Panama Canal Commission

Semiannual Regulatory Agenda

PANAMA CANAL COMMISSION (PANAMA)

PANAMA CANAL COMMISSION

35 CFR Ch. I

Unified Agenda of Federal Regulations

AGENCY: Panama Canal Commission.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The purpose of this agenda is to report the proposed rulemaking activities of the Panama Canal Commission. This information will allow the public to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: For information about a particular regulatory project, contact the person listed in the subheading "Agency Contact" for that project. For general information, contact Michael Rhode, Jr., Secretary, Panama Canal Commission, 2000 L Street, NW., Suite 550, Washington, DC 20036-4996, (202) 634-6441 TDD; or John L. Haines, Jr., Esquire, General Counsel, Panama Canal Commission, APO Miami 34011-5000.

SUPPLEMENTARY INFORMATION: Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act, 5 U.S.C. 601, et seq. require that executive agencies publish in the **Federal Register** a semiannual notice of regulations which are under development or review or for which action has been completed. The Panama Canal Commission agenda contains certain regulations which are limited in public impact, but they are included to increase public awareness of Commission activities and to allow for increased public participation in the agency's regulatory review and development process. This agenda was prepared under the guidelines established by OMB Bulletin No. 87-16.

Dated: August 26, 1987.

Michael Rhode, Jr.,

Secretary, Panama Canal Commission.

PANAMA CANAL COMMISSION (PANAMA) — Prerule Stage

3254. ● TOLLS FOR USE OF CANAL

Significance: Agency Priority

Legal Authority: PL 96-70, Sec 1601

CFR Citation: 35 CFR 133, (Revision)

Legal Deadline: None.

Abstract: Due to operating cost increases, including inflation, since the last toll rate increase (March 1983), the Panama Canal Commission is currently considering increasing the rates of tolls charged vessels transiting the Canal. An approximate 9% increase may be proposed effective in FY 1989 to achieve the Commission's regulatory requirement to recover from users all costs of operating and maintaining the waterway.

PEACE CORPS (PEACE)

PEACE CORPS

22 CFR Ch. III

Executive Order 12291, Federal Regulations, Semiannual Agenda of Regulations

AGENCY: Peace Corps.

ACTION: Publication of semiannual agenda.

SUMMARY: This agenda announces the regulations the Peace Corps will have under development during the 12-month period from October 1, 1987 through September 30, 1988. The purpose for publishing this agenda is to give notice of any regulatory activity by the Agency in order to allow the public an opportunity to participate in the rulemaking process.

FOR FURTHER INFORMATION CONTACT: The public is encouraged to contact the Agency official listed for the particular agenda item. For other information concerning Peace Corps' regulations or this semiannual agenda, contact Robert Martin, Associate General Counsel, Peace Corps, 806 Connecticut Avenue, NW., Washington, DC 20526, (202) 254-3114.

SUPPLEMENTARY INFORMATION: In accordance with Executive Order 12291, Federal Regulations, and the Regulatory Flexibility Act (5 U.S.C. 605) executive agencies are required to publish in the **Federal Register** semiannual regulatory agendas in April and October of each year.

The regulations being considered by Peace Corps are not "major" rules within the meaning of E.O. 12291 and no Regulatory Impact Analysis is required. Peace Corps has determined that the regulations under consideration will not impose compliance costs or reporting burdens on the public; and that the regulations will not have a significant economic impact on a substantial number of small entities. Accordingly, no Regulatory Analysis is required under 5 U.S.C. 602.

Pension Benefit Guaranty Corporation

Semiannual Regulatory Agenda

PENSION BENEFIT GUARANTY CORPORATION (PBGC)

PENSION BENEFIT GUARANTY CORPORATION

29 CFR Ch. XXVI

Agenda of Regulations Under Development

AGENCY: Pension Benefit Guaranty Corporation.

ACTION: Agenda of regulations.

SUMMARY: This document sets forth the Pension Benefit Guaranty Corporation's regulatory agenda issued under Executive Order 12291 and the Regulatory Flexibility Act. The agenda lists regulations that are currently under development or that PBGC expects to have under development during the next twelve months. The effect of this agenda is to advise the public of PBGC's current and future regulatory activities.

ADDRESS: Office of the General Counsel, Code 22500, Pension Benefit Guaranty Corporation, 2020 K Street, NW., Washington, DC 20006.

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact J. Ronald Goldstein, Attorney, Office of the General Counsel, 202-778-8850. For information about a specific regulation project listed on the agenda, contact the person designated in the agenda for that regulation.

SUPPLEMENTARY INFORMATION: Under the President's Order on Federal Regulation, Executive Order 12291, 46 FR 13193, each agency is required to publish in April and October an agenda of regulations currently or soon to be under development. The Executive Order requires that the agenda also include those currently effective regulations that are being reviewed by the agency pursuant to the Executive Order. The Regulatory Flexibility Act, Pub. L. 98-354, 5 U.S.C. 601, has a similar agenda requirement. Under that law, the agenda must list any regulation that is likely to have a significant economic impact on a substantial number of small entities.

The Office of Management and Budget has issued guidelines (OMB Bulletin No. 87-16) prescribing the form and content of the regulatory agenda. Under those guidelines, the agenda must list all regulatory activities being conducted or reviewed in the next twelve months and provide certain specified information on each regulation. All of the items on this agenda are current or projected rulemakings.

Executive Director, Pension Benefit Guaranty Corporation.

3270. TRANSFERS FROM MULTIEMPLOYER PLANS TO SINGLE-EMPLOYER PLANS

Legal Authority: 29 USC 1302(b)(3); 29 USC 1412; 29 USC 1414

CFR Citation: 29 CFR 2678

Legal Deadline: None.

Abstract: Sections 4232 and 4234 of ERISA prescribe rules governing the transfer of liabilities and assets from a multiemployer plan to a single-employer plan and prohibit certain transfers unless approved by PBGC. The regulation will establish procedures for requesting and criteria for PBGC approval of transfers which require approval and guidelines for satisfying the statutory requirements pertaining to other transfers. The regulation will also establish standards for the PBGC's waiver of a multiemployer plan's contingent liability arising from the transfer of unfunded vested benefits to a single-employer plan.

3271. ADJUSTMENT OF WITHDRAWAL LIABILITY FOR A WITHDRAWAL SUBSEQUENT TO A PARTIAL WITHDRAWAL

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1386(b)

CFR Citation: 29 CFR 2649

Legal Deadline: None.

Abstract: Under section 4206(b) of ERISA, if an employer partially or completely withdraws from a multiemployer plan subsequent to an earlier partial withdrawal from that plan, the employer's liability for the second withdrawal must be reduced by the amount of its liability for the earlier partial withdrawal. The purpose of this credit is to avoid plans double-charging employers for the same unfunded liabilities. Section 4206(b) also requires the PBGC to prescribe regulations adjusting this credit to ensure that the employer's liability for its second withdrawal properly reflects the employer's share of liability with respect to the plan.

The need for this adjustment to the credit can be seen from the following example. In a plan that uses the rolling-5 allocation method, an employer's withdrawal liability is based on its last five years' participation in the plan. If an employer's second withdrawal occurs more than five years after its partial withdrawal, the liability for the second withdrawal is based solely on plan participation subsequent to the partial (cont)

double-charging with respect to the old liabilities and no reason to give the employer a credit against its liability for the second withdrawal. However, without this regulation, the employer would get that credit under the statute. There are many other possible situations in which the employer's credit should similarly be reduced in order to ensure equitable treatment of the withdrawing employer vis-a-vis the other employers still contributing to the plan.

This regulation will result in some shifting of liabilities among employers contributing to a multiemployer plan. An employer that has another withdrawal following a partial withdrawal may incur greater liability for the second withdrawal because of the reduction in the credit for the prior partial withdrawal. However, this increase in liability would reduce the unfunded vested benefits allocable to other employers that withdraw thereafter. In the aggregate, the regulation will impose no new costs.

3272. PLAN RULES FOR REDUCTION OR WAIVER OF COMPLETE WITHDRAWAL LIABILITY

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1387(b)

CFR Citation: 29 CFR 2647 (Amendment)

Legal Deadline: None.

Abstract: Under section 4207(a) of ERISA, the PBGC has issued a regulation (29 CFR Part 2647) providing for the reduction or waiver of an employer's liability for complete withdrawal upon the employer's resumption of participation under the plan from which it withdrew. The statute also requires the PBGC to prescribe procedures and standards under which multiemployer plans may adopt their own rules abating complete withdrawal liability upon an employer's return to the plan (section 4207(b)).

The purpose of letting plans adopt their own abatement rules is obvious: a specific rule adopted by a plan may well work better under the facts and circumstances of that particular plan than the broad rules adopted by the PBGC. This regulation will permit a plan to fashion the rules it needs to encourage the return of withdrawn employers, while at the same time protecting the plan from the loss of withdrawal liability payments without a compensating resumption of contributions to the plan by a formerly withdrawn employer. The PBGC is unable to (cont)

3273. DETERMINATION OF WITHDRAWAL LIABILITY FOLLOWING A MERGER

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1391(f)

CFR Citation: 29 CFR 2642 (Amendment)

Legal Deadline: None.

Abstract: The merger of two multiemployer plans creates a problem as to how the successor plan's unfunded vested benefits are to be allocated in order to determine withdrawal liability for post-merger withdrawals. Frequently, the two plans will have been using different allocation methods prior to the merger. Even if they were using the same method, if they had different plan years, that would create different allocations.

For this reason, section 4211(f) of ERISA requires the PBGC to issue regulations prescribing rules for the post-merger allocation of unfunded vested benefits. The PBGC proposes to establish rules that parallel the statutory allocation methods: i.e., there would be a presumptive allocation method that would apply to plans unless they chose otherwise, and plans would be permitted to adopt certain modifications to this presumptive method without the PBGC's approval and other more significant modifications with the PBGC's approval. Additional Information: ABSTRACT CONT: This regulation will remove a significant impediment to multiemployer plan mergers by eliminating employers' concern and confusion over how their withdrawal liability would be calculated after a merger. Plan mergers are generally to be encouraged since a larger plan is typically a stronger plan because of its broader contribution base, and because portability of benefits is increased. This regulation will impose no new costs.

Legal Authority: 29 USC 1302(b)(3); 29 USC 1341(c)

CFR Citation: 29 CFR 2642

Legal Deadline: None.

Abstract: In a notice published in the FEDERAL REGISTER on December 31, 1986 (51 FR 47342), the PBGC issued its interpretation that ERISA section 4211 does not permit the assessment of withdrawal liability against an employer by a multiemployer plan that had no unfunded vested benefits as of the end of the plan year preceding the employer's withdrawal. This interpretation raises certain questions as to the proper manner of applying the allocation methods prescribed in section 4211(b) and (c)(2) by a plan that at one time was fully funded, but is no longer. The PBGC plans to issue a

proposed amendment to its regulation on allocating unfunded vested benefits dealing with this issue.

3275. VALUATION OF PLAN BENEFITS IN SINGLE-EMPLOYER PLANS

Legal Authority: 29 USC 1302; 29 USC 1341; 29 USC 1344; 29 USC 1362

CFR Citation: 29 CFR 2619

Legal Deadline: None.

Abstract: This rule would amend PBGC's regulation on Valuation of Plan Benefits in Single-Employer Plans, 29 CFR Part 2619. That regulation sets forth the rules for valuing benefits in terminating plans that are covered by the insurance program under ERISA, which valuation is needed to determine if plan assets are sufficient to provide for plan benefits and to properly allocate assets to those benefits. After review of this regulation pursuant to Executive Order 12291, the PBGC is amending the rules for valuing benefits payable as lump sums upon termination. The effect of this amendment is to prescribe a new standard for the interest rates used to value lump sums that are paid in lieu of annuities, and to require that in valuing involuntary lump sums, pre-retirement mortality is to be disregarded. The amendment is needed to protect recipients of lump sum distributions from loss of benefit value resulting from the use of inappropriate valuation methods.

Legal Authority: 29 USC 1302(b)(3); 29 USC 1322; 29 USC 1342

CFR Citation: Not yet determined

Legal Deadline: None.

Abstract: When the PBGC assumes trusteeship of a terminated pension plan pursuant to sections 4041 and 4042 of ERISA, it pays benefits to participants pursuant to plan provisions and section 4022 of ERISA. This regulation will contain rules and policies relating to the payment of such benefits. The regulation will enable the PBGC to process and administer PBGC-trusteed plans more efficiently with resultant cost savings. It also will reduce costs to the public and the PBGC by providing payment rules, thereby reducing the number of requests for administrative review.

Abstract: Part 2613 of the PBGC's regulations defines "nonforfeitable" and "guaranteed" benefits for the purposes of Title IV of ERISA. Part 2618 implements the statutory rules for allocating plan assets to pay benefits upon plan termination. Part 2619 prescribes rules for valuing plan benefits, including rules for determining the form of benefit to be valued. Each of these regulations is effected by the Retirement Equity Act of 1984 ("REA").

REA provides that certain early retirement benefits and retirement-type subsidies and optional benefit forms will be treated as accrued benefits, and that their elimination will be treated as an impermissible reduction in accrued benefits. These amendments will conform PBGC's regulations to the provisions of REA. The amendments will impose no new costs on plans and may alleviate administrative burdens by providing definitive rules.

Abstract: The PBGC's employer liability regulation incorporates by reference the interest rate charged under section 6601 of the Internal Revenue Code as the interest rate charged, or credited, on late payments, or overpayments, of employer liability. The Tax Reform Act of 1986 significantly changed the way in which the section 6601 rate is established and creates two interest rates: one for underpayments and another, lower rate for overpayments. Because of these changes, the PBGC plans to conduct a new rulemaking proceeding to determine whether it should continue to use the section 6601 interest rates under the employer liability regulation or whether it should adopt a new rate(s) for this purpose.

Significance: Regulatory Program

Legal Authority: PL 99-272, Sec 11007; PL 99-272, Sec 11009

CFR Citation: 29 CFR 2616

Legal Deadline: None.

Abstract: The Single-Employer Pension Plan Amendments Act of 1986 substantially revised ERISA section 4041 dealing with the voluntary termination of single-employer pension plans. Under amended section 4041, unless a plan has sufficient assets to satisfy all plan benefit commitments, it may voluntarily terminate only in a "distress" termination; i.e., a termination in which the plan sponsor and the substantial members of its controlled group are able to demonstrate either such financial hardship or unduly burdensome pension costs that, as a practical matter, the sponsor is unable to continue to maintain the plan. The statutory rules and procedures for distress terminations are substantially different from the prior rules and procedures for terminating insufficient plans. Therefore, it is necessary to revise the PBGC's plan termination regulations to reflect these new rules and procedures. This regulation covering distress terminations and a companion rule covering standard terminations (to be codified in Part 2617) will replace the PBGC's principal termination regulations on notices of intent to terminate and termination of sufficient plans (existing Parts 2616 and 2617).

Significance: Regulatory Program

Legal Authority: PL 99-272, Sec 11007; PL 99-272, Sec 11008

CFR Citation: 29 CFR 2617

Legal Deadline: None.

Abstract: Under the Single-Employer Pension Plan Amendments Act of 1986, absent a showing of financial hardship or unduly burdensome pension costs that would satisfy the requirements for a distress termination, a single-employer plan my be voluntarily terminated only if it is sufficient for all benefit commitments (i.e., all nonforfeitable benefits). This is referred to as a "standard" termination. The Act also modifies many of the termination rules and procedures that applied under prior law, both to increase the protections afforded plan participants and beneficiaries and to simplify and expedite the PBGC's processing of these sufficient plan terminations. It is, therefore, necessary to promulgate this new regulation implementing SEPPAA's new rules and procedures for standard terminations. This regulation and its companion regulation covering distress terminations (to be codified in Part 2616) will replace the PBGC's principal termination regulations on notices of intent to terminate and termination of sufficient plans (existing Parts 2616 and 2617).

CFR Citation: 29 CFR 2675

Abstract: Section 4041A of ERISA provides rules with respect to the termination of multiemployer plans and the payment of benefits under those plans. Under section 4041A(f)(2), PBGC is authorized to prescribe rules for the administration of those plans that are appropriate to protect the interests of plan participants and beneficiaries or to prevent unreasonable loss to the insurance system. Under section 4281(b), the plan sponsor of a plan that has terminated by mass withdrawal is required annually to determine the value of the plan's nonforfeitable benefits and assets. If the value of the benefits exceeds the value of the assets, the sponsor must amend the plan to eliminate benefits not eligible for PBGC's guarantee under section 4022A(b), to the extent necessary to insure that the plan assets are sufficient to pay all nonforfeitable benefits. This determination of sufficiency is to be made in accordance with rules prescribed by PBGC. This regulation would establish the rules for administering plans that have terminated by mass withdrawal, including the rules for determining sufficiency in the circumstances described above. Abstract: On January 19, 1981, PBGC issued an interim regulation dealing with alternative methods for allocating unfunded vested benefits in multiemployer pension plans. PBGC now plans to re-promulgate that regulation in order to correct ambiguities that have arisen under it, to conform the procedures contained in it to other PBGC regulations, and to reduce the information reporting requirements in the regulation. The regulation will impose no new costs on the public and may reduce costs for plans adopting certain alternative allocation rules by reducing the reporting requirements.

3283. REDUCTION OR WAIVER OF PARTIAL WITHDRAWAL LIABILITY

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b)(3); 29 USC 1388(e)(3)

CFR Citation: 29 CFR 2646

Legal Deadline: None.

Abstract: Section 4208 of ERISA provides for the reduction or elimination under certain circumstances of an employer's partial withdrawal liability arising from a 70 percent reduction in contribution base units. That section also authorizes the PBGC to prescribe rules for the reduction or elimination of partial withdrawal liability under other conditions. The regulation will provide for the abatement of partial withdrawal liability arising from the cessation of the obligation to contribute under a collective bargaining agreement or with respect to a facility. Section 4208 also requires the PBGC to issue a regulation under which a multiemployer plan may adopt rules for the reduction or elimination of partial withdrawal liability. This regulation will allow plans to ease the statutory partial withdrawal liability rules where, for example, the rules are harmful to the plan because they discourage an employer from increasing its participation under the plan, or where the statutory rules create administrative burdens which outweigh the protections afforded by the rules.

3284. THE RETIREMENT EQUITY ACT AMENDMENTS: CASH-OUT LIMITATION

Legal Authority: 29 USC 1302(b); 29 USC 1341; 29 USC 1344; 29 USC 1362; PL 99-272, Sec 11008 to 11009; PL 99-272, Sec 11011

CFR Citation: 29 CFR 2613; 29 CFR 2617; 29 CFR 2619

Legal Deadline: None.

Abstract: The PBGC's guaranteed benefits regulation (29 CFR Part 2613) provides that the PBGC will not pay lump sum benefits under insufficient plans unless the value of the benefit is $1,750 or less. Similarly, the plan sufficiency and valuation of benefits regulations (29 CFR Parts 2617 and 2619) permit plan administrators of terminating sufficient plans to pay lump sum benefits without a participant's consent if the value of the benefit is $1,750 or less. This $1,750 limit corresponds to the "cash-out" provisions in ERISA section 204(d) and Internal Revenue Code section 411(b)(7)(B). These provisions were amended by the Retirement Equity Act of 1984 to raise the cash-out limit to $3,500, in recognition of the effects of inflation on the value of small pension benefits. The PBGC believes that the same consideration supports its raising the lump sum limitation in these several regulations.

Additional Information: This amendment had previously been included in RIN 1212-AA36, "Retirement Equity Act Amendments". However, that project is large and complex, and therefore, those amendments will not be issued for some time. The PBGC believes that the interest of plan participants is best served by splitting out this one amendment so that it may be issued more quickly.

Abstract: Congress is currently considering, as part of the budget reconciliation, legislation to increase the premium paid by single-employer plans, and, perhaps, to change the way the premium is determined as well. Any change in the premium will necessitate conforming amendments to the PBGC's regulation on payment of premiums. The PBGC currently anticipates that the new premium would be effective for plan years beginning on or after January 1, 1988.

3286. MISCELLANEOUS SEPPAA AMENDMENTS

Significance: Regulatory Program

Legal Authority: 29 USC 1302(b); 29 USC 1322; 29 USC 1343; 29 USC 1344; 29 USC 1362 to 1364; 29 USC 1367 to 1368; PL 99-272, Sec 11008 to 11011; PL 99-272, Sec 11016

CFR Citation: 29 CFR 2606; 29 CFR 2615; 29 CFR 2622; 29 CFR 2623

Legal Deadline: None.

Abstract: The Single-Employer Pension Plan Amendments Act of 1986 ("SEPPAA") made several changes in Title IV rules and procedures that effect and, in some cases, override portions of several PBGC regulations. For this reason, these regulations - administrative review of agency decisions, benefit reductions in terminated plans, reportable events and employer liability - must be amended to conform them to SEPPAA's new provisions. For example, because SEPPAA alters the determinations that the PBGC may make with respect to voluntary plan terminations, the list in 29 CFR 2606.1(b) of determinations subject to agency review must be amended.

Similarly, SEPPAA contains, for distress terminations, specific benefit cutback rules. These rules differ somewhat from those set forth in 29 CFR Part 2623 and, therefore, conforming amendments to Part 2623 are required. SEPPAA also increases the liability to the PBGC of an employer that terminates an underfunded plan, providing for liability in excess of 30% of the employer's net worth in cases where the plan asset insufficiency substantially exceeds the net worth limitation. (CONT)

Timetable:

Action	Date	FR Cite
Final Action	02/00/88	

Small Entity: No

Additional Information: ABSTRACT CONT: SEPPAA also provides special payment rules for this additional liability. The employer liability regulation needs to be amended to reflect these changes.

This rulemaking reflects the merger of four separate items on the PBGC's last regulation agenda (51 FR 39086): RINS 1212-AA43, 1212-AA44, 1212-AA45 and 1212-AA46. Since each of these items dealt with amendments necessitated by the enactment of SEPPAA, and since there will be few amendments to the regulations (save, perhaps, to the employer liability regulation), the PBGC determined that it would be more efficient to combine the four projects into one.

After reviewing the employer liability regulation, the PBGC has determined that SEPPAA's rules creating employer liability to section 4049 trusts and to the section 4042 trustees (referred to in the prior regulation agenda) should not be added to the existing regulation. Any PBGC rules implementing these new liability provisions will be the subject of a separate regulation.

3288. PART 220 DISABILITY DETERMINATIONS

Significance: Regulatory Program

Legal Authority: 45 USC 231f(b)(5)

CFR Citation: 20 CFR 220

Abstract: The Board's regulation setting forth the procedures to be followed in rendering initial decisions and in requesting and handling reconsiderations and appeals from these decisions has been reviewed and a proposal to make certain revisions in Part 320 is being developed. The regulation will conform the procedures more closely to those applicable under the Railroad Retirement Act. Legal Authority: 31 USC 3711; 31 USC 3717

CFR Citation: 4 CFR 102.13; 20 CFR 200

Legal Deadline: None.

Abstract: The Railroad Retirement Board proposes to amend 20 CFR 200 to provide for assessment of interest, penalties, and collection costs, as authorized by the Debt Collection Act

of 1982, in connection with the collection of certain debts arising from erroneous benefit payments under the several Acts administered by the Board. Section 11 of the Debt Collection Act of 1982 (Pub. L. 97-365) amended section 3(e) of the Federal Claims Collection Act of 1966 to provide that the head of an agency shall charge interest on claims owed the agency, assess penalties on delinquent debts, and assess charges to cover the costs of processing delinquent claims. Section 11 imposes a mandatory requirement that interest, penalties, and charges be assessed except as specifically provided in that section.

Small Business Administration

Semiannual Regulatory Agenda

SMALL BUSINESS ADMINISTRATION (SBA)

SMALL BUSINESS ADMINISTRATION

13 CFR Ch. I

Improving Government Regulations; Semiannual Agenda

AGENCY: Small Business Administration.

ACTION: Publication of the semiannual agenda of regulations under review or development by the Small Business Administration.

SUMMARY: This is SBA's 17th semiannual agenda of regulations. Although not a regulatory Agency, SBA has attempted to draft agendas that met both the criteria and the spirit of the regulatory review process. This agenda is published pursuant to Executive Order 12291 and the Regulatory Flexibility Act, 5 U.S.C. 601 et seq., Pub. L. 96-354, effective January 1, 1981.

FOR FURTHER INFORMATION CONTACT: For further information on agenda items, the public is encouraged to contact the individual Agency official listed for the particular item.

For information concerning SBA overall Regulatory Review and Development Program or general semiannual agenda questions, contact Martin D. Teckler, Deputy General Counsel, Small Business Administration, 1441 L Street, NW., Washington, DC 20416, 202/653-6644.

SUPPLEMENTARY INFORMATION: The SBA agenda will contain many regulations which are limited in public impact, but they are included to increase public knowledge of all SBA regulatory activities and allow for increased public participation in the review and development process.

Public comments on SBA's previous agendas have been general, and all were positive. None were directed at specific contents, nor were any changes suggested or recommended.

The agenda format has four parts. Part I, Pre-Rulemakings, includes investigations and reviews to be conducted prior to deciding whether or not to propose a rule or rule change. Part II, Proposed Rules, includes rulemaking which will be proposed during the six-month period covered by the agenda. Part III, Final Rules, includes proposed rules which will be finalized during the period covered by the agenda. Part IV, Completed Actions, includes regulations completed or withdrawn, and reviews completed since the preceding agenda.

Publication of this agenda does not impose any binding obligation on SBA with regard to any specific item in the agenda. Additional regulatory action not listed on the agenda is not precluded.

Dated: September 4, 1987.

James Abdnor,

Administrator.

Semiannual Regulatory Agenda

TENNESSEE VALLEY AUTHORITY (TVA)

TENNESSEE VALLEY AUTHORITY

18 CFR Ch. XIII

Regulatory Agenda

AGENCY: Tennessee Valley Authority (TVA).

ACTION: Regulatory agenda.

SUMMARY: As a nonregulatory agency, TVA originates very few regulations. However, TVA has one regulation under development and has published final rules with regard to three other regulations. TVA has also published a notice of intent with regard to a fifth regulation. TVA is therefore publishing a regulatory agenda in voluntary compliance with Executive Order No. 12291.

FOR FURTHER INFORMATION CONTACT: For further information please contact the persons listed.

General Manager.

TENNESSEE VALLEY AUTHORITY (TVA) — Proposed Rule Stage

3359. PROTECTION OF ARCHAEOLOGICAL RESOURCES

Legal Authority: 16 USC 470aa to 470ll

CFR Citation: 18 CFR 1312

Legal Deadline: None.

Abstract: The planned regulations will implement provisions of the Archaeological Resources Protection Act of 1979 by providing protection of archaeological resources on public lands in TVA custody and control. TVA will seek to protect such resources through permits authorizing excavation or removal of resources, through civil penalties for unauthorized excavation or removal, through preservation of archaeological resource collections and data, and through assuring confidentiality of information about resources when disclosure would threaten the resources. The planned regulations will supplement existing uniform regulations by assigning specific responsibilities within TVA.

Legal Authority: 15 USC 3710, amended by PL 99-502

CFR Citation: 18 CFR Not yet determined

Legal Deadline: Statutory, October 1988.

Abstract: Pursuant to new section 14 of the Stevenson-Wydler Act, TVA has elected to promulgate regulations providing for an alternative program for sharing royalties and other patent-related income with its employee-inventors.

3361. PRIVACY ACT OF 1974; EXEMPT SYSTEM OF RECORDS

Significance: Agency Priority

Legal Authority: 5 USC 552a

CFR Citation: 18 CFR 1301.24(d), (New)

Legal Deadline: None.

Abstract: The regulation exempts a new system of records maintained by the Tennessee Valley Authority's Office of the Inspector General (OIG) for investigations and entitled "OIG Investigative Records - TVA" from subsections (c)(3), (d), (e) (1), (e)(4)(G), (H), and (I) and (f) of 5 USC 552a (section 3 of the Privacy Act). This exemption is required because application of those subsections could alert investigation subjects to the existence or scope of investigations, disclose investigative techniques or procedures, reduce the cooperativeness of witnesses, or otherwise impair investigations.

3363. ● ADMINISTRATIVE COST RECOVERY

Legal Authority: 16 USC 831 to 831dd; 31 USC 9701

CFR Citation: 18 CFR 1310.2(c); 18 CFR 1310.3(d); 18 CFR 1310.3(e)

Legal Deadline: None.

Abstract: Hunters at the Tennessee Valley Authority's (TVA) Land Between The Lakes (LBL) must hold a State hunting permit for the State in which they are hunting (Kentucky or Tennessee), and a hunter use permit from TVA for which TVA charges a fee. Because of the large number of people desiring to hunt deer at LBL, TVA must limit participation by random selection of applicants for special quota deer hunt permits as part of an intensive managed hunting program. In order to participate in quota deer hunts, hunters must complete an application form which must be received by TVA by established deadlines well in advance of the fall deer hunt. A drawing is conducted by computer and a quota hunt permit or rejection notice is mailed to the applicant. The $2 application fee for LBL quota deer hunt permits will recover administrative costs associated with processing the forms, conducting the drawing, and notifying applicants of rejection or selection.

Semiannual Regulatory Agenda

VETERANS ADMINISTRATION (VA)

VETERANS ADMINISTRATION

38 CFR Ch. I

Agenda of Federal Regulations

AGENCY: Veterans Administration.

ACTION: Publication of agenda of regulations.

SUMMARY: This agenda announces the regulations that the Veterans Administration will have under review, development, or revision during the 12-month period from October 1987 to October 1988. The purpose in publishing this Agency's regulatory development activities is to allow all interested persons the opportunity to participate in the rulemaking process.

ADDRESSES: Interested persons are invited to comment on the regulations listed in the agenda by contacting the individual agency contact listed for each regulation, or by writing to: Paperwork Management and Regulations Service (731), Veterans Administration, 810 Vermont Avenue, NW., Washington, DC 20420.

FOR FURTHER INFORMATION CONTACT: M'Liz McLendon (202) 233-2308.

SUPPLEMENTARY INFORMATION: Executive Order 12291, Federal Regulation, and the Regulatory Flexibility Act (Pub. L. 96-354) require that executive agencies publish in the **Federal Register** in April and October of each year an agenda of regulations under development and review.

The Veterans Administration has no regulations considered major under the terms of Executive Order 12291; however, all of this Agency's proposed rules and current rules under review, except those considered to be internal agency policy management or routine regulations, have been listed in accordance with section 5(a) of the Executive Order.

This agenda incorporates those categories of information required pursuant to 5 U.S.C. 602(a) and 610(c) of the Regulatory Flexibility Act.

This agenda has been prepared in accordance with OMB Bulletin 87-16.

Dated: August 25, 1987.
By direction of the Administrator.
David A. Cox,
Associate Deputy Administrator for Management.

DEPARTMENT OF MEDICINE AND SURGERY

3364. COMMUNITY RESIDENTIAL CARE

Legal Authority: 38 USC 630

CFR Citation: 38 CFR 17.51h to 17.51q

Legal Deadline: None.

Abstract: These regulations will clarify the legal status of the Community Residential Care program, setting standards and criteria for health and safety, facility resources, guidelines for costs of care, conditions under which the agency may cease referrals to non-complying facilities.

3365. DISPOSITION OF VETERAN'S PERSONAL FUNDS AND EFFECTS ON FACILITY UPON DEATH, OR DISCHARGE, OR UNAUTHORIZED ABSENCE, AND OF FUNDS AND EFFECTS FOUND ON FACILITY

Legal Authority: 38 USC 210c

CFR Citation: 38 CFR 12.0 to 12.24

Legal Deadline: None.

Abstract: Section 208 of Public Law 94-581 provides that unclaimed property or funds and effects left by a dependent or survivor of a veteran receiving medical care at a VA facility as a CHAMPVA beneficiary will be disposed of in the same or similar manner as such property left by a veteran. Also, estates of dependents or survivors of a veteran who dies intestate and without legal heirs while a patient in any VA facility or any hospital, while being furnished care or treatment therein by the VA will escheat to the U.S. Government. Some of these regulations have not been updated since 1948, therefore, editorial changes will be made which will not affect policy.

3366. CONFIDENTIAL QUALITY ASSURANCE PROGRAM RECORDS AND DOCUMENTS

Legal Authority: 38 USC 3305; 38 USC 4151; 38 USC 4152

CFR Citation: 38 CFR 17.500 to 17.522

Legal Deadline: None.

Abstract: Final regulations implementing 38 USC 3305 were made effective Oct. 22, 1982. Those regulations govern the VA's QA (quality assurance) program activities and records and documents which are

made confidential and privileged. Sec. 3305 prohibits the VA from designating any QA program activity, for the purpose of confidentiality, unless such activity has been specified in regulation. PL 99-166 amends 38 USC 4151 and 4152 to require that QA program activities include an evaluation of the quality of surgical care in DM&S, as evidenced by outcome measures of mortality and morbidity; a report to Congress indicating deficiencies in the quality of care is required. 38 USC 3305 was amended to clarify that aggregate statistical data is not to be made confidential provided individuals are not identified. The definitions and descriptions of the QA program are outdated; unreflective of a systems' approach, and too restrictive to accommodate periodic policy developments or redirections within DM&S. No alternatives are being considered. There are no potential costs to the action. The benefits would be in the form of programmatic improvements.

3367. VETERANS ADMINISTRATION HEALTH PROFESSIONAL SCHOLARSHIP PROGRAM

Legal Authority: 38 USC 4141 to 4146

CFR Citation: 38 CFR 17.600

Legal Deadline: None.

Abstract: Current regulations set forth requirements for awarding scholarships to students receiving academic training in the disciplines of medicine, osteopathy, and nursing, and if needed by the VA, students in other specified health care disciplines. Regulations are being amended to include requirements for awarding scholarships to students in disciplines currently specified as well as to students in all title 38 health care disciplines. 3368. CONTRACT MEDICAL CARE

Legal Authority: PL 99-576

CFR Citation: 38 CFR 17.50b; 38 CFR 17.87

Legal Deadline: None.

Abstract: The VA and the Department of Health and Human Services will be proposing to amend applicable regulations to permit the VA to pay for authorized or private hospital care in amounts based on the rates allowed by Medicare under the prospective payment system. This step will help ensure that payments made by the VA are consistent with those made by the largest Federal health care program for similar services in the community.

CFR Citation: 38 CFR 3.807; 38 CFR 3.808; 38 CFR 17.115d

Legal Deadline: None.

Abstract: This proposal would amend the VA adjudication and medical regulations concerning the automobile allowance and adaptive equipment eligibility for certain severely disabled individuals. These amendments are necessary to implement provisions of law and to properly divide regulatory responsibility for these programs consistent with agency organizational and functional alignments. The effect of these amendments will be to extend automobile adaptive equipment eligibility for certain severely disabled persons, more clearly define program responsibility, and more accurately describe prerequisites for obtaining devices for assisting in overcoming the handicap of deafness (including telecaptioning television decoders).

3371. TEMPORARY PROGRAM OF VOCATIONAL TRAINING FOR CERTAIN NEW PENSION RECIPIENTS

Significance: Regulatory Program

Legal Authority: PL 98-543, Sec 301

CFR Citation: 38 CFR 21.6001 to 21.6420, (New)

Legal Deadline: None.

Abstract: The pilot program is directed to evaluating the effectiveness of vocational training and related services in restoring veterans to gainful employment and realizing cost benefits. During the period February 1, 1985, through January 31, 1989, veterans awarded pension may be eligible for up to 24 months or more of vocational training to prepare for and enter employment. Under this program every veteran under age 50 who begins to receive a pension award on or after February 1, 1985, will participate in a vocational evaluation to be arranged by the VA. Veterans who are age 50 and older and are awarded pension after February 1, 1985, may apply for an evaluation of their ability to profit from vocational training. Vocational training for up to 24 months or more and up to 18 months of employment services will be provided for program participants. A veteran will continue to receive pension during the period of training and employment services. Pension will be reduced or terminated following adjustment in employment when work income exceeds the annual income limitation applicable to pension.

3373. 1. VETERANS SERVICES OFFICER TO SELECT AND APPOINT OR RECOMMEND FOR APPOINTMENT THE PERSON OR LEGAL ENTITY TO RECEIVE VETERANS ADMINISTRATION BENEFITS IN A FIDUCIARY CAPACITY 2. DIRECT PAYMENT

Legal Authority: 38 USC 3202(a)

CFR Citation: 38 CFR 13.55; 38 CFR 13.56

Legal Deadline: None.

Abstract: 38 CFR 13.55 authorizes the VSO to select and appoint a fiduciary and defines the types of payees authorized to receive payments in fiduciary cases. The intended change updates the authority language to more closely reflect changes to 38 USC 3202; removes gender specific terminology and reference to mental illness; and, further clarifies the types of payees available for selection.

38 CFR 13.56 defines classes of beneficiaries who may be paid directly. The intended change clarifies the conditions for direct payment.

CFR Citation: 38 CFR 36.4254; 38 CFR 36.4312

Abstract: Public Law 97-253, the Omnibus Budget Reconciliation Act of 1982 (38 U.S.C. 1829) establishes that a funding fee will be collected on VA loans but the law does not establish any time limits within which it must be paid to the VA. Current VA Loan Guaranty procedures allow lenders up to 60 days from the loan closing date to remit loan funding fees and this delay in their collection and deposit has resulted in a significant amount of potential interest lost to the Federal government. The proposed regulation would require lenders to submit the fees to the VA within a 15 day period from the loan closing date and would implement penalty charges and interest assessments on delinquent submissions. Adoption of this regulation should improve collection timeliness and result in the collection of the interest income that is currently being lost as well as income from interest and penalty charges.

Abstract: Current regulations do not state how to charge entitlement when a veteran or eligible person is pursuing some courses for which entitlement is charged concurrently with refresher, remedial or deficiency courses for which no charge is made against entitlement. This has led to confusion as to how entitlement should be charged in such situations. This proposal will eliminate this confusion.

This proposed regulation was originally published on September 5, 1986 (51 FR 31782). Due to the substantive comments received, the VA has decided that it will address these comments in a new proposed regulation.

Legal Authority: 38 USC 111; 38 USC 1506

CFR Citation: 38 CFR 21.100; 38 CFR 21.376

Legal Deadline: None.

Abstract: An initial evaluation is provided each veteran requesting assistance under the vocational rehabilitation program. The purpose of the initial evaluation is to determine eligibility and entitlement to vocational rehabilitation and plan a program of vocational rehabilitation for eligible veterans. The initial evaluation is provided by VA counseling psychologists in the United States. Since interpersonal discussion is the essence of counseling, providing an initial evaluation to a veteran residing overseas by a VA counselor located in this country poses logistical and other problems. We are proposing that current regulations be amended to allow for greater flexibility in providing initial evaluations to veterans not residing in a state, including those veterans residing overseas. The alternatives to the present system include, but are not limited to contracting with qualified counseling staff located in the area in which the veteran resides, to conduct a part of the evaluation. All decisions as to eligibility for services would continue to be made by VA staff.

Abstract: The VA is proposing to rescind several regulations. These regulations concern the implementation of Title VI, Civil Rights Act of 1964 in the education programs which the VA administers. The regulations either conflict with or repeat unnecessarily other regulations which deal with the implementation of that Act. Rescinding these regulations will eliminate any confusion in the public's perception of the way the VA is implementing this Act.

Abstract: The VA reviews all cases in which findings of infeasibility for vocational rehabilitation or termination of rehabilitation programs is being considered for seriously disabled veterans. These reviews are currently conducted by the Vocational Rehabilitation Panel, a multidisciplinary advisory group. The Panel forwards its recommendations to the counseling psychologist who may accept or reject these recommendations. The VA proposes to reassign this review responsibility to the Vocational Rehabilitation and Counseling Officer, the counseling psychologist's immediate supervisor. Abstract: Present regulations authorize the Administrator to refuse to guarantee loans to purchase manufactured homes from dealers determined by the Administrator to have engaged in contracts of sale or methods or practices which are unfair or prejudicial to veteran purchasers. It is proposed to amend this regulation to also authorize suspension of individual employees of manufactured home dealers who engage in unfair or prejudicial practices.

Legal Deadline: None.

Abstract: A number of regulatory changes will be proposed for the VA manufactured home loan program. VA would conform to HUD's practices on certifications, invoicing and volume rebates. Lenders would be permitted to file claims upon receipt of VA's resale price and thereafter retain the profit or loss which results from subsequent sale of the home. Broader insurance coverage would be required to cover missing items at repossession. Actual freight costs would be allowed in the invoice, and the amounts and items which could be included in the loan would be revised.

Abstract: To establish standards and procedures for enforcing Title IX of the Education Amendments of 1972 in educational programs and activities receiving Federal financial assistance from the VA. Title IX prohibits discrimination on the basis of sex. There are no alternatives to the issuance of the regulations. Participants, potential participants and the public in general will benefit from Federally assisted programs provided free from prohibited discrimination based on sex.

This originally appeared as a proposed rule in the Federal Register of April 25, 1979 (44 FR 24320). Because of the extended time frame due to internal agency consultation with the Department of Justice, the VA is planning to repropose these regulations.

Abstract: To incorporate a reference to the Uniform Federal Accessibility Standards (UFAS) and update the list of Federal financial assistance programs administered by the VA. The existing regulations require that new construction and alteration of facilities be made in an accessible manner. The regulations provide that new construction or alteration of facilities in conformance with the American National Standard Specifications for Making Building and Facilities Accessible to, and Usable by, the Physically Handicapped (ANSI A117.1-1961 (B 1971)) shall constitute compliance with the accessibility requirements for new construction and alteration of facilities. The proposed revision will replace the current standard with the UFAS, published under the Architectural Barriers Act of 1968. Because some facilities subject to the accessibility requirements of section 504 of the Rehabilitation Act of 1973 are also subject to the accessibility requirements of the Architectural Barriers Act, this proposal would eliminate any potential conflict between standards enforced under the two statutes.

Abstract: The Veterans' Benefits Improvement and Health-Care Authorization Act of 1986, Pub. The law provides that fees shall not be charged for the accommodation of any vehicle used to transport, to or from a medical facility a veteran or eligible person seeking examination or treatment, or, a volunteer worker in connection with such worker performing services for the benefit of veterans or eligible persons receiving care at a medical facility. The proposed regulation will provide definitions to be used in implementing the law, including a definition of the term "volunteer worker;" provide for the terms and conditions under which such parking will be provided; and establish a methodology for determining reasonable parking charges to be established by the Administrator at affected medical facilities.

Legal Authority: 38 USC 111(e)(1)

CFR Citation: 38 CFR 17.100

Legal Deadline: None.

Abstract: This amendment would continue in place the application of a deductible to beneficiary travel payments, but would eliminate the requirement that to be eligible for travel payments, a veteran must reside more than 100 miles from a VA facility. After implementation of the amended regulations, the VA became aware of an inequitable situation in Hawaii and a few other locations in which veterans living less than 100 miles from a VA health care facility are unable to get to that facility without using costly public transportation. This amendment would permit veterans living less than 100 miles from a facility to be reimbursed, subject to the deductible, for the costs of expensive public transportation

which is necessary for them to get to a VA health care facility.

Legal Authority: 38 USC 210; 38 USC 3202; 38 USC 3203; PL 98-543, Sec 402

CFR Citation: 38 CFR 13.70; 38 CFR 13.71; 38 CFR 13.74

Legal Deadline: None.

Abstract: 38 CFR 13.70 defines the conditions under which the Veterans Services Officer may recommend an apportionment of benefits to dependents. The proposed amendment will clarify these conditions. The amendment will also remove a reference to mental illness as the sole criteria for a rating of incompetency.

38 CFR 13.71 is to be amended to make clear that the signing of an institutional award agreement does not waive an institution's right to claim payments under 38 USC 641. This action is the result of an unpublished General Counsel opinion.

38 CFR 13.74 is based on the provisions of 38 USC Sec. 3203(b) (1)(A); however, where the law refers to more than one type of institutional care, the regulation refers only to instances of hospitalization. This would seem to preclude application of the regulation when veterans are in State run nursing homes or other institutions operated by the United States or a political subdivision. The VA, therefore, proposes to correct this defect by substituting the terms "institution" and "institutionalization" where appropriate.

Abstract: The regulation is being revised to specify that payment for dependents may not be made earlier than the date of the dependent's existence in those cases in which dependency benefits are to be paid after the veteran enters or reenters the rehabilitation program. This represents a clarification of current policy, rather than a change in policy.

Abstract: OMB Circular A-129 requires agencies managing Federal credit programs to obtain credit reports for all new applicants, when refinancing, and when loans are rescheduled in order to verify the information presented in the application. The circular further provides that rescheduling or reamortization shall be permitted only when it is in the best interest of the Government and where the agency has determined that recovery of all or a portion of the amount owed is reasonably assured. Credit reports must also be required in connection with claims on defaulted guaranteed loans to facilitate agency determinations of the next collection steps to be pursued. These revisions will enable VA to better determine whether a proposed loan reamortization is in the best interest of the government and will facilitate improvements in debt collection practices.

Abstract: Interest, administrative costs of collection, court costs, and marshal fees are now being charged on overpayments of educational assistance allowance. At times a veteran will discharge such a debt in bankruptcy, or the debt will be waived or compromised. This proposal would amend the pertinent section of the Code of Federal Regulations to provide that when any of these actions occurs with regard to a debt incurred under VEAP (the Post-Vietnam Era Veterans Educational Assistance Program), an unrecovered portion of interest, administrative costs of collection, court costs marshal fees will not result in a charge against a veteran's entitlement to educational assistance allowance.

Abstract: A veteran's award of educational assistance allowance must be reduced when he or she withdraws from a course or when he or she received a nonpunitive grade for a course. Regulations exist for determining the effective date of the reduction. Some readers of the regulations have been uncertain as to which of the pertinent regulations apply when a veteran withdraws from a course and, as a result of that withdrawal, received a nonpunitive grade for it. Abstract: The law and the Code of Federal Regulations prohibit the VA from approving new enrollments under many of the education programs which the VA administers when the VA or the educational institution pay to or for 85 percent or more of the students enrolled all or part of their tuition, fees, or other charges. The Code of Federal Regulations includes students receiving benefits under the Dependents' Educational Assistance Program as being subject to this restriction. A review of the Code of Federal Regulations revealed that this restriction is not required by law This proposal will lift the restriction.

Abstract: A proposed revision to the VA regulations on claims collection and collection and compromise (sections 1.900-1.954 and 1.957) was prepared to comply with 31 USC 3701-3719 and 4 CFR Parts 101-105, which were amended as the result of the Debt Collection Act of 1982 (Pub. L. 97-365). A proposed revision to section 1.963a was also prepared to provide the VA with authority to consider waiver of erroneous payments of travel, transportation, and relocation expenses in accordance with the amended 5 USC 5584. These proposed regulations were published in the Federal Register on June 9, 1987, and no comments were received during the 30-day public comment period.

Abstract: These regulations would implement the Program Fraud Civil Remedies Act, which the Veterans Administration must promulgate by April 21, 1987. The regulations would permit VA to bring administrative proceedings against persons who knowingly make, present, or submit a false claim or statement against the Agency under $150,000 in value. VA could, under the regulations, recover up to twice the amount of the false claim or statement plus impose a civil penalty or up to $5,000 for each separate false claim. The regulations would proscribe specific procedures when VA receives allegations of a false claim: an investigation by the VA Inspector General, a review of the investigation by the General Counsel or designee, referral to the Attorney General, and action by the reviewing official if approved by the Attorney General. The person found liable could request a hearing before an Administrative Law Judge with all the due process protections under the Administrative Procedure Act. Legal Authority: 38 USC 3301(f)

CFR Citation: 38 CFR 1.519

Legal Deadline: None.

Abstract: The VA is amending the existing regulations concerning VA lists of names and addresses and is also proposing administrative procedures to use when these lists are used for purposes not authorized by law. This action results from the need to amend the regulations to reflect current procedures, organizational changes, and concern expressed by veterans and some service organizations regarding unsolicited mail. The proposed regulatory amendments will allow the VA to enforce its statutory duty to protect the privacy of information concerning veterans and their dependents, establish procedures to suspend recipients who misuse VA

name and address lists of veterans/ dependents, and give advance notice to recipients of what constitutes an authorized/unauthorized use of veterans/ dependents names and address lists, thereby protecting the due process rights of any recipient before penalties are enforced.

DEPARTMENT OF DEFENSE/GENERAL SERVICES ADMINISTRATION/NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

48 CFR Ch. I

Semiannual Agenda

AGENCIES: Department of Defense (DOD), General Services Administration (GSA), and National Aeronautics and Space Administration (NASA).

ACTION: Semiannual agenda.

SUMMARY: This agenda provides summary descriptions of regulations being developed by the Civilian Agency Acquisition Council and the Defense Acquisition Regulatory Council, in compliance with Executive Order 12291, Federal Regulation. This agenda is being published to allow interested persons an opportunity to participate in the rulemaking process.

The FAR Secretariat has attempted to list all regulations pending at the time of publication, except for minor and routine or repetitive actions, however, unanticipated requirements may result in the issuance of regulations that are not included in this agenda. There is no legal significance to the omission of an item from this listing. Also, the dates shown for the steps of each action are estimated and are not commitments to act on or by the dates shown.

FOR FURTHER INFORMATION CONTACT: Margaret A. Willis, FAR Secretariat, (202) 523-4755.

SUPPLEMENTARY INFORMATION: DOD, GSA, and NASA, under their several statutory authorities, jointly issue and maintain the Federal Acquisition Regulation (FAR) and prescribe the FAR system. Revisions to the FAR are made through periodic issuance of Federal Acquisition Circulars (FAC's). None of the regulations listed in this agenda are considered major under Executive Order 12291, Federal Regulation.

Dated: August 27, 1987.

Lawrence J. Rizzi,

Director, Office of Federal Acquisition and Regulatory Policy.

Semiannual Regulatory Agenda

COMMODITY FUTURES TRADING COMMISSION (CFTC)

COMMODITY FUTURES TRADING COMMISSION

17 CFR Ch. I

Regulatory Flexibility Agenda

AGENCY: Commodity Futures Trading Commission.

ACTION: Publication of regulatory flexibility agenda.

SUMMARY: The Commodity Futures Trading Commission, in accordance with the requirements of the Regulatory Flexibility Act, is publishing a semiannual agenda of significant rules which the Commission expects to propose or promulgate over the next year. The Commission welcomes comments from small entities and others on the agenda.

ADDRESS: Comments should be sent to: Commodity Futures Trading Commission, 2033 K Street, NW., Washington, DC 20581 (202) 254-7360.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601, et seq. ("RFA"), sets forth a number of requirements for agency rulemaking. Among other things, the RFA requires that:

(a) During the months of October and April of each year, each agency shall publish in the **Federal Register** a regulatory flexibility agenda which shall contain:

(1) A brief description of the subject area of any rule which the agency expects to propose or promulgate which is likely to have a significant economic impact on a substantial number of small entities;

(2) A summary of the nature of any such rule under consideration for each subject area listed in the agenda pursuant to paragraph (1), the objectives and legal basis for the issuance of the rule, and an approximate schedule for completing action on any rule for which the agency has issued a general notice of proposed rulemaking; and

(3) The name and telephone number of an agency official knowledgeable concerning the items listed in paragraph (1).

5 U.S.C. 602(a). Accordingly, the Commission has prepared an agenda of significant rules which it presently expects may be considered during the course of the next year, irrespective of their potential impact on small entities.[1] In addition, the agenda lists rulemaking actions which have been completed since the April agenda was prepared.

The Commission's agenda represents its best estimate of significant rules which will be considered over the next twelve months.[2] In this regard, section 602(d) of the RFA, 5 U.S.C. 602(d), provides: "Nothing in [section 602] precludes an agency from considering or acting on any matter not included in a regulatory flexibility agenda or requires an agency to consider or act on any matter listed in such agenda."

The Commission is publishing its October 1987 Regulatory Flexibility Agenda as part of the October Unified Agenda of Federal Regulations. The Unified Agenda of Federal Regulations is coordinated by the Office of Management and Budget pursuant to Executive Order 12291. While participation by executive agencies in the Agenda is mandatory, independent agencies, such as the Commission, participate in the Unified Agenda on a voluntary basis.

The Commission's October 1987 Regulatory Flexibility Agenda is set forth below.

Issued in Washington, DC on September 3, 1987, by the Commission.

Jean A. Webb,

Secretary of the Commission.

[1] The Commission has published its definition of small entity to be used by the Commission in connection with rulemaking proceedings. 47 FR 18618 (April 30, 1982). Pursuant to those definitions, the Commission is not required to list many of the agenda items contained in this regulatory flexibility agenda. *See* 5 U.S.C. 602(a)(1). Moreover, the Commission has previously certified, pursuant to section 605 of the RFA, 5 U.S.C. 605, that certain items contained in this agenda will not have a significant economic impact on a substantial number of small entities. Accordingly, listing of an event in this regulatory flexibility agenda should not, in any event, be taken as a determination that a rule, when proposed or promulgated, will in fact require a regulatory flexibility analysis. However, the Commission hopes that the publication of an agenda which includes significant rules, regardless of their potential impact on small entities, may serve the public generally by providing an early and meaningful opportunity to participate in and comment on the formulation of new or revised regulations.

[2] In addition to publishing the regulatory flexibility agenda, the Commission also makes available to the public, on a monthly basis, a calendar listing rules that the Commission intends to consider that month.

COMMODITY FUTURES TRADING COMMISSION (CFTC) — Proposed Rule Stage

3561. ● REGULATIONS GOVERNING COMMISSION REVIEW OF CERTAIN ACTIONS OF REGISTERED FUTURES ASSOCIATIONS

Legal Authority: 7 USC 21(h); 7 USC 21(i); 7 USC 21(o)(2); 7 USC 12a(5)

CFR Citation: 17 CFR 3

Legal Deadline: None.

Abstract: The Commission has statutory authority to review the actions of registered futures associations such as the National Futures Association. Such actions include registration decisions, membership decisions and decisions in disciplinary actions. The Commission currently reviews registration decisions by the National Futures Association pursuant to Subpart F of 17 CFR Part 3. Section 107 of the Futures Trading Act of 1986 mandates that the Commission develop regulations relating to notice of membership decisions and decisions in disciplinary actions made by registered futures associations and to expedited consideration by the Commission of a motion to stay the effect of a decision by a registered futures association pending the Commission review of the decision. The Commission intends to propose rules to govern its review of actions by self regulatory organizations in light of this Congressional mandate and the need to assure that review by the Commission is fair, expeditious and consistent with the policies of self-regulation.

3562. REGULATIONS PERMITTING THE GRANT, OFFER AND SALE OF OPTIONS ON PHYSICAL COMMODITIES (DEALER OPTIONS)

Legal Authority: 7 USC 6c(b); 7 USC 6c(d); 7 USC 12a(5)

CFR Citation: 17 CFR 1; 17 CFR 3; 17 CFR 32

Legal Deadline: None.

Abstract: Congress has directed the Commission to issue regulations permitting grantors and futures commission merchants to grant, offer and sell so-called "dealer options" on certain physical commodities subject to certain conditions specified by statute and such other uniform and reasonable requirements as the Commission may prescribe. At present, the only persons who may lawfully grant dealer options are United States domiciles who, on May 1, 1978, were in the business of buying, selling, producing or otherwise using that commodity. The Commission has reproposed rules, principally concerning registration of dealer option grantors, requirements for the segregation of customer funds, disclosure to customers and prospective customers, and minimum financial requirements. The Commission intends to re-evaluate the proposed rules in light of regulatory changes that have occurred since 1980.

Abstract: The Commission adopted two amendments to its minimum financial and related requirements for futures commission merchants (FCMs). One amendment will preserve the one-day grace period for debit/ deficit accounts unless the account had been in debit/deficit status on the previous business day and the present day's debit or deficit was not timely satisfied in its entirety by the deposit of new funds. The second amendment is an enhancement of the financial early warning system which requires an FCM to notify its designated self-regulatory organization and the Commission immediately when it determines that an account it is carrying is undermargined by an amount which exceeds its adjusted net capital. The Commission also reproposed a rule to clarify the requirements for and treatment of a guaranteed account.

Abstract: It has been a longstanding policy of the Commodity Futures Trading Commission ("Commission") to establish and enforce under its rulemaking authority speculative position limits for futures contracts on various agricultural commodities. Generally, the appropriateness of the particular levels of these speculative position limits has not been reviewed in recent years. In this regard, the Commission has received petitions for rulemaking concerning these matters. Accordingly, the Commission is undertaking generally to review these speculative position limits and to revise them as appropriate.

Abstract: The Commission proposed adopting a regulation which would require designated self-regulatory organizations (SROs) to adopt rules to prohibit the disclosure and misuse of material, non-public information obtained by SRO members by nature of their participation on governing boards or committees. The regulation would also require SROs and clearing organizations to adopt rules to require, subject to certain exceptions, the immediate publication of final decisions by governing boards and committees. The Commission proposes to include these new requirements as amendments to the existing Regulations 1.59 pertaining to the use of non-public information by SRO employees.

Consumer Product Safety Commission

Semiannual Regulatory Agenda

CONSUMER PRODUCT SAFETY COMMISSION (CPSC)

CONSUMER PRODUCT SAFETY COMMISSION

16 CFR Ch. II

Regulatory Flexibility Act; Semiannual Regulatory Flexibility and Unified Agendas

AGENCY: Consumer Product Safety Commission.

ACTION: Publication of regulatory flexibility and unified agendas.

SUMMARY: The Regulatory Flexibility Act (RFA) requires each Federal agency to publish twice each year a regulatory flexibility agenda listing the rules expected to be proposed or promulgated which are likely to have a significant economic impact on a substantial number of small entities, including small businesses, small organizations, and small governmental units. In this document, the Commission publishes its semiannual regulatory flexibility agenda.

Additionally, although not required to do so, the Commission has elected to comply voluntarily with those provisions of Executive Order 12291 which require executive agencies to publish an agenda of regulatory actions expected to be under development or review by the agency during the succeeding 12 months and which further provide that such an agenda may be combined with an agency's regulatory flexibility agenda published in accordance with the RFA.

DATE: The Commission welcomes comments on each subject area of the agenda, particularly from small entities. Written comments concerning the agenda should be received in the Office of the Secretary by December 31, 1987.

ADDRESS: Comments on the regulatory flexibility agenda should be sent to the Office of the Secretary, Consumer Product Safety Commission, Washington, DC 20207, telephone (301) 492-6800, and should be titled "Regulatory Flexibility Agenda."

FOR FURTHER INFORMATION CONTACT: For further information on the agenda in general, contact: Allen F. Brauninger, Office of the General Counsel, Consumer Product Safety Commission, Washington, DC 20207, telephone (301) 492-6980. All inquiries from the press and broadcast media should be directed to Lou Brott, Office of Media Relations, Consumer Product Safety Commission, Washington, DC 20207, telephone (301) 492-5540. For further information regarding a particular item on the agenda, consult the individual listed in the column headed "Contact" for that particular item.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act, 5 U.S.C. 601-612, contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small businesses, small governmental organizations, and other small entities. Section 602 of the Act, 5 U.S.C. 602, requires each agency to publish twice each year a regulatory flexibility agenda containing a brief description of the subject area of any rule expected to be proposed or promulgated which is likely to have a "significant economic impact" on a "substantial number" of small entities. The agency must also provide a summary of the nature of the rule, the objectives and legal basis for the rule, and a schedule for acting on each rule for which the agency has issued a notice of proposed rulemaking. The Regulatory Flexibility Agenda shall also contain the name and address of the agency official knowledgeable about the items listed. Further, agencies are required to provide notice of their agendas to small entities and to solicit their comments by direct notification or by inclusion in publications likely to be obtained by such entities.

In addition, President Reagan's Executive Order 12291 requires executive agencies to publish, twice each year, a regulatory agenda of proposed regulations under development or current regulations under review and further states that such an agenda may be combined with an agenda published under the RFA. While the Commission, as an independent regulatory agency, is not required to follow Executive Order 12291, the Commission is complying voluntarily with those provisions concerning publication of a regulatory agenda.

The regulatory flexibility agenda published below lists, for a 12-month period, the regulatory activities expected to be under development or review. These include all such activities, not only those which may have a significant economic impact on a substantial number of small entities.

The agenda contains a brief description and summary of each regulatory activity, including the objectives and legal basis for each; an approximate schedule of target dates, subject to revision, for the development or completion of each activity; and the name and telephone number of a knowledgeable agency official concerning particular items on the agenda. All agency contacts have the same address: Consumer Product Safety Commission, Washington, DC 20207.

Dated: September 24, 1987

Sadye E. Dunn,

Secretary, Consumer Product Safety Commission.

Abstract: On May 31, 1985, the Commission published an advance notice of proposed rulemaking (ANPR) to announce its preliminary determination that an unreasonable risk of injury may be associated with all-terrain vehicles. An all-terrain vehicle (ATV) is a motorized machine intended to be ridden by one person and designed for off-road use. ATVs are manufactured in three-wheel and four-wheel designs. Hearings were held in six cities from May 1985 through March 1986. On April 3, 1985, the Commission established a staff ATV Task Force to study and evaluate this matter. The Task Force submitted a report and recommendations. On December 18, 1986, the Commission directed its staff to: (1) continue to work with the industry to develop voluntary performance standards and do the technical work required to issue a NPRM to address the performance characteristics of ATVs, (2) prepare a letter to state governors, the Department of the Interior, and other appropriate federal agencies stressing the importance of ATV safety, and inform consumers and states of ATV safety hazards, (3) update the ATV safety alert and actively conduct Clearinghouse (cont.)

Letters were sent to the Governors of the fifty states on January 28, 1987, and to Federal agencies on February 26, 1987. A letter setting forth the Commission's concern about progress in developing voluntary standards for ATVs was sent to SVIA on March 30, 1987. The Consumer Alert on ATVs was updated and made available to the public on May 7, 1987.

3574. PETITION PP 85-2. PETITION FOR RULE TO MAKE DISPOSABLE LIGHTERS CHILD-RESISTANT

Legal Authority: 15 USC 1471 et seq. Poison Prevention Packaging Act

CFR Citation: Not yet determined

Legal Deadline: None.

Abstract: On May 3, 1985, the Commission received a petition from Diane L. Denton, R.N., requesting the Commission to initiate a rulemaking proceeding to establish requirements applicable to disposable lighters to make those products child-resistant. Information available to the Commission staff indicates that a significant number of young children die each year from fires involving

disposable lighters. However, this information is not adequate to determine what action, if any, could be taken to reduce this hazard. A study is in progress to obtain information about possible means of addressing risks of death and injury to young children associated with disposable lighters. The field portion of the study has been completed, and an analysis of the data obtained is in progress. The staff will prepare a briefing package for consideration by the Commission in deciding whether to grant or deny the petition.

Legal Authority: 5 USC 553 Administrative Procedure Act; 15 USC 2051 et seq Consumer Product Safety Act

CFR Citation: Not yet determined

Legal Deadline: None.

Abstract: By letter dated June 3, 1986, James L. Dieringer petitioned the Commission to begin a proceeding for issuance of a rule to address the tip-over hazards of mobile television carts and related equipment for use in schools, institutions, and government agencies. The staff is preparing a briefing package for consideration by the Commission when deciding whether to grant or deny the petition. If the Commission grants the petition, it will begin a rulemaking proceeding under the Consumer Product Safety Act. A Commission decision is expected in October 1987.

Abstract: On October 14, 1986, Mr. Mark Germaine petitioned the Commission to ban: consumer products that contain limestone, including lawn and garden limestones, both granular and pulverized; sand products, including play sand; and consumer gravel products; if such products contain more than 0.01 percent of tremolite. Mr. Germaine bases his request for a ban on a concern that tremolite in these products is carcinogenic and causes mesothelioma. CFR Citation: Not yet determined

Legal Deadline: None.

Abstract: In correspondence dated August 26, 1986, the Consumer Federation of America petitioned the Commission to begin a proceeding to issue a consumer product safety standard for bunk beds. The petition alleges that unreasonable risks of death or injury to children are associated with bunk beds in that (1) supporting structures for mattresses can be inadequate to prevent the mattress from falling on children, (2) guardrails can be positioned far enough above the upper surface of the mattress to allow a child's body to slip between the guardrail and the mattress, resulting in head entrapment and strangulation, and (3) the absence of a guardrail on the side of the bed next to a wall can result in entrapment of a child's head or chest between the mattress and the wall, causing strangulation. If the petition is granted, the Commission will begin a rulemaking proceeding under either the Consumer Product Safety Act or the Federal Hazardous Substances Act.

Abstract: In correspondence dated April 20, 1987, the Consumer Federation of America (CFA) petitioned the Commission on behalf of CFA and the New York State Attorney General's Office to amend the small parts regulation to require the diameter of the small parts cylinder specified in the regulation to be increased from 1.25 inches to at least 1.68 inches, in order to decrease choking incidents. The facts claimed to support the need for an amendment of the small parts regulation are derived from a CPSC Human Factors analysis of choking incidents in children (1983), a 1986 CPSC listing of choking incidents from in-depth investigations, and a written opinion by Bernard Dreyer, M.D. If the petition is granted, the Commission will begin a rulemaking proceeding under the Federal Hazardous Substances Act.

Abstract: On September 19, 1986, the Commission received a petition from the National Kerosene Heater Association (NKHA). The association requested that the Commission initiate proceeding under the Consumer Product Safety Act to develop a kerosene heater rule containing requirements to limit nitrogen dioxide emissions of kerosene heaters and all of the requirements for kerosene heaters now contained in UL Standard 647. At about the same time, the International Association of Fire Chiefs (IAFC) requested the Commission to require the kerosene heater industry to provide notice and warning labels on all kerosene heaters sold in the United States alerting the consumer that unvented portable kerosene heaters are subject to spontaneous and uncontrollable flare-up with flames extending outside the cabinet. The staff is preparing a briefing package on these requests for consideration by the Commission. Abstract: The Commission has been considering options to address injuries and deaths in children caused by children playing with lawn darts. On October 1, 1987, the Commission directed its staff to prepare an ANPR for Commission approval that would indicate that the Commission may either require five labeling, instructions, and marketing actions that the Commission previously had asked the industry to do voluntarily or ban lawn darts. The latter action would include the possibility of revoking the current FHSA exemption that allows the marketing of certain lawn darts. The particular action to be taken ultimately would take into account the results of a surveillance program to be conducted by the staff 3 months after the ANPR to determine if the industry is in substantial compliance with the requested five actions. The final action would also depend on an evaluation of whether such voluntary or mandatory standards, if enforced, could be expected to protect consumers from unreasonable risk of injuries. The ANPR would include inquiries to the public to determine whether the current exemption should be revoked or amended. The staff was directed to vigorously enforce current FHSA provisions on (cont)

CFR Citation: 16 CFR 1700.20

Abstract: On January 19, 1983, the Commission published an Advance Notice of Proposed Rulemaking soliciting comments on ways to amend the existing requirements for child-resistant packaging to improve the effectiveness and efficiency of these requirements. In June, 1985, the Commission staff completed testing to determine the feasibility of using some of the alternate procedures for evaluation of child-resistant packaging described in the ANPR. In August 1987, the Commission considered the comments received in response to the ANPR and the staff's recommendations regarding revision of existing requirements for child-resistant packaging. The Commission directed the staff to prepare draft proposals to amend the test protocols used to evaluate the effectiveness of child-resistant packaging. The staff is preparing a briefing package concerning specific revisions to the child test protocol and the adult test protocol. The staff anticipates that it will transmit the briefing package to the Commission in December 1987.

Legal Authority: 15 USC 1261(p)(1) Federal Hazardous Substances Act

Abstract: On December 13, 1985, the Commission proposed a regulation to amend the FHSA regulations for first aid labeling of products containing 10 per cent or more of benzene, toluene, xylene, or petroleum distillates by eliminating the current requirement that such labeling must contain the direction "if swallowed, do not induce vomiting." Current expert opinion is that the decision of whether to induce vomiting as a first aid treatment should be made on a case-by-case basis, depending on the toxicity of the individual product and the amount ingested. The staff is preparing a briefing package with an analysis of comments received on the proposed amendment for submission to the Commission in September 1987.

Abstract: On September 3, 1985, the Consumer Federation of America (CFA) petitioned the Commission to begin a proceeding for issuance of a rule under provisions of section 3(a) of the Federal Hazardous Substances Act (FHSA) to declare that household products containing methylene chloride are hazardous substances. By letter dated December 20, 1985, CFA amended the petition to also request that a proceeding be initiated to declare household products containing methylene chloride to be "banned hazardous substances" under provisions of section 2(q)(1)(B) of the FHSA upon issuance of the rule to classify such products as hazardous substances. Methylene chloride is a solvent used in paint strippers, spray paints, and other consumer products. On August 20, 1986, the Commission proposed a rule to declare household products containing methylene chloride to be hazardous substances. This had the effect of granting CFA's first request. In August 1987, the Commission determined that there was insufficient controversy to warrant a rulemaking proceeding and issued a statement of enforcement policy stating the Commission's view that (cont.)

Abstract: On August 20, 1986, the Commission proposed a rule to declare that household products containing methylene chloride are hazardous substances under the Federal Hazardous Substances Act. These products include some paint strippers and spray paints. The Commission's concern arises from animal tests showing that methylene chloride is a carcinogen by inhalation and studies indicating a significant human exposure as a result of reasonably foreseeable use of products containing methylene chloride. The initiation of this rulemaking proceeding granted one part of a petition (HP 85-1) from the Consumer Federation of America. The staff provided an analysis of the comments on the proposed rule to the Commission in June 1987. In August 1987, the Commission determined that there was insufficient controversy over the status of methylene chloride as a hazardous substance; therefore, the Commission suspended the rulemaking and issued a statement of enforcement policy stating the Commission's view that household products that contain methylene chloride and that expose consumers to significant levels of methylene chloride are (cont.)

FARM CREDIT ADMINISTRATION

12 CFR Ch. VI

Unified Agenda of Federal Regulations

AGENCY: Farm Credit Administration.

ACTION: Department Unified Agenda of Regulations and review list.

SUMMARY: The Farm Credit Administration (FCA), as an independent regulatory agency in voluntary compliance with Executive Order 12291, sets forth the following agenda of regulations which it will have under development and review during the period of October 1987 through April 1988.

FOR FURTHER INFORMATION CONTACT: Cindy R. Nicholson, Office of General Counsel, Farm Credit Administration, 1501 Farm Credit Drive, McLean, Virginia 22102-5090 (703-883-4020).

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act (5 U.S.C. 601, et seq.), contains several provisions intended to reduce unnecessary and disproportionate regulatory requirements on small entities. Farm Credit Administration regulations which apply to Farm Credit System banks and associations do not and will not have a substantial impact on small entities. None of the entities regulated by the FCA fall within the definition of small entities in the Regulatory Flexibility Act. While many associations through which banks lend are smaller in size than their banks, they are not independently operated, as they are closely supervised by the banks, which must approve most of their operating policies. The associations rely exclusively on their supervising banks for their source of funds. Furthermore, the associations do not compete with each other since, as with their supervising banks, each serves only a particular geographic area.

While FCA is an independent agency exempt from Executive Order 12291, we believe that participating in this joint publication will further the public interest by including FCA in a single source of information concerning current and projected rulemaking and reviews of existing regulations.

Dated: September 8, 1987.

Semiannual Regulatory Agenda

FEDERAL COMMUNICATIONS COMMISSION (FCC)

FEDERAL COMMUNICATIONS COMMISSION

47 CFR Ch. I

Unified Agenda of Federal Regulations; October 1987

AGENCY: Federal Communications Commission.

ACTION: Publication of the Unified Agenda of Federal Regulations.

SUMMARY: Twice a year, the Commission publishes a list in the Unified Agenda of those major items and other significant proceedings under development or review that pertain to the Regulatory Flexibility Act. The agenda also provides the CFR Citations and Legal Authorities which govern these proceedings. The Regulatory Flexibility Act (94 Stat. 1167; 5 U.S.C. 605) includes notations on the applicability of the Regulatory Flexibility Act to each item.

The Unified Agenda is published in the **Federal Register** in April and October of each year.

ADDRESS: Federal Communications Commission, 1919 M Street, NW., Washington, DC 20554.

FOR FURTHER INFORMATION CONTACT: Claudette Pride, Office of Managing Director, (202) 632-3906.

SUPPLEMENTARY INFORMATION:

Unified Agenda of Major and Other Significant Proceedings.

The Commission encourages public participation in the FCC rulemaking process. To help keep the public informed of significant rulemaking proceedings, the Commission has prepared an agenda of important proceedings now in progress. OMB publishes the Unified Agenda in the **Federal Register** in April and October of each year.

The following terms may be helpful in understanding the status of the proceedings included in this report:

A Docket Number - is assigned to a proceeding if the Commission has issued either a Notice of Proposed Rulemaking or a Notice of Inquiry in regard to the matter under consideration. Since January 1, 1978, the Commission has used docket numbers which consist of the last two digits of the calendar year in which the docket was established plus a sequential number which begins at 1 with the first docket initiated during a calendar year (e.g., Docket 80-1 or Docket 83-1). The abbreviation for the responsible Bureau usually precedes the docket number, as in "Docket 79-164." When a docket number consists of only five digits (e.g., Docket 29622), this indicates that the docket was established before January 1, 1978.

Notice of Inquiry (NOI) - issued by the Commission when it is seeking information on a broad subject or trying to generate ideas on a given topic. A comment period is specified during which all interested parties may submit comments.

Notice of Proposed Rulemaking (NPRM) - issued by the Commission when it is proposing a specific change to the FCC Rules and Regulations. Before any changes are actually made, interested parties may submit written comments on the proposals.

Memorandum Opinion and Order (MO&O) - issued by the Commission to deny a petition for rulemaking, conclude an inquiry, modify a decision, or deny a petition for reconsideration of a decision.

Rulemaking (RM) Number - assigned to a proceeding after the appropriate Bureau/Office has reviewed a petition for rulemaking, but before the Commission has taken action on the petition.

Report & Order (R&O) - issued by the Commission to state a new or amended rule or state that the FCC Rules will not be changed.

William J. Tricarico,

Secretary, Federal Communications Commission.

3610. SATELLITE COMMUNICATIONS

Significance: Agency Priority

Legal Authority: 47 USC 303; 47 USC 553

CFR Citation: 47 CFR 25

Abstract: The Commission seeks to develop a record & to solicit comments on the proposed rules. These proposed rules are designed to implement recommendations made by the joint industry/government Advisory Committee on 2 degree satellite spacing; and they will codify basic applications requirements for satellite services. The proposed rules would apply to all entities including small entities who seek authorization under Part 25 of the Commission's rules to construct and operate Fixed-Satellite communications facilities. The proposed rules would establish operational and technical procedures designed to alleviate adjacent satellite interference and may increase the reporting and cost burdens on all satellite licensees. The rules codifying basic applications requirements are codifications of existing policies. Will impose no additional burdens, and may, in fact, reduce the burden by eliminating several current requirements. In order to be effective, these rules must apply to all licensees and thus there is no significant alternative.

Significance: Agency Priority

Legal Authority: 47 USC 410

CFR Citation: 47 CFR 67; 47 CFR 69

Abstract: With the issuance of this Further Notice of Proposed Rulemaking, we initiate a proceeding to examine the effects of (1) subscriber line charges, (2) the federal lifeline assistance program, and (3) our present measures to assist high cost telephone companies on the primary goals of our access charge proceeding. Preserving universal service, promoting economic efficiency, eliminating service pricing discrimination, and deterring uneconomic bypass are the four longstanding goals in our access charge proceeding.

Significance: Agency Priority

Legal Authority: 47 USC 4(i); 47 USC 303(r); 47 USC 154(i); 47 USC 303; 47 USC 4; 5 USC 553

CFR Citation: 47 CFR 21

Abstract: Make licensing procedure as efficient as possible for carriers and FCC staff, update and simplify the rules to reflect recent changes in the industry and the introduction of new communication services; and to eliminate those requirements that appear to be no longer necessary. By replacing a two-step licensing process with a one-step licensing process and eliminating unnecessary regulations, the burden on small businesses (applicants) will be substantially reduced, delays in implementing services will be minimized and service will be provided to the public in the most efficient and expeditious manner possible.

Significance: Agency Priority

Legal Authority: 47 USC 154; 47 USC 303

CFR Citation: 47 CFR 73.3555

Abstract: The Commission has proposed to relax a portion of the "duoploy" rule as it applies to AM and FM station ownership. The Commission also has proposed to relax a section of the one-to-a-market" rule to permit combinations of AM, FM, and UHF television stations in the top fifty markets. Under the proposed rule, common ownership of radio-television combinations would be considered on a case-by-case basis.

Semiannual Regulatory Agenda

FEDERAL DEPOSIT INSURANCE CORPORATION (FDIC)

FEDERAL DEPOSIT INSURANCE CORPORATION

12 CFR Ch. III

Semiannual Agenda of Regulations

AGENCY: Federal Deposit Insurance Corporation.

ACTION: Publication of semiannual agenda of regulations.

SUMMARY: The Federal Deposit Insurance Corporation ("FDIC") is hereby publishing items for the October 1987 Regulatory Agenda. The agenda contains information about FDIC's current and projected rulemakings, existing regulations under review, and completed rulemakings.

FOR FURTHER INFORMATION CONTACT: Persons identified under regulations listed in the agenda. The address for all FDIC staff identified in the agenda is Federal Deposit Insurance Corporation, 550 17th Street, NW., Washington, DC 20429.

SUPPLEMENTARY INFORMATION: Twice each year, the FDIC publishes an agenda of regulations to inform the public of its regulatory actions and to enhance public participation in the rulemaking process. Publication of the agenda is in accordance with both the Regulatory Flexibility Act (5 U.S.C. 601 et seq.) and the FDIC statement of policy entitled "Development and Review of FDIC Rules and Regulations" (44 FR 31007, May 30, 1979; 44 FR 32353, June 6, 1979; 44 FR 76858, December 28, 1979; 49 FR 7288, February 28, 1984).

FDIC amends its regulations under the general rulemaking authority prescribed in section 9 of the Federal Deposit Insurance Act (12 U.S.C. 1819) and under specific authority granted by the Act and other statutes.

Interested persons may petition the FDIC for the issuance, amendment or repeal of any regulation by submitting a written petition to the Executive Secretary, Federal Deposit Insurance Corporation, Washington, DC 20429. Petitioners should include complete and concise statements of their interest in the subject matter and reasons why the petitions should be granted.

Federal Deposit Insurance Corporation.

Margaret M. Olsen,

Deputy Executive Secretary.

3668. ● FOREIGN BANKS

Legal Authority: 12 USC 1815; 12 USC 1817; 12 USC 1819; 12 USC 1820; 12 USC 3103; 12 USC 3104; 12 USC 3108

CFR Citation: 12 CFR 346

Legal Deadline: None.

Abstract: Part 346 sets out the rules governing FDIC-insured branches of foreign banks. It implements the insurance provisions of section 6 of the International Banking Act of 1978 (12 USC 3104). The rules relate to: policy regarding the operation of insured and noninsured branches by a foreign bank; pledge of assets; and asset maintenance.

This regulation has been selected for review under FDIC's Regulation Review Program for 1987, and action has been initiated which will result in a comprehensive review of Part 346 for the purpose of revising, simplifying, and for clarifying the regulation where appropriate.

3669. SECURITIES RECORDKEEPING AND CONFIRMATIONS

Legal Authority: 12 USC 1817; 12 USC 1818; 12 USC 1819

CFR Citation: 12 CFR 344

Legal Deadline: None.

Abstract: The FDIC expects to propose an amendment to 12 CFR Part 344, which governs an insured nonmember bank's recordkeeping and confirmation requirements for securities transactions. The proposed amendment would expand an existing exception under Part 344 for low activity. The exception would be increased to allow banks which effect an average of fewer than 1,000 securities transactions per year to be exempt from certain recordkeeping and written policymaking requirements. The current "low-activity" threshold is 200 transactions per year. The amendment is needed to eliminate unnecessary paperwork burden and is intended to reduce the impact of FDIC's regulation on insured nonmember banks that engage in a low number of securities transactions per year.

Legal Authority: 12 USC 1817; 12 USC 1818; 12 USC 1819; 12 USC 1820; 15 USC 1691 et seq; 42 USC 3605; 42 USC 3608

CFR Citation: 12 CFR 338

Legal Deadline: None.

Abstract: The FDIC has proposed amending its fair housing regulation, 12 CFR Part 338, which applies to insured state nonmember banks. The proposed amendment would eliminate home-equity loans, as well as home improvement, maintenance and repair loans from the data-gathering requirement. Accordingly, the data-gathering requirement would then only apply to home purchase, construction and refinancing loans. The FDIC believes that the proposed amendment would reduce the paperwork burden on the banking industry without impairing enforcement of fair housing lending laws.

3671. ● DISCLOSURE OF FINANCIAL AND OTHER INFORMATION BY FDIC INSURED STATE NONMEMBER BANKS

Legal Authority: 12 USC 1817; 12 USC 1819

CFR Citation: 12 CFR 350

Legal Deadline: None.

Abstract: The FDIC has proposed a new regulation that would require state-chartered FDIC insured commercial and savings banks that are not members of the Federal Reserve System ("insured state nonmember banks") to provide basic information about themselves to shareholders, borrowers, depositors and others to whom they offer banking services. A disclosure statement would be required by February 15, or March 1 for banks with foreign offices, each year and would include pertinent financial data for the previous two years and, at the option of the bank, a management discussion and analysis section.

Legal Authority: 12 USC 1819; 12 USC 1828; PL 97-320, Sec 442

CFR Citation: 12 CFR 337

Legal Deadline: None.

Abstract: On June 16, 1986, the Board of Directors of the FDIC granted the request of several petitioners that the FDIC reconsider the provisions of FDIC's rule governing securities subsidiaries and affiliates of insured nonmember banks which deal with the use of a common name or logo and separate offices. A request for comment on whether or not these provisions should be retained, modified, or eliminated was published at 51 FR 29657, August 20, 1986. A subsequent proposed rule was published for comment on April 9, 1987. Insured nonmember banks that prior to December 28, 1984, became affiliated with a securities company, or prior to that date established or acquired a subsidiary that engages in securities activities, were required to comply with the common name or logo and separate office restrictions of the regulation by June 30, 1987. On June 17,1987, the FDIC extended the compliance deadline until October 15,1987, in order to provide staff further time to consider the comments on the proposed rule. See 52 FR 23543, June 23, 1987.

CFR Citation: 12 CFR 332

Legal Deadline: None.

Abstract: The FDIC has proposed amending Part 332 of its regulations governing "Powers Inconsistent with the Purposes of Federal Deposit Insurance Law." The proposed amendment would, among other things, prohibit insured banks, subject to certain exceptions, from directly engaging in real estate development and insurance underwriting activities and establish certain restrictions on the indirect conduct of such activities.

CFR Citation: 12 CFR 325

Legal Deadline: None.

Abstract: The FDIC is amending its capital regulation by revising the definitions of the terms "assets classified loss," "subordinated note or debenture" and "total assets." The amendments also would allow the FDIC to include in primary and secondary capital any capital instrument or account that has the characteristics of capital. Also included is a safety and soundness test regarding the terms and conditions affecting capital instruments. Finally, limits are set on when the FDIC may deny mergers solely because a capital deficiency would exist in the resulting entity.

Abstract: The rule proposes to amend the Commission's regulations to establish the Natural Gas Data Collection System through the adoption of FERC Form No. 591. FERC Form No. 591 requires natural gas pipelines to submit various data, rate filings and certificate applications to the Commission on 9-track magnetic tape. In addition, FERC Form No. 591 revises the data presently submitted by natural gas pipelines to reflect the Commission's current regulatory responsibilities. This revision results in the filing of much of the same data at the same time as presently, eliminates data presently filed and requires the submission of data in more detail or more frequently than presently filed. Significance: Agency Priority

Legal Authority: 42 USC 7101 to 7352 DOE Organization Act; EO 12009; 15 USC 717 to 717w Natural Gas Act; 15 USC 3301 to 3432 Natural Gas Policy Act

CFR Citation: 18 CFR 154

Legal Deadline: None.

Abstract: The Commission seeks additional comment on its block billing procedures. In the original notice, the Commission proposed: -A three-part gas rate for pipeline gas sales, to preserve the benefits of "old" gas for existing firm sales customers and to mitigate competitive distortions resulting from the lingering effects of existing wellhead price controls; -A first block containing "old gas" under sections 104, 106(a) and 109 of the NGPA; -That after a pipeline permitted its firm sales customers to reduce 100 percent of their contract demands and offered those customers non-discriminatory self-implementing transportation, then the sales price assigned to the second block was presumed to be just and reasonable. The revised proposal is as follows: -Eliminating "Block 3" with revisions to clarify that the "as-billed" principle continues to apply to fixed costs; -Extending the base period to include the period between December 1, 1978, to December 31, 1984; -Including interruptible purchases for purposes of determining block 1 allocation factors; -Clarifying that the presumption of justness and reasonableness for block 2 gas; -Clarifications re implementation. FEDERAL HOME LOAN BANK BOARD (FHLBB) — Prerule Stage

3713. ● REGULATIONS REQUIRED BY THE COMPETITIVE EQUALITY BANKING ACT OF 1987

Significance: Agency Priority

Legal Authority: PL 100-86

CFR Citation: 12 CFR 500 to 591

Legal Deadline: Statutory, January 7, 1988. The Competitive Equality Banking Act of 1987, PL 100-86, 101 Stat. 552, requires the Bank Board to adopt certain regulations identified in this advance notice of proposed rulemaking by January 7, 1988.

Abstract: The Bank Board is issuing an advance notice of proposed rulemaking to inform the public of its intention to promulgate regulations required by the Competitive Equality Banking Act of 1987 ("CEBA"). Within 2 to 6 months of the date of CEBA's enactment, the Bank Board is required to issue regulations or guidelines in the following areas: qualified thrift lender test; classification of assets; appraisals; uniform generally accepted accounting principles; gain and loss deferrals; capital forebearance; minimum capital requirements; procedures setting time limits for approval or disapproval of applications submitted to Bank Board; and asset disposition. The Bank Board is requesting comment on these areas and others to assist in implementing the requirements of the CEBA. Additionally, the Bank Board is soliciting comment on the possible promulgation of other regulations not covered by this notice as well as amendments to existing regulations that may be necessary to implement the provisions of the CEBA the most effective way. Since the proposal is only an advance notice of proposed rulemaking, the potential costs and benefits of a proposed (cont)

3714. ● SETTLEMENT OF INSURANCE; FEDERAL SAVINGS AND LOAN INSURANCE CORPORATION

Legal Authority: 12 USC 1724 to 1730g

CFR Citation: 12 CFR 564.2; 12 CFR 564.9

Legal Deadline: None.

Abstract: The Bank Board is proposing to amend its regulations pertaining to the settlement of insurance on accounts held jointly. The Bank Board proposes to delete the current requirement that each co-owner of a joint account must personally execute a signature card for the account in order for the account to be separately insured. The Bank Board believes the current rule may have caused hardship to depositors and added to the recordkeeping burden on institutions without appreciably reducing the risks of fraudulent claims of entitlement to separate joint account insurance coverage. The Bank Board also is proposing to consolidate provisions of its regulations governing joint accounts and to clarify the provisions affecting joint accounts established by intermediaries.

There are no alternatives that would be less burdensome than the rule in addressing the concerns expressed above.

The potential costs and benefits of the proposed regulation on the industry have not been quantified.

Legal Authority: 12 USC 1421 to 1429; 12 USC 1437; 12 USC 1724 to 1730

CFR Citation: 12 CFR 563.17-1a, (new section); 12 CFR 571.1b, (new section)

Legal Deadline: None.

Abstract: The Bank Board is proposing to adopt a rule and a statement of policy pertaining to appraisal policies and practices of insured institutions and service corporations of such institutions. The proposed rule is intended to codify the standards to be used by insured institutions and service corporations, as well as examiners and supervisory staff, in determining compliance with the appraisal requirements of 12 CFR 563.17-1 and 563.17-2. The proposed rule and policy statement address the same four components of the Bank Board's appraisal standards and reporting requirements addressed in R-41c as clarified: management policies, appraisal management, appraisal content, and related considerations. This proposed rule, however, has been designed to clarify and simplify the R-41c guidelines. The proposed rule would apply equally to all insured institutions.

There are no alternatives that would be less burdensome than the rule in addressing the concerns expressed above.

The potential costs and benefits of the proposed regulation on the industry have not been quantified.

Legal Authority: 12 USC 1464; 12 USC 1726; 12 USC 1730

CFR Citation: 12 CFR 561.15; 12 CFR 561.16c; 12 CFR 563.13; 12 CFR 563.17-2; 12 CFR 571.1a

Legal Deadline: None.

Abstract: The Bank Board is proposing to revise its present regulations governing the classification of assets of insured institutions. The proposed rule would ensure the use of broader, but judicious, examiner discretion in the classification of assets, consistent with the examination practices of the bank regulatory agencies. Specifically, the proposal employs the existing classification categories of Substandard, Doubtful and Loss, but significantly alters the consequences of the respective classifications with respect to both reserve requirements and minimum capital requirements. Assets classified substandard would no longer be treated as scheduled items, thus, twenty percent of substandard assets would not be included in calculating the contingency component of an insured institution's minimum regulatory capital requirement. Moreover, with respect to assets classified Doubtful, the Bank Board would no longer require institutions to establish specific allowances for loan losses. Abstract: The Board is proposing extensive revisions to its regulations governing the conservatorship and receivership of associations chartered by the Board or the accounts of which that are insured by the Federal Savings and Loan Insurance Corporation. The Board will unify the appointment of receiver procedures for state and federal institutions; adopt procedures

for appointment of receivers under section 406(c)(1)(B) of the National Housing Act; and address the priorities in liquidation and participation interests in liquidation, which are absent from or inadequately covered in the present regulations. The Board is also proposing that its regulations cover topics such as the effect of the receivership appointment on executory contracts, employment agreements, certain "Golden Parachute" agreements, participation agreements, repurchase agreements, and on agreements relating to secured and unsecured borrowings by an insured institution, including agreements providing for prepayment or default penalties. The proposed regulations provide for new rules of general applicability in the areas previously mentioned, clarify existing provisions, and reorganize and recodify all the (cont)

There are no alternatives being considered by the Board in lieu of the proposed regulation that would have less impact on small institutions, consistent with the intended result, than the concerns expressed in the supplementary information to the proposed rule and the existing statutory requirements concerning receiverships and conservatorships.

Abstract: The Bank Board proposes to amend its regulation pertaining to loans to one borrower in a number of ways, most significantly to reduce the amount of aggregate loans to one borrower that may be made by an institution the accounts of which are insured by the FSLIC. The proposal is intended to reduce risk to insured institutions and the FSLIC without depriving institutions of appropriate operational flexibility. To this end, the Board invites comment on all aspects of the proposal.

The Bank Board is soliciting comment on possible alternatives to the rule as proposed in addressing the concerns expressed above.

The potential costs and benefits of the proposed regulation on the industry have not been quantified.

The proposed rule would apply equally to all insured institutions.

Abstract: The Bank Board is proposing to amend its regulation setting the regulatory capital requirements for institutions insured by the Federal Savings and Loan Insurance Corporation by changing the method of computing the annual calculation of industry profits; by deleting the provision concerning the effect upon base liabilities of acquisitions and sales of less than substantially all of the liabilities of an insured institution (branch sales); and by amending the earnings-based accounts regulation to conform that regulation's provisions establishing regulatory capital thresholds to the current regulatory capital requirements. Legal Authority: 31 CFR 103; 12 USC 1464; 12 USC 1730; PL 99-570, Sec 1359; 31 USC 5311 to 5322

Legal Deadline: Statutory, April 27, 1987. Section 1359 of the Anti-Drug Abuse Act of 1986, Pub.L.No. 99-570, required establishment of a Bank Secrecy Act compliance program by April 27, 1987.

Abstract: The Bank Board is proposing to amend for purposes of clarification, its recently adopted regulation which requires insured institutions to establish and maintain procedures to assure and monitor compliance with the requirements of the Bank Secrecy Act ("BSA"), including the Currency and Foreign Transactions Reporting Act and the implementing regulations of the U.S. Department of the Treasury, 31 CFR Part 103. The proposed rule sets forth in greater detail the elements required to

be in a BSA compliance program, in particular, the requirements of BSA compliance testing and continuing education. The proposed rule would apply equally to all insured institutions.

The proposed rule for BSA compliance programs establishes a minimum system for verifying and encouraging compliance with the BSA in accordance with Congressional concern. Alternatively, the Bank Board could have required an in-depth audit of insured institutions' compliance by independent auditors. The Bank Board believes that such an alternative would have been less flexible and more restrictive for insured institutions. (cont)

Abstract: The Bank Board is proposing extensive revisions to its regulations regarding the corporate governance of Federal associations in order to update and clarify these regulations. Due to the magnitude of the revisions, the Bank Board has presented the proposal in parts, issued separately for public comment. The proposed regulations would reorganize portions of Subchapter C (the regulations for federally chartered associations) and amend and add sections to provide a more cohesive and complete body of rules for the corporate governance of Federal associations. Part I, previously proposed, would provide definitions and rules for the organization and incorporation of Federal associations. Part II, also previously proposed, would contain provisions regarding the corporate structure and governing processes for Federal stock associations and Federal mutual associations. Part III proposes revisions to the rules governing operations of and charter conversion from and to Federal associations. Abstract: The Bank Board proposed to amend its regulations regarding the disclosures and notices that lenders must give to borrowers concerning adjustable-rate mortgage ("ARM") home loans. The proposed rule would retain the Bank Board's current regulations concerning the timing for disclosures and continue to allow the use of the ARMs Handbook, but would require additional disclosure of specific information concerning the ARM program being offered to the consumer. The revision would clarify the Bank Board's regulation and would implement the uniform disclosure of ARMs recommended by the Federal Financial Institutions Examination Council on August 12, 1986. In addition, the proposal would consolidate and clarify existing Bank Board regulations on disclosures and notices for all loans. The proposed rule would apply equally to all insured institutions.

Legal Authority: Notice to Practitioners on ADC Loans, CPA Letter, Feb 10, 1986

CFR Citation: 12 CFR 571.17

Legal Deadline: None.

Abstract: The Bank Board proposed to amend its statement of accounting policy relating to acquisition, development and construction ("ADC") loans used by all institutions the accounts of which are insured by the Federal Savings and Loan Insurance Corporation ("FSLIC") or affiliates thereof when preparing reports or financial statements for filing with the Bank Board or the FSLIC. The amendments relate to the recent "Notice to Practitioners" issued by the American Institute of Certified Public Accountants, which superseded two prior notices issued in November 1983 and November 1984, and to the public position regarding the effective date of the recent notice taken by the Chief Accountant of the Securities and Exchange Commission. By proposing this amendment to its statement of policy, the Bank Board is adhering to its policy that insured institutions are expected to apply the guidance of the accounting profession for determining whether a transaction characterized as an ADC loan is in fact a loan or whether, in substance, it is a real estate investment or a joint venture. The proposed rule would apply equally to all insured institutions. (cont)

Legal Authority: 12 USC 1464; 12 USC 1727; 12 USC 1730

CFR Citation: 12 CFR 565

Legal Deadline: None.

Abstract: The Bank Board is reviewing a number of issues relating to the extent to which institutions insured by the Federal Savings and Loan Insurance Corporation ("FSLIC") that terminate their insured status in connection with transfers by operation of law must pay a final insurance premium to the FSLIC. As part of its review, the Bank Board is soliciting public comment to ascertain whether to issue a proposal in this area. On October 7, 1986, the Bank Board adopted a clarifying amendment to the definition of "transfers" set forth in its statement of policy regarding mergers and transfers of assets. (12 CFR 571.5(a)). However, as the clarification indicates, the interpretation did not specifically address the separate issues of whether an insured institution undertaking a transfer of assets and liabilities by operation of law in which the surviving entity is not FSLIC-insured must pay a final insurance premium to the FSLIC, and if so, the amount of such payment. The Bank Board has been reviewing this so-called "exit premium" issue on an ongoing basis and as yet has made no final determination with respect to this matter.

Legal Authority: 5 USC 553

CFR Citation: 12 CFR 522.72

Legal Deadline: None.

Abstract: The Bank Board is proposing to amend its regulations governing the indemnification of directors, officers, and employees of the Federal Home Loan Banks ("FHL Banks"). This amendment would clarify that expenses incurred by FHL Bank directors, officers, and employees in connection with litigation are to be reimbursed as they are incurred, but that, by majority vote of its board of directors, a FHL Bank could require repayment of expenses that it finds to have been beyond the scope of the Bank Board's indemnification regulation. The proposal applies only to directors, officers, and employees of the FHL Banks, none of which falls within the definition of a "small financial institution" given by the Small Business Administration.

There are no alternatives that would be less burdensome than the proposal in addressing the concerns expressed above.

Abstract: The Board proposes to amend its regulations to require that all financial statements issued by insured institutions, including statements of condition required pursuant to 12 CFR 545.115, and all financial reports filed with the Board shall be prepared in accordance with generally accepted accounting principles. The proposed rule would also substitute the term "regulatory capital" for "regulatory net worth" and would define "regulatory capital" to mean the sum of equity capital as determined in accordance with generally accepted accounting principles plus certain other items as determined appropriate by the Board based on risk analysis report. The Board believes that these actions will aid its supervisory efforts in evaluating the viability of insured institutions and the related risk to the Corporation.

Abstract: The Bank Board is adopting a clarifying amendment to its statement of policy regarding mergers and transfers of assets. The purpose of the amendment is to make clear the Bank Board's regulations governing transfers of assets, savings accounts, and other liabilities by institutions insured by the Federal Savings and Loan Insurance Corporation ("FSLIC") are applicable to all transfers in bulk not made in the ordinary course of business, including transfers by operation of law effected pursuant to charter conversions, mergers, consolidations, and other business combinations and reorganizations, in which an FSLIC-insured institution is not the surviving entity, and that, accordingly, application to and approval by the Bank Board are required for such transactions. The amendment is a slightly modified version of an interpretive rule adopted by the Bank Board in October, 1986. The Bank Board is issuing this clarification to resolve any uncertainty that may exist concerning the types of transfers that are subject to the Bank Board's regulations. The rule applies equally to all insured institutions. (cont)

Abstract: The Bank Board adopted this final rule to require regulated institutions to establish and maintain a program designed to assure and monitor compliance with the requirements of the Bank Secrecy Act and the implementing regulations promulgated thereunder by the Department of the Treasury. An institution's compliance program must, at a minimum, consist of a system of internal controls to assure ongoing compliance and provide for independent testing of compliance by the institution's personnel or by an outside party. Abstract: The Bank Board proposed comprehensive revisions to its regulations pertaining to insurance of accounts. The proposal would reorganize those regulations in order to clarify their operation, simplify and expedite the insurance settlement procedure, and limit potential abuses and evasions of the insurance coverage limitations. Experience with payment of insurance on accounts in defaulted institutions since the original April 1985 proposal has brought to the attention of the Bank Board issues not fully addressed by the proposed regulations. The Bank Board believes that the most appropriate way to address such issues is to develop revised proposed changes to the Insurance Regulations and seek comment on them. Development of such revised changes also would give the Bank Board an opportunity to work with the Federal Deposit Insurance Corporation in an effort to promulgate Insurance Regulations, which are uniform to the extent possible. Consequently, the Bank Board hereby withdraws the proposed revisions to its Insurance Regulations. The proposed rule would have applied equally to all insured institutions. (cont)

Abstract: The Bank Board proposes to amend its Federal Home Loan Bank System regulations to provide a method for determining appropriate Federal Home Loan Bank ("Bank") district membership for all institutions eligible to become Bank members. Under the amendment, an institution could become a member only in the Bank district in which it maintained its principal office, normally as shown in its charter, unless the Principal Supervisory Agent were to determine that membership was inconsistent with the actual location of control over the institution's records or operations. The amendment would eliminate an option that allows an institution to become a member of a Bank outside the district in which its home office is located by naming a state in which it does substantial business as its principal place of business in accordance with the provisions of 28 USC 1332(c). Institutions that have taken advantage of the current option could choose to be grandfathered, but would be immune from future application of a procedure for the mandatory transfer of membership established in the proposal. The proposed rule would

apply equally to all insured institutions. (cont)

CFR Citation: 12 CFR 563.9-8; 12 CFR 563.13; 12 CFR 563.13-2; 12 CFR 563.37; 12 CFR 563.38

Legal Deadline: None.

Abstract: The Bank Board amended its regulation concerning investment in equity securities, real estate, service corporations, and operating subsidiaries by institutions the accounts of which are insured by the Federal Savings and Loan Insurance Corporation. This amendment expands the scope of the current direct investment regulation to include land loans and nonresidential construction loans with loan-to-value ratios greater than 80 percent. This rule also amends the diversification requirement for investment in a single real estate project applicable under the direct investment rule. The amendment provides that no institution may invest, without prior supervisory approval, in any one real estate project an amount greater than its applicable aggregate loans-to-one-borrower limitation set forth in 12 CFR 563.9-3. Finally, the rule amends the Bank Board's regulatory capital regulation to require incremental capital of up to 10 percent for all equity risk investments including, in addition to direct investments, land loans and nonresidential construction loans with loan-to-value ratios greater than 80 percent. The rule would apply equally to all insured institutions. (cont)

FEDERAL MARITIME COMMISSION

46 CFR Ch. IV

Unified Regulatory Agenda

AGENCY: Federal Maritime Commission.

ACTION: Unified Agenda of Federal Regulations.

SUMMARY: Pursuant to section 5 of E.O. 12291 and the Regulatory Flexibility Act (5 U.S.C. 601 et seq.), the Commission anticipates having under consideration during the period from October 1, 1987 to September 30, 1988 actions in the areas listed below.

FOR FURTHER INFORMATION CONTACT: For further information concerning Commission rulemaking proceedings or the status of any matter listed below, contact: Joseph C. Polking, Secretary, 1100 L Street, NW., Washington, DC 20573, (202) 523-5725.

SUPPLEMENTARY INFORMATION: Section 602 of the Regulatory Flexibility Act (5 U.S.C. 602) requires the publication of an agenda of items for which regulatory agencies may propose or promulgate a rule which is likely to have a significant economic impact on a substantial number of small entities. Section 5 of Executive Order 12291 also requires executive agencies to publish a regulatory agenda; the Commission voluntarily complies with this section. The agendas include information on regulatory activities being conducted or reviewed during the succeeding 12 months by the Commission.

The following is the Commission's Unified Regulatory Agenda. The agenda does not necessarily include all petitions for rulemakings which are under staff review.

In addition, the Commission is publishing a compilation of the status of pending rulemaking proceedings and a listing of rules that have become final since the publication of the most recent regulatory agenda (April, 1987). This list will be made available to the press and interested groups.

Joseph C. Polking,

Secretary.

Semiannual Regulatory Agenda

FEDERAL RESERVE SYSTEM (FRS)

FEDERAL RESERVE SYSTEM

12 CFR Ch. II

Notice of Semiannual Regulatory Flexibility Agenda

AGENCY: Board of Governors of the Federal Reserve System.

ACTION: Semiannual agenda.

SUMMARY: The Board is issuing this Agenda under the Regulatory Flexibility Act and the Board's Statement of Policy Regarding Expanded Rulemaking Procedures. The Board anticipates having under consideration regulatory matters as indicated below during the period from October 1, 1987, through April 1, 1988. The next Semiannual Agenda will be published in April 1988.

DATE: Comments about the form or content of the Agenda may be submitted any time during the next six months.

ADDRESS: Comments should be addressed to William W. Wiles, Secretary of the Board, Board of Governors of the Federal Reserve System, Washington, DC 20551.

FOR FURTHER INFORMATION CONTACT: A staff contact for each item is indicated with the regulatory description below.

SUPPLEMENTARY INFORMATION: The Board is publishing its October 1987 Agenda as part of the October 1987 Unified Agenda of Federal Regulations, which is coordinated by the Office of Management and Budget under Executive Order 12291. Participation by the Board in the Unified Agenda is on a voluntary basis.

The Board's Agenda is divided into three sections. The first, Proposed Rule Stage, reports on matters the Board may consider for public comment during the next six months. The second section, Final Rule Stage, reports on matters that have been proposed and are under Board consideration. A third section, Completed Actions, reports on regulatory matters the Board has completed or is not expected to consider further.

A dot (●) preceding an entry indicates a new matter that was not a part of the Board's previous Agenda, and which the Board has not completed.

Barbara R. Lowrey,

Associate Secretary of the Board.

FEDERAL RESERVE SYSTEM (FRS)

Proposed Rule Stage

3769. REGULATION: E - ELECTRONIC FUND TRANSFERS

Legal Authority: 15 USC 1693 et seq Electronic Fund Transfer Act

CFR Citation: 12 CFR 205

Abstract: During the next six months, the Board will conduct a review of Regulation E, which implements the Electronic Fund Transfer Act, and establishes the basic rights, liabilities, and responsibilities of consumers who use electronic fund transfer services and of financial institutions that offer these services (whether or not these institutions hold the consumer's account). The review will consider whether any provisions of the regulation are in need of updating and whether any substantive changes are necessary because of technological developments. Public comment will be requested on any proposals that may be developed following the review. It is not anticipated that revisions would have significant impact on a substantial number of small banks.

3770. REGULATION: H - MEMBERSHIP OF STATE BANKING INSTITUTIONS IN THE FEDERAL RESERVE SYSTEM

Legal Authority: 12 USC 321

CFR Citation: 12 CFR 208.8(e)

Abstract: The Board will consider issuing for comment an amendment to Regulation H designed to provide a decrease of approximately 20,000 burden hours in paperwork, as requested by the Office of Management and Budget. The regulation would be amended to raise the exemption from various record-keeping requirements in Regulation H for securities transactions, conducted by banks, from 200 to 1,000 transactions per year for customers over the prior three-calendar-year period, exclusive of transactions in U.S. government and federal agency obligations. This action would diminish burdens on smaller state member banks; therefore, the amendment would have no adverse effect on small banks.

This issue will be presented to the Board upon promulgation by the Department of the Treasury of final regulations concerning government securities transactions.

3771. REGULATION: K - INTERNATIONAL BANKING OPERATIONS

Legal Authority: 12 USC 601 et seq

CFR Citation: 12 CFR 211

Abstract: The Board will consider an amendment to its regulation governing the establishment of foreign operating subsidiaries by member banks. The amendment would eliminate the requirement in section 211.3(b)(9) of Regulation K that a member bank's operating subsidiary be established only where required by local law or regulation. The revision is intended to promote the efficiency of member banks' foreign operations. Because the revision would remove a restriction, it is not anticipated that comment will be requested.

The proposal would not have a significant economic impact on a substantial number of small businesses because it affects only U.S. banks operating abroad.

3772. REGULATION: P - MINIMUM SECURITY DEVICES AND PROCEDURES FOR FEDERAL RESERVE BANKS AND STATE MEMBER BANKS

Legal Authority: 12 USC 1881 to 1884

CFR Citation: 12 CFR 216

Abstract: During the next six months, the Board will conduct a zero-based review of Regulation P, which implements the Bank Protection Act of 1968, and establishes minimum security standards for Federal Reserve banks and for state member banks. The review will consider whether any provisions of the regulation are outdated and whether any substantive changes are necessary because of new technological developments. The regulation will also be reorganized and revised for simplicity and clarity. Public comment will be requested following the zero-based review. It is not anticipated that the revised regulation will have a significant impact on a substantial number of small banks.

Legal Authority: 15 USC 78g Securities Exchange Act of 1934, as amended; 15 USC 78w Securities Exchange Act of 1934, as amended

CFR Citation: 12 CFR 220

Abstract: During the next six months the Board may consider proposing amendments to Regulation T to accommodate settlement and clearance of foreign securities in accounts covered by Regulation T. A request has been made that amendments be proposed because of the growing internationalization of the securities markets. It is not anticipated that any proposals in this area would affect a significant portion of the overall lending activities of a substantial number of small firms.

Legal Authority: 15 USC 78g Securities Exchange of 1934, as amended; 15 USC 78w Securities Exchange of 1934, as amended

CFR Citation: 12 CFR 220

Abstract: During 1987 the Board may review a proposal made by a broker-dealer to amend the definition of "OTC margin bond" in Regulation T. The purpose would be to permit marginability of foreign sovereign debt securities.

It is not anticipated that this proposal will affect a significant portion of the overall lending activities of a substantial number of small firms.

Legal Authority: 12 USC 1843 Bank Holding Company Act; 12 USC 1844(b) Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: A provision of Regulation Y permits a state bank subsidiary of a bank holding company to engage through a nonbank subsidiary in any activity that is permissible under state law for the bank subsidiary itself, subject to the same limits as if the bank engages in the activity directly. (A similar rule applies to national bank subsidiaries regarding activities permissible for such banks under federal law.) The Board received comments on this provision in connection with its general request for comments in May 1983 regarding the proposed revision of Regulation Y. Some of the commenters challenged the Board's authority to issue this provision, although it has been part of Regulation Y since 1971. In taking final action on the revision of Regulation Y, the Board deferred consideration of the comments on this provision and allowed the existing rule to remain in effect in the interim (49 FR 794, January 5, 1984).

The Board plans to review this provision of the regulation in the near future. A determination to reverse the rule could have an adverse impact on many small banks that are subsidiaries of holding companies because they might be required to (cont)

Legal Authority: PL 100-86 Competitive Banking Equality Act of 1987

CFR Citation: 12 CFR 226

Abstract: During the next month the Board will consider a proposed amendment to Regulation Z to implement Title XII, section 1204 of the Competitive Equality Banking Act of 1987. The law was enacted August 10,

1987 and will become effective December 8, 1987.

The proposed regulatory amendment implements the recently enacted law which requires creditors to include a maximum interest rate limitation on adjustable rate mortgage loans. It is not anticipated that the proposal would have a significant impact on a substantial number of small banks.

3777. REGULATION: D - RESERVE REQUIREMENTS OF DEPOSITORY INSTITUTIONS (DOCKET NUMBER: R-0571)

Legal Authority: 12 USC 248(k); 12 USC 461(a)

CFR Citation: 12 CFR 204

Abstract: In May 1986, the Board issued for comment rules to clarify the definition of "deposit" in Regulation D to include the interest or liability associated with a borrowing in the form of certain sales of assets and related transactions by a depository institution (51 FR 16855, May 7, 1986). These transactions include a sale of assets that involves a full guarantee by the institution that, in effect, substitutes the institution's credit standing for that of the ultimate borrower and in which the institution retains the risk of borrower default after the asset is sold.

Further, the regulation currently treats obligations of an affiliate as deposits of the depository institution to the extent the proceeds are provided to the depository institution. The Board proposes to exclude proceeds received from a sale of assets without recourse to the affiliate. The proposal also would clarify the application of Regulation D to certain of these transactions involving organizations effectively controlled by the depository institution even though not formally affiliated. Finally, the proposal would (CONT)

The proposed rule would apply to all depository institutions. It is not anticipated that the proposal will have a negative impact on the ability of small depository institutions to attract deposits.

The Board will review the comments and take further action within the next six months.

3778. ● REGULATION: F - SECURITIES OF STATE MEMBER BANKS (DOCKET NUMBER: R-0609)

Legal Authority: 15 USC 78g Securities Exchange of 1934

CFR Citation: 12 CFR 206

Abstract: In August 1987, the Board issued for comment a proposal to amend Regulation F to require publicly held state member banks to file information with the Board on the forms nonbanking entities use to file with the Securities and Exchange Commission ("SEC") (52 FR 30690, August 17, 1987). Pursuant to section 12(i) of the Securities Exchange Act of 1934, the Board is mandated to issue disclosure regulations that are substantially identical to the SEC's disclosure regulations under that Act, or to publish reasons why the Board's rules are not substantially identical to those of the SEC.

Adoption of the proposal is not expected to have a significant economic impact, since only 36 banks are presently subject to Regulation F. The proposal would impose an audit requirement upon state member banks subject to Regulation F, but this burden is minimal because 33 of the banks currently subject to Regulation F presently receive annual audits.

Legal Authority: 12 USC 611 et seq

CFR Citation: 12 CFR 211

Abstract: In August 1985, the Board published for comment proposed regulations that would restrict lending by an Edge Corporation to its affiliates where the Edge Corporation is not subject to the restrictions of section 23A of the Federal Reserve Act (12 USC 371c) because it is not owned by a U.S. insured bank (50 FR 35238, August 30, 1985). In taking this action, the Board noted the increasing number of owners

of Edge Corporations that are not subject to federal banking supervision and the potential adverse effects that might result from such affiliations, such as the impairment of the Edge's ability to act as an impartial arbiter of credit. The Board requested comment on the effect of the proposal on existing Edge Corporations, especially those owned by foreign banks and whether any exemptions from the restrictions are appropriate.

It is not expected that the proposal would have a significant economic impact on a substantial number of small businesses, because it applies only to organizations involved in international banking. (CONT)

Abstract: In January 1986, the Board issued for comment proposals to clarify, update, and simplify the advertising provisions of Regulation Q (51 FR 1379, January 13, 1986). The revisions incorporate and supersede the proposals of March 1984 concerning advertising of split-rate deposits and IRA/Keogh (HR 10) Plan accounts. The proposal is not expected to have a significant adverse effect on small banks.

The Board will review the comments and is expected to take further action within the next four months.

It is also anticipated that the Board will consider at that time various options with regard to providing written disclosures to consumers about their accounts.

Legal Authority: 15 USC 78g Securities Exchange of 1934, as amended; 15 USC 78w Securities Exchange of 1934, as amended

CFR Citation: 12 CFR 221

Abstract: In August 1987, the Board requested comment on a proposed amendment to Regulation U that would exempt banks making loans of $100,000 or under from the requirement that Form FR U-1 must be executed, and amend the form to reflect this change (52 FR 29701, August 11, 1987). The purpose is to reduce the paperwork burden associated with the preparation of Form FR U-1 which is currently required whenever a bank makes a loan secured by "margin stock."

It is anticipated that this proposal will reduce paperwork burden on small banks and, therefore, will have no adverse economic impact on a substantial number of small entities. The Board will review the public comments and is expected to take further action within the next two months.

Legal Authority: 12 USC 1841 et seq Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: In January 1985, the Board requested comment as to whether it should permit bank holding companies that own nonbank banks to provide them with internal administrative services and to establish management

interlocks with them (50 FR 2057, January 15, 1985). ("Nonbank banks" are institutions that are chartered as banks but either do not accept demand deposits or do not make commercial loans.) The Board took this action to resolve a number of questions that had been raised regarding the appropriate scope of relationships between nonbank banks and their affiliates. It is likely that any action the Board might take would primarily affect larger bank holding systems and would relax a requirement or prohibition. Therefore, it is expected that any Board action would not have a significant economic impact on a substantial number of small entities.

The Board suspended further consideration of nonbank bank applications by bank holding companies, pending a definitive resolution, through pending litigation, of the status of nonbank banks.

The proposed limits are designed to ensure that conduct of the activity does not result in unsafe or unsound practices, unfair competition, conflicts of interest or other adverse effects.

The Board requested public comment on a number of specific items, including whether real estate investment activities may be deemed to be closely related to banking and a proper incident thereto for purposes of section 4(c)(8) of the Bank Holding Company Act; whether the proposed limits on the size, scope and manner in which the activity would be conducted are appropriate; whether nonbank companies owned by holding company banks should be permitted or prohibited from conducting these activities; and whether the Board should establish special capital requirements for bank holding companies that control banks directly engaged in these activities.

Legal Authority: 12 USC 3907; 12 USC 3901 International Lending Supervision Act of 1983

CFR Citation: 12 CFR 225, Appendix A

Abstract: In January 1986, the Board proposed for comment and amendment to its Capital Guidelines that would provide for a supplemental adjusted capital measure designed to be more systematically and explicitly sensitive to the risk exposure of individual banking organizations. This measure would be based on a ratio of primary capital to total assets adjusted to account for certain types of risks, including many kinds of off-balance-sheet risk. On January 8, 1987, the Board voted to seek public comment on a revised risk-based capital proposal (52 FR 5119, February 19, 1987). This revised proposal represents an effort to coordinate the risk-based capital proposals of the three federal banking agencies with similar capital proposals of the Bank of England, and the proposal is based on a proposed United States/United Kingdom Capital Agreement. The revised proposal contemplates certain adjustments to the definition of capital as well as the placement of assets in certain broad risk categories. In March 1987, the Board sought public comment on an amendment to the risk-based capital proposal to incorporate credit risks on off-balance sheet interest rate and exchange rate (CONT)

Legal Authority: 15 USC 1604, as amended Truth in Lending Act

CFR Citation: 12 CFR 226

Abstract: Regulation Z currently requires that creditors provide information to consumers regarding variable rate features in credit transactions. Concern has been expressed in Congress and elsewhere about whether Truth in Lending disclosures adequately convey to consumers the terms and potential costs of adjustable rate mortgages (ARMs).

In November 1986, the Board proposed that creditors make more extensive disclosure of the variable rate feature in transactions secured by the consumer's home (51 FR 42241, November 24, 1986). The proposal would amend the regulation to require that creditors provide consumers general descriptive material about adjustable rate mortgages as well as provide a more detailed description of their variable rate feature along with an example showing the effect of historical changes in a creditor's index over a 15 year period on the payments and balance on a $10,000 loan. The maximum interest rate and payment under the creditor's program for a $10,000 loan would also be stated. Finally, the proposal would require annual notices of interest rate adjustments and prior notice of payment (CONT)

The Board is concerned about creditor burdens of compliance with the overlapping and duplicative disclosures in this area. This proposal was recommended to the Board and to the Federal Home Loan Bank Board (FHLBB) and the Comptroller of the Currency (OCC) in response to the concern for uniform federal ARMs disclosure regulations. The Board believes that adoption of the proposal by the Board (and by the FHLBB and OCC) will eliminate the present problem with inconsistent federal ARMs disclosure regulations.

If the Board adopts this proposal, mortgage creditors, including small businesses engaged in mortgage lending, could incur some costs in revising and reprinting forms, and changing certain procedures to comply with the requirement. Before any final action, the Board would consider appropriate actions to minimize the burdens and costs of compliance. Further Board action is expected within the next two months.

Legal Authority: 18 USC 215(d) Bank Bribery Amendments Act of 1985

CFR Citation: 00 CFR None

Abstract: As required by the Bank Bribery Amendments Act of 1985, the Board has proposed guidelines that encourage all state member banks and bank holding companies to adopt internal codes of conduct or written policies or amend their present codes of conduct or policies to describe the prohibitions contained in the Bank Bribery Act. The Bank Bribery Act prohibits anyone, including a financial institution's employees, officers, directors, agents or attorneys, from corruptly soliciting or accepting anything of value in connection with the business of the financial institution. The Board's proposed guidelines also identify situations that, in the opinion of the Board, may not constitute violations of the Bank Bribery Act. The Board seeks public comment on whether the establishment by the Board of specific dollar ranges of certain acceptable business entertainment and expenses would be appropriate. The proposed guidelines are not expected to have a significant impact on small banking entities. The Board will review the comments and is expected to take further action within the next two months.

Legal Authority: 12 USC 221 et seq

CFR Citation: 00 CFR None

Abstract: In December 1986, the Board requested comment on several proposals that would refine its policy statement on payment system risk (51 FR 45042, December 16, 1986). The proposals include a policy to reduce the risks associated with daylight overdrafts resulting from clearing trades in book-entry securities (R-0587), a proposal to reduce the levels of the sender net debit cap (R-0588), a proposal to reduce the burden on smaller institutions by adopting a "de minimis" cap category (R-0589), proposals regarding consolidation of affiliated institutions for purposes of monitoring compliance with the Board's program (R-0590), modifying automated clearing house transactions to reduce risk (R-0591), and various proposals to charge a fee for daylight overdrafts as a way of reducing risks associated with them (R-0592).

In July 1987, the Board after reviewing public comments, adopted an Interim Policy Statement on Payment System Risk that incorporated the proposals issued under Docket Nos. R-0587 through R-0590, as modified by the Board (52 FR 29255), August 6, 1987;

It is not expected that these proposals would have a significant economic impact on a substantial number of small entities, because small entities do not usually participate in large-dollar wire transfer systems. While small entities do participate in automated clearing houses, the Board's proposal in this area is primarily procedural, and not likely to have a significant economic impact on ACH participants.

Legal Authority: 15 USC 1693 et seq Electronic Fund Transfer Act

CFR Citation: 12 CFR 205

Abstract: In August 1986, the Board proposed for comment amendments to Regulation E. The proposal addressed the rules that apply when (1) a person that does not hold a consumer's account issues an access device to the consumer for initiating -- at point of sale, for example -- electronic fund transfers (EFTs) that are cleared through the automated clearing house system, and (2) there is no agreement between the service provider and the financial institution holding the consumer's account. Following the review of public comments and further analysis, the Board adopted a final rule on August 5, 1987. The amendments eliminate the requirement that a service provider issue a periodic statement to consumers, summarizing the POS/ACH transfers made, if the service provider: (1) issues a debit card for initiating POS/ACH transfers that bears its name plus an address or telephone number that the consumer can use to report errors and lost or stolen cards, (2) provides information to the account-holding institution so that the latter can describe the transactions in accordance with Regulation E, and (3) gives certain disclosures and extends the time available to (CONT)

The amendments take effect on November 15, 1987. To facilitate compliance for account-holding institutions, however, disclosure of the terminal location on periodic statements will not be required until July 1, 1990. Also, institutions with assets of $25 million or less will not have to comply with any periodic statement requirement applicable to these POS/ACH transfers until July 1, 1990.

The changes are expected to facilitate the development of point-of-sale EFT services without imposing substantial compliance costs on financial

The amendment would add a "mortgage related security" to the existing definition of "OTC margin bond." Following review of public comments, the Board approved the amendment on August 20, 1987.

It is not anticipated that this proposal will affect a significant portion of the overall lending activities of a substantial number of small firms.

3792. REGULATION: Y - BANK HOLDING COMPANIES AND CHANGE IN BANK CONTROL (DOCKET NUMBER: R-0572)

Legal Authority: 12 USC 1841 Bank Holding Company Act

CFR Citation: 12 CFR 225

Abstract: In May 1986, the Board requested comment on whether it should modify, eliminate, or retain the current restrictions it imposes on the operation by a bank holding company of a thrift institution in tandem with the holding company's other subsidiaries (51 FR 18797, May 22, 1986). These conditions were initially imposed after public comment and are designed to maintain the distinction and separation between thrifts and banks. The Board has received requests for relief from these conditions to permit thrifts acquired by bank holding companies to jointly market and sell products and services with other holding company affiliates, cross-advertise the services and products of affiliates, and conduct certain transactions with affiliates.

Few small banks and holding companies are subject to the conditions on tandem operations, and action in this area will not directly affect the operation of a significant number of small entities. However, the Board has requested comment on whether relief from the conditions will affect competition between (CONT)

3793. REGULATION: Y - BANK HOLDING COMPANIES AND CHANGE IN BANK CONTROL (DOCKET NUMBER: R-0595)

Legal Authority: 12 USC 1817(j)(13) Bank Holding Company Act

CFR Citation: 12 CFR 225.43

Abstract: In January 1987, the Board proposed amending Regulation Y to implement certain amendments to the Change in Bank Control Act ("CBCA") made by the Anti-Drug Abuse Act of 1986. Under this proposal, notificants under the CBCA would be required to publish an announcement of a proposed acquisition of shares of a bank or bank holding company in a newspaper of general circulation in communities where the bank or bank holding company to be acquired is located (52 FR 3447, February 4, 1987). The proposed regulation provides an exception to the publication requirement where disclosure would threaten the safety or soundness of the bank to be acquired.

As required by the Anti-Drug Abuse Act, the proposed regulation states that the Board shall conduct a background investigation of each notificant under the CBCA and shall make an independent determination of the accuracy and completeness of the information submitted. The Board may also extend processing of the notice under certain circumstances. The proposal is not expected to have a significant economic impact on a substantial number of small entities, and would have the benefit of (CONT)

Semiannual Regulatory Agenda

AGENCY: Federal Trade Commission.

ACTION: Semiannual regulatory agenda.

SUMMARY: The following agenda of Commission proceedings is published in accordance with section 22(d)(1) of Federal Trade Commission Act, 15 U.S.C. 57b-3(d)(1), and section 610(c) of the Regulatory Flexibility Act, 5 U.S.C. 610(c). Each projected event reflects the FTC staff's assessment of events that it expects will occur in the listed proceedings during the coming year. No Commission determination on the need for or the substance of a trade regulation rule or any other procedural option should be inferred from the projected events included in this agenda.

Several agenda items concern proceedings that may affect a substantial number of small businesses as that term is used in the Regulatory Flexibility Act. Whether any such proceeding will result in a rule which is likely to have a significant economic impact on such entities depends upon final Commission determinations on the need for and the substance of a trade regulation rule.

Except for notice of completed actions, the information in this agenda represents the judgment of Commission staff, based upon information now available. These views should not be regarded as a final staff position, nor should they be attributed to the Commission itself. The Commission will address the issues presented on the rulemaking record in the final consideration of each proceeding.

Agenda items include the projected timing of certain future actions. In most instances the dates of future events are listed by month, not a specific day. Further details may be obtained from the agency contact responsible for a particular proceeding. Discovery of new information, change of circumstances, or changes in the law may alter the information set forth in this agenda.

FOR FURTHER INFORMATION CONTACT: Further details may be obtained from the agency contact responsible for a particular proceeding.

By direction of the Commission.

3794. REVIEW OF THE FUNERAL INDUSTRY PRACTICES RULE

Legal Authority: 15 USC 45; 15 USC 46(g); 15 USC 57(a)

CFR Citation: 16 CFR 453

Abstract: The funeral industry practices rule, which became effective on April 30, 1984, seeks to increase consumer access to accurate information about prices and legal requirements prior to and at the time of purchase of funeral goods and services. The Rule: (1) requires funeral directors to provide consumers with itemized pre-sale disclosures; (2) prohibits misrepresentation of legal and cemetery requirements and the preservative or protective value of embalming, caskets, and vaults; (3) prohibits funeral directors from requiring a casket for cremations, or any other tie-in arrangements; (4) prohibits funeral directors from charging for goods and services not specifically ordered, such as embalming, unless required by law; and (5) requires funeral directors to give, on request, price information over the telephone. The Rule provides that no later than four years after its effective date, the Commission will begin a rulemaking to determine whether the Rule should be amended or terminated. The staff has begun investigating the current state of the industry to assess the impact of the Rule and to prepare for that proceeding.

3795. MAIL ORDER MERCHANDISE

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 435

Abstract: The Commission's rule concerning mail order merchandise was promulgated on October 22, 1975. The rule requires mail order sellers to possess a reasonable basis for any claims made concerning shipping date or, in the absence of any specifically stated date, to ship the ordered merchandise within thirty (30) days of receipt of an order. In the event of delays in shipment, the rule establishes notification procedures whereby buyers have the option either to agree to the delay or to cancel the order and receive a prompt refund. The Commission's rule is designed to address a number of significant consumer problems described on the record of the rulemaking proceeding, including failure to deliver ordered merchandise, unexplained delays in delivery, failure to make prompt (or any) refunds upon cancellation of an order, and inability to obtain responses to inquiries about pending orders. The rule enables consumers to obtain ordered merchandise within a reasonable time period or, if delays occur, to cancel the order and obtain a prompt refund, so that losses due to undelivered merchandise, delays, and inadequate or nonexistent refunds can be avoided. By subjecting sellers (cont)

Costs relating to the rule may include the cost of establishing a system for monitoring and recording orders, deliveries, delays, cancellations, consents to delays, and refunds; the costs of complying with the rule's notification requirements regarding delays (printing, postage, etc.); the cost of processing refunds; and additional inventory costs. Pursuant to Sec. 610 of the Regulatory Flexibility Act, the Commission has reviewed this rule and determined that it has not had a significant economic impact on a substantial number of small entities. In addition, the staff is considering whether the rule should be amended to cover orders placed by telephone or other electronic means. Whether changes to the rule will be proposed will not be determined until the staff's review has been completed.

3796. REVIEW OF CONTENT DISCLOSURE REQUIREMENTS FOR TEXTILE, WOOL, AND FUR PRODUCTS

Legal Authority: 15 USC 68b(d); 15 USC 70j; 15 USC 69f(b)

CFR Citation: 16 CFR 300, (Wool); 16 CFR 301, (Fur); 16 CFR 303, (Textile)

Abstract: The Wool Products Labeling Act of 1939 Requires all wool products to bear a label showing the percentage of wool, recycled wool, and non-wool fibers contained in the product and the name of the manufacturer or other distributor. The Textile Fiber Products Identification Act requires each household textile product to bear a label showing the percentage of each fiber contained in the product, using the appropriate generic name for the fiber, and the name of the manufacturer or distributor. Advertisements for textile products must also show the required information if any mention of fiber content is made. Both acts require disclosure of country of origin. The Fur Products Labeling Act requires that all furs and fur products be labeled, invoiced, and advertised to show the true name of the animal that produced the fur, whether the fur is used, dyed, or imported, and the name of the manufacturer or distributor. The three acts, as well as the Commission's rules implementing them, apply to manufacturers, distributors, and retailers of textile, wool, and fur products. (cont)

3797. INFORMAL DISPUTE SETTLEMENT PROCEDURES

Legal Authority: 15 USC 2309; 15 USC 2310(a)(2) Magnuson-Moss Warranty--FTC Improvements Act

CFR Citation: 16 CFR 703

Abstract: The Magnuson-Moss Warranty Act, enacted on January 4, 1975, requires that the Federal Trade Commission promulgate a rule prescribing the minimum requirements for any informal dispute settlement procedure which is incorporated into the terms of a written warranty subject to the Act. Because warrantors are not required to incorporate such procedures into warranties, the rule applies only to warrantors who choose to do so. The present rule sets forth detailed procedural, recordkeeping, and reporting requirements for dispute settlement mechanisms designed to insure their fairness. In accordance with Section 610 of the Regulatory Flexibility Act, The Commission began a review of the rule to examine whether the rule has had a significant economic impact on a substantial number of small entities and to assess whether any changes are needed. For that review, the Commission conducted a regulatory negotiation process in which an advisory committee was charged to recommend to the Commission revisions to the rule that would facilitate the Congressional (cont)

3798. OPHTHALMIC PRACTICE RULES

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 456, (Revision)

Abstract: The staff of the FTC's Bureau of Consumer Protection has identified several state and private restrictions on the delivery of eye care goods and services which may decrease consumer access to vision care services, increase the cost of those services, and impede the growth of alternative methods of organizing eye-care practices. The principal question the Commission is exploring is the impact of such restrictions on the price, quality and availability of vision care. The Commission's investigation has sought, through the development of empirical market research, to determine whether higher prices result from these restrictions and, if so, whether offsetting consumer benefits also result. The primary impact of a rule on small businesses could stem from the

increased competition in the vision care industry which can be anticipated as a result of deregulatory effect of the rule. Rule provisions removing certain restraints on commercial ophthalmic practice could enhance competition by permitting small entities (i.e., optometrists and opticians) to engage in alternate modes of practice; or to expand, should they desire to do so. The affirmative requirements of a rule could impose additional (cont)

In January, 1985 the Commission published an NPRM seeking public comment on a proposed trade regulation rule that would have the effect of superseding certain state-imposed restrictions on the forms of practice and other business aspects of the delivery of eye care to consumers. The public hearings have been completed. The Staff Report, summarizing the evidence and recommending that the Commission promulgate a rule, was completed in October 1986. The Presiding Officer's Report was published in November, 1986. Public comments have been received on these reports, after which the Commission may schedule an oral presentation by selected participants. 3799. AMENDMENT TO TRADE REGULATION RULE CONCERNING PRESERVATION OF CONSUMERS CLAIMS AND DEFENSES ("HOLDER-IN-DUE COURSE RULE")

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 433

Abstract: The objective of the proposed amendment is to ensure that a purchaser's duty to pay is not separated from sellers' duty to perform when consumer sales are financed by third party creditors or purchase money lenders. The original rule requires sellers to ensure that credit contracts used in consumer installment sales and purchase money loans contain a provision that makes any holder of the contract subject to all legal claims and defenses related to the sale transaction which the buyer may have against the seller. The proposed amendment would extend to creditors the obligation to ensure that credit contracts contain the required provision. Benefits from the proposed amendments may include improvement in the retail market due to increased scrutiny by creditors of the sellers with whom they do business and availability to consumers of additional claims and defenses against creditors. Some creditors may have increased costs associated with screening contracts and monitoring the reputations of retailers with whom they deal. Alternatives considered by the Commission include: rejection of the amendment; postponement of decision pending additional information on (cont)

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 438, (New)

Abstract: In 1979, the Second Circuit Court of Appeals set aside the rule as originally issued by the Commission, citing problems with some of the remedies that the rule provided to purchasers of proprietary vocational training. The Staff has prepared recommendations as to how the Commission should respond to the Court's decision. Alternatives under consideration include a rule that would give schools the option of providing either a strict pro rata refund remedy or a track record disclosure, a rule requiring some refunds but not on a strict pro rata basis, and a rule with no refund requirements at all. Alternatives to rulemaking include case-by-case enforcement, and FTC intervention before other state and federal agencies having jurisdiction over vocational schools to prevent deceptive practices. The rule may benefit consumers by enabling them to avoid expenditures on inappropriate courses and increasing the effectiveness of the vocational school industry in training and placing people in productive jobs. The cooling-off, track record disclosures, and refund components of the rule variations under consideration would impose real social costs on schools covered (cont)

3801. COOLING-OFF PERIOD FOR DOOR-TO-DOOR SALES

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 429

Abstract: The rule states that sellers of consumer goods or services with a purchase price of $25.00 or more who sell away from their place of business must furnish to the buyer certain information regarding the buyer's right to cancel sales within three business days and must give the buyer a full refund of any down payment upon the buyer's cancellation. The rule requires a seller to furnish the buyer with a complete receipt or copy of a contract, along with a notice informing the buyer of the right to cancel the transaction, and to furnish the buyer with a completed Notice of Cancellation. The rule is intended to benefit consumers by permitting them to reflect on their purchase and the terms of any contract, to compare the purchase with offerings of other sellers, and to ascertain the accuracy of any representations made. The resulting costs to sellers include the costs associated with cancellation (processing cancelled orders, returning downpayments, retrieving delivered goods, and returning traded-in merchandise) and the additional cost of printing the required cancellation notices. Legal Authority: 15 USC 18a Clayton Act

CFR Citation: 16 CFR 801; 16 CFR 802; 16 CFR 803; 16 CFR 803, (Apendix)

Abstract: The Premerger Notification Rules and the Antitrust Improvements Act Notification and Report Form were adopted pursuant to Section 7A of the Clayton Act. Section 7A requires firms of a certain size contemplating mergers or acquisitions of a specified size to file notification with the Federal Trade Commission (FTC) and the Department of Justice (DOJ) and to wait a designated period before consummating the transaction. It also requires the FTC, with the concurrence of the Assistant Attorney General for Antitrust, to promulgate rules requiring that notification be in a form and contain information necessary to enable the FTC and DOJ to determine whether the proposed acquisition may, if

consummated, violate the antitrust laws. These rules are continually reviewed in order to improve the program's effectiveness and reduce the paperwork burden on the business community. In February 1987, the Commission promulgated nine amendments, most of which were designed to reduce the burden of notification. In May 1987, the Commission promulgated an amendment to require that acquisitions by partnerships be reported by persons controlling the partnerships. (cont)

Legal Authority: 15 USC 45 Federal Trade Commission Act; 15 USC 57(a) Federal Trade Commission Act

CFR Citation: 16 CFR 419

Abstract: The Commission's trade regulation rule concerning games of chance became effective on October 17, 1969. The rule establishes requirements for food and gasoline retailers in conducting and advertising games of chance by requiring disclosure of odds-of-winning and prize information in broadcast and print advertisements, as well as in point of sale information. In January, 1983, the Commission granted a temporary partial exemption to allow supermarkets and gas stations to advertise their games on radio and television without disclosing full information on prizes and odds-of-winning. In addition, the Commission also published an advance notice of proposed rulemaking on whether to make the broadcast exemption permanent. Finally, the Commission has proposed to reduce the recordkeeping requirements of the rule from three years to one year in keeping with the goals of the Paperwork Reduction Act, and requested public comment on other possible areas where amendments to the rule may be appropriate. The rule benefits consumers by allowing contestants to enter games of chance with full knowledge of all material information to enable equal competition for (cont)

3804. RETAIL FOOD STORE ADVERTISING AND MARKETING PRACTICES

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 424

Abstract: The Commission's Rule on Retail Food Store Advertising and Marketing Practices states that it is a violation of Section 5 of the Federal Trade Commission Act for grocery stores to advertise products at a particular price unless such products are in stock and conspicuously and readily available for sale at the advertised price during the effective period of the advertisement. If a store runs out of advertised products, it is in violation of the rule even if the store noted the limitations on availability in its advertisement and even if the store provides rainchecks or substitute items. The rule is intended to benefit consumers by ensuring that advertised items are available, that advertising-induced purchasing trips are not fruitless, and that store prices accurately reflect the prices appearing in the ads. The rule may cause costs to be incurred in maintaining sufficient inventory to meet anticipated demand, and costs associated with the monitoring of price changes, changing marked prices, training employees to comply with the rule and keeping records to prove compliance. Additional Information: ABSTRACT CONT: The rule may also discourage the advertising of certain kinds of products, such as perishables or goods that are available to the store only in limited supply. The staff concluded from a careful review of the rule's effects that the costs the rule imposes on consumers in the form of higher grocery prices significantly exceeds its benefits. Consequently, staff recommended that the rule be modified so that a store could comply with the rule by clearly and adequately disclosing in its advertisements that there are limitations on availability, or by offering rainchecks or substitute items if supplies run out. The staff concluded that modifying the rule in this way will maintain any benefits it provides to consumers while substantially reducing its costs. The Commission published an NPRM in October, 1985. The hearings have been completed, and the Staff Report published. The staff has sent its recommendations to the Commission for its consideration.

3805. APPLIANCE LABELING RULE -- ENERGY POLICY AND CONSERVATION ACT

Legal Authority: 42 USC 6294 National Energy Conservation Policy Act; PL 94-163 Energy Policy and Conservation Act, Sec 324, 1975

CFR Citation: 16 CFR 305

Abstract: The Energy Policy and Conservation Act (EPCA) required the Commission to consider labeling rules for the disclosure of energy information, based on standard test procedures prescribed by the Department of Energy, for at least 13 categories of major household appliances. The Commission adopted a labeling rule for seven appliance categories: (1) refrigerators and refrigerator- freezers; (2) freezers; (3) dishwashers; (4) clothes washers; (5) water heaters; (6) room air conditioners; and (7) furnaces. The Commission exempted five other categories of appliances. Following DOE's adoption of final test procedures for central air conditioners (and heat pumps), the Commission initiated a rulemaking to consider including these products. The Commission is also considering including two new types of furnaces in the rule's current coverage of furnaces.

The rule mandates that specific energy costs or efficiency information for covered products be disclosed in catalogs and on a label (fact sheets are required for furnaces). The label must include a highlighted energy cost or efficiency disclosure, a range indicating the highest and lowest energy costs or (cont)

Additional Information: ABSTRACT CONT: efficiencies for all similar appliance models, and a chart that permits an individual to estimate how much it will cost to run the appliance each year based on local utility rates. The primary purpose of the rule is to permit consumers to compare the energy usage of competing appliances and to weigh that information along with other product features.

Since the Commission's rule implements the statutory directives in EPCA, most of the costs imposed on industry members may not be attributable to the rule. The rule applies mainly to manufacturers of household appliances, but does impose some burdens on distributors and retailers. Some of these entities may be small businesses pursuant to Section 610 of the Regulatory Flexibility Act. Therefore, the Commission has begun a review of the rule to determine whether the rule has had a significant economic impact on a substantial number of small entities and, if so, whether the rule should be amended. As a result of this review, several amendments will be proposed for Commission consideration.

3806. FRANCHISING AND BUSINESS OPPORTUNITIES

Legal Authority: 15 USC 41 et seq Federal Trade Commission Act

CFR Citation: 16 CFR 436

Abstract: The franchise trade regulation rule was adopted in response to evidence of deceptive and unfair practices in connection with the sale of the types of businesses covered by the rule. In some instances prospective franchisees lack a ready means of obtaining essential and reliable information about their proposed business investment. This lack of

information reduces the ability of prospective franchisees either to make an informed investment decision or otherwise verify the representations of the business' salespersons. The rule attempts to deal with these problems by requiring franchisors and franchise brokers to furnish prospective franchisees with information about the franchisor, the franchise business and the terms of the franchise agreement. Franchisors and franchise brokers must furnish additional information if they have made any claim about actual or potential earnings, either to the prospective franchisee or in the media. All disclosures must be made (i) before any sale is made and (ii) by means of disclosure documents whose form and content are set forth in the rule. The rule requires disclosure of (cont)

INTERSTATE COMMERCE COMMISSION (ICC)

INTERSTATE COMMERCE COMMISSION

49 CFR Ch. X

[Ex Parte No. 420 (Sub-No. 13)]

Semiannual Regulatory Agenda

AGENCY: Interstate Commerce Commission.

ACTION: Notice of semiannual regulatory agenda to be part of a Unified Agenda of Federal Regulations.

SUMMARY: Pursuant to OMB Bulletin No. 87-16, issued under section 6(b) of E.O. 12291 to implement the provisions of section 5 of the Executive Order concerning Regulatory Agendas, the Commission is publishing an agenda of (1) current and projected rulemakings, and (2) existing regulations being reviewed to determine whether to propose modifications through rulemaking. Listed below are the regulatory actions to be developed or reviewed during the next 12 months. Following each rule identified is a brief description of the rule including its purpose and legal basis.

FOR FURTHER INFORMATION CONTACT: A contact person is identified for each of the rules listed below.

SUPPLEMENTARY INFORMATION: A list of proceedings appears below containing information about subject areas in which the Commission is currently conducting rulemaking proceedings or may institute such proceedings in the near future. It also contains information about existing regulations being reviewed to determine whether to propose modifications through rulemaking.

The agenda also identifies regulations likely to have a significant economic impact on a substantial number of "small entities." Accordingly, this information will satisfy the requirements of section 602 of the Regulatory Flexibility Act, 5 U.S.C. 602.

Finally, this agenda will comprise part of a Unified Agenda of Federal Regulations compiled by the Office of Management and Budget which is to be published in a single issue of the **Federal Register** in October 1987. The purpose of the Unified Agenda is to provide the public with more comprehensive documentation of the Federal government's current regulatory plans, and to provide a systematic means of monitoring regulatory activity in each agency.

This notice is issued pursuant to 49 U.S.C. 10321 and 5 U.S.C. 553.

Decided: August 11, 1987.

By the Commission, Chairman Gradison, Vice Chairman Lamboley, Commissioners Sterrett, Andre, and Simmons.

Noreta R. McGee,

Secretary.

Legal Authority: 49 USC 10505

CFR Citation: 49 CFR 1039

Legal Deadline: None.

Abstract: 49 USC 10505 requires that the Commission exempt from regulation the movement by rail of traffic for which it finds continued regulation no longer necessary to serve the Nation's transportation policy objectives and to protect shippers from abuse of market power by the railroads. In examining the transportation characteristics and markets of various commodities moving by rail, there appear to be many products for which sufficient competition exists among transportation alternatives so that regulation may no longer be necessary. Exemption of such commodities should provide increased rate and service flexibility for railroads to meet shippers' needs and to compete more effectively for the subject traffic. Anticipated benefits include lower rates and improved service, at a possible "cost" of increased price instability and competition to alternative transport firms.

Semiannual Regulatory Agenda

NATIONAL CREDIT UNION ADMINISTRATION (NCUA)

NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Ch. VII

Semiannual Agenda of Regulations

AGENCY: National Credit Union Administration (NCUA).

ACTION: Semiannual agenda of regulations.

SUMMARY: Pursuant to its ongoing policy of reviewing regulations, NCUA is publishing a list of current and projected rulemaking, reviews of existing regulations, and completed actions as of June 30, 1987. NCUA will also include this agenda in the "Unified Agenda of Federal Regulations."

DATE: This information is current as of June 30, 1987.

ADDRESS: National Credit Union Administration, 1776 G Street, NW., Washington, DC 20456.

FOR FURTHER INFORMATION CONTACT: On a particular regulation, contact the person(s) named in the listing for that regulation at the above address.

SUPPLEMENTARY INFORMATION: The purpose of this agenda is to enable credit unions and the public to track regulatory development and review at NCUA and to enable interested parties to more effectively participate in that process. The agenda is divided into three parts describing, respectively, (1) actions completed since the last agenda; (2) current rulemaking proceedings and regulatory reviews; and (3) projected rulemaking and reviews. Interpretive Rulings and Policy Statements (IRPS) and Guidelines promulgated by NCUA are also included in the agenda.

The agenda is published pursuant to NCUA's statement of policy concerning development and review of regulations (IRPS 81-4, 46 FR 2948). The Regulatory Flexibility Act (5 U.S.C. 601, et seq.) does not require independent executive agencies to publish the agenda. NCUA, as an independent executive agency, will voluntarily include this agenda in the Office of Management and Budget's next publication of its "Unified Agenda of Federal Regulations." The NCUA Board believes that participation in this joint publication will further the public interest by including NCUA in a single source of information concerning current and projected rulemaking and reviews of existing regulations.

Approved by the NCUA Board this 15th day of July, 1987.

Becky Baker,

Secretary of the Board.

Semiannual Regulatory Agenda

NUCLEAR REGULATORY COMMISSION (NRC)

NUCLEAR REGULATORY COMMISSION

10 CFR Ch. I

Regulatory Agenda

AGENCY: Nuclear Regulatory Commission.

ACTION: Semiannual publication of NRC regulatory agenda.

SUMMARY: The Nuclear Regulatory Commission (NRC) is publishing its semiannual Regulatory Agenda in accordance with Pub. L. 96-354, "the Regulatory Flexibility Act," and Executive Order 12291, "Federal Regulations." The agenda is a compilation of all rules on which the NRC has recently completed action or has proposed, or is considering action. This issuance updates any action occurring on rules since publication of the last semiannual agenda on April 27, 1987.

ADDRESSES: Comments on any rule in the agenda may be sent to the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Attention: Docketing and Service Branch. Comments may also be hand delivered to Room 1131, 1717 H Street, NW., Washington, DC, between 8:15 a.m. and 5:15 p.m. Comments received on rules for which the comment period has closed will be considered if it is practical to do so, but assurance of consideration cannot be given except as to comments received on or before the closure dates specified in the agenda.

The agenda and any comments received on any rule listed in the agenda are available for public inspection, and copying at a cost of five cents per page, at the Nuclear Regulatory Commission's Public Document Room, 1717 H Street, NW., Washington, DC 20555.

FOR FURTHER INFORMATION CONTACT: For further information concerning NRC rulemaking procedures or the status of any rule listed in this agenda, contact David L. Meyer, Chief, Rules and Procedures Branch, Division of Rules and Records, Office of Administration and Resources Management, U.S. Nuclear Regulatory Commission, Washington, DC 20555, Telephone (301) 492-7086. Persons outside the Washington, DC metropolitan area may call toll-free: (800) 368-5642. For further information on the substantive content of any rule listed in the agenda, contact the individual listed under the heading "Agency Contact" for that rule.

SUPPLEMENTARY INFORMATION: Although publication of the agenda is only required semiannually in April and October, the NRC has chosen to update and publish its agenda each quarter. However, the information contained in this semiannual publication is updated to reflect any action which has occurred on rules since publication of the last NRC semiannual agenda on April 27, 1987.

Organization of the Agenda

Rules in this agenda are divided into four groups: (1) The Prerule Stage, which includes all rules which will be published in the **Federal Register** as advance notices of proposed rulemaking, (2) the Proposed Rule Stage, which includes all unpublished rules and published advance notices of proposed rulemaking on which the NRC expects to take action, (3) Final Rule Stage, which includes all rules which have been published in the **Federal Register** as proposed rules and on which the NRC plans to take final action, and (4) Completed Actions, which include all rules which have been finally promulgated or withdrawn since publication of the last semiannual agenda.

Within each group, the rules are ordered from lowest to highest 10 CFR part, and when more than one rule appears under the same part, the rules are arranged within the part according to the date of most recent publication. If a rule contains changes to more than one 10 CFR part, the rule is listed under the lowest affected part.

The information in this agenda has been updated through August 31, 1987. The date included under the heading "timetable," for next scheduled action indicates the date the rule is scheduled to be published in the **Federal Register**. The date is considered tentative and is not binding on the Commission or its staff. This Regulatory Agenda is intended to provide increased notice and opportunity for public participation in the NRC rulemaking process. The NRC may, however, consider or act on any rulemaking even if it is not included in the Regulatory Agenda.

The NRC agenda lists 67 rulemaking actions. Of these, no rulemaking item is considered to be priority or major as defined in section 1(b) of Executive Order 12291.

Dated at Bethesda, Maryland this 21st day of August 1987.

For the Nuclear Regulatory Commission.

Donnie H. Grimsley,

Director, Division of Rules and Records, Office of Administration and Resources Management.

NUCLEAR REGULATORY COMMISSION (NRC) — Prerule Stage

3856. RADIOACTIVE WASTE BELOW REGULATORY CONCERN; GENERIC RULEMAKING

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 2; 10 CFR 20

Abstract: The advance notice of proposed rulemaking seeks comments on a proposal to amend NRC regulations to address disposal of radioactive wastes that contain sufficiently low quantities of radionuclides that their disposal does not need to be regulated. The NRC has already published a policy statement providing guidance for filing petitions for rulemaking to exempt individual waste streams (August 29, 1986; 51 FR 30839). It is believed that generic rulemaking could provide a more efficient means of dealing with disposal of wastes below regulatory concern. This rule would supplement the policy statement which was a response to Section 10 of the Low-Level Radioactive Waste Policy Amendments Act of 1985 (Pub. L. 99-240). The public will be asked to comment on 14 questions.The ANPRM requests public comment on several alternative approaches the NRC could take. Public comment will help to determine whether and how NRC should proceed on the matter.

NUCLEAR REGULATORY COMMISSION (NRC)

Proposed Rule Stage

3857. REVISED RULES OF PRACTICE FOR DOMESTIC LICENSING PROCEEDINGS

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 2241; 42 USC 5841; 5 USC 552

CFR Citation: 10 CFR 0; 10 CFR 1; 10 CFR 2; 10 CFR 9; 10 CFR 50

Abstract: The Nuclear Regulatory Commission has deferred further consideration of this proposal which would have revised the Commissions's procedural rules governing the conduct of all adjudicatory proceedings, with the exception of export licensing proceedings. The proposed rule would comprehensively restate current practice , retitle the hearing office, and revise and reorganize the Commission's procedural rules. The changes in this proposed rule would enable the Commission to render decisions in a more timely fashion and reduce the burden and expense to the parties participating in the proceedings.

3858. AVAILABILITY OF OFFICIAL RECORDS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The proposed amendment would conform the NRC's regulations pertaining to the availability of official records to existing case law and agency practice. The amendment would reaffirm that the terms of 10 CFR 2.790 (c) provide submitters of information a qualified right to have their information returned upon request. This amendment informs the public of three exceptions to the right to withdraw pursuant to 10 CFR 2.790 (c) of the NRC's regulations, i.e., information submitted in a rulemaking proceeding that subsequently forms the basis for the final rule, information which has been made available to an advisory committee or was received at an advisory committee meeting, and information that is subject to a pending Freedom of Information Act request.

3859. NEGOTIATED RULEMAKING ON THE SUBMISSION AND MANAGEMENT OF RECORDS AND DOCUMENTS RELATED TO THE LICENSING OF A GEOLOGIC REPOSITORY FOR THE DISPOSAL OF HIGH LEVEL WASTE

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 2

Abstract: The Nuclear Waste Policy Act (NWPA) provides three years for the NRC to reach a decision on construction authorization for a high level waste repository. In order for the NRC to be able to make its decision within the allotted time, ready access to all pertinent records must be assured to all parties in the licensing proceeding. The DOE has committed to develop an electronic information management system to be used for the licensing proceeding. The NRC staff intends to use the process of negotiated rulemaking to develop a proposed rule that would revise the Commission's discovery procedure and motion practice in 10 CFR Part 2 for the high level waste licensing proceeding.

This rule would require the DOE license application and all supporting records to be provided in a standardized electronic format. All parties to the licensing proceeding would be required to submit all relevant data to this system. In turn all parties would have access to the data base. The NRC published a Notice of Intent on December 18, 1987 which announced the agency's intent to publish this rule.

3860. RETENTION PERIODS FOR RECORDS

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 4; 10 CFR 11; 10 CFR 21; 10 CFR 25; 10 CFR 30; 10 CFR 31; 10 CFR 32; 10 CFR 34; 10 CFR 35; 10 CFR 40; 10 CFR 50; 10 CFR 60; 10 CFR 61; 10 CFR 70; 10 CFR 71; ...

Abstract: This proposed rule would establish a specific retention period for certain NRC-required records. It would also provide a uniform standard acceptable to the NRC for the condition of a record throughout a specified retention period. Further, the rule would establish throughout NRC regulations, with some exceptions, uniform retention periods of three years, five years, ten years, and the life of a license. This rule would bring NRC regulations into compliance with the Office of Management and Budget's (OMB) regulation (5 CFR 1320.6) that requires a specified retention period for each required record. It also implements NRC's 1982 commitment to OMB to establish a record retention period of determinable length for each required record.

Amending twenty one parts of NRC regulations to specify clearly what records to retain, how long to retain them, and the condition of a record useful for NRC inspection, will be mutually beneficial to applicants and licensees and to the NRC.

Recordkeeping labor for NRC's approximately 6,700 licensees who would be affected by the rule can be divided into four functions: (1) preparing the report, (2) storing the report, (3)

The principal savings to the licensee, dispersed over the period licensed,

would be in physical storage space and associated storage equipment and materials. The burden of recordkeeping would be reduced approximately 10 percent annually for these licensees by the proposed rule. An estimated 466,323 hours associated with recordkeeping or $28,000,000 annually would be saved. Preparing and publishing this rule would cost NRC approximately 3000 hours of staff time at $60 per hour for an estimated total of $180,000

3861. ● DELETION OF PART 11 REQUIREMENTS FOR RENEWAL OF "R" CLEARANCES

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 11

Abstract: The current regulations require licensees to renew "R" clearances every 5 years. This level of clearance corresponds to the "L" clearances used by NRC and DOE which do not require renewal. Because of this equivalence, the renewal requirement for the"R" level licensee clearance is deemed unnecessary. This rulemaking would delete that requirement from Part 11.

3862. ● DISPOSAL OF LOW-LEVEL RADIOACTIVELY CONTAMINATED WASTE OIL FROM NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2201; 42 USC 2167; 42 USC 2073

CFR Citation: 10 CFR 20

Abstract: The proposed rule, which is being initiated in partial response to a petition filed by Edison Electric Institute and Utility Nuclear Waste Management Group (PRM-20-15, dated July 31, 1984), would amend NRC regulations to allow onsite incineration of waste oil at nuclear power plants subject to specified conditions. Currently, the only approved disposal method for low-level, radioactively contaminated waste oil from nuclear power plants involves absorption or solidification, transportation to, and burial at a licensed disposal site. There is a clear need to allow, for very low activity level wastes, the use of alternative disposal methods which are most cost effective from a radiological health and safety standpoint and which conserve the limited disposal capacity of low-level waste burial sites.

Increased savings to both the public and the industry could thereby be achieved without imposing additional risk to the public health and safety. There would be, in a mature reactor economy, an estimated industry-wide economic savings of approximately $5 million to $18 million per year if such a rule

Alternatives to this rulemaking action are to maintain the status quo or to wait until the Environmental Protection Agency develops standards on acceptable levels of radioactivity which may be releases to the environment on an unrestricted basis. 3863. + RESIDUAL RADIOACTIVE CONTAMINATION LIMITS FOR DECOMMISSIONING

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 20

Abstract: The proposed rule would establish residual radioactive contamination limits (including induced and other volumetric radioactivity as well as removable and fixed surface contamination) which must be met before structures and lands can be released on an unrestricted, unregulated basis. Structures and lands with residual radioactive contamination below these limits would be eligible for unrestricted release without regulatory restrictions from a radioactivity standpoint.

The proposed amendments are necessary to provide licensees with quantitative criteria to use during decommissioning relative to cleanup of structures and lands intended to ensure that structures and lands used in NRC licensed facilities and activities will be decontaminated in a manner that adequately protects public health before being released on an unrestricted, unregulated basis.

Alternatives to rulemaking would be continues reliance on the issuance of criteria as guidance. However, the criteria are currently incomplete, decisions on implementation and compliance are often required on a case-by-case basis, and criteria issued

Additional Information: ABSTRACT CONT: by guidance may not be enforced in the manner of legally binding regulations. The proposed rule would relieve the administrative burden on NRC and licensee while providing a consistent and enforceable basis for agency action. NRC resource requirements are approximately 2 staff-years and a $237,000 research contract. Staff is participating in an EPA organized interagency working group developing Federal guidance on this subject.

3864. + PROPOSED REVISIONS TO THE CRITERIA AND PROCEDURES FOR THE REPORTING OF DEFECTS AND NONCOMPLIANCE

Legal Authority: 42 USC 2201; 42 USC 2282; 42 USC 5841; 42 USC 5846

CFR Citation: 10 CFR 21; 10 CFR 50

Abstract: This proposed rule would amend Part 21 and sec. 50.55(e), both of which require the reporting of safety defects by licensees. In addition, Part 21 requires reporting by non-licensees. This proposed amendment was prompted by TMI Action Plan Task II, J.4, and NRC staff experience with Part 21 and section 50.55 (e) reporting. The main objectives of the rulemaking effort are: (1) elimination of duplicate evaluation and reporting of safety defects; (2) consistent threshold for safety defect reporting in Part 21 and section 50.55(e); (3) establishment of consistent and uniform content of reporting under Part 21 and section 50.55 (e) and (4) establishment of time limits within which a defect must be evaluated and reported.

Approximately 500 reports are submitted to the Commission annually under Part 21. Approximately 1500 reports are submitted to the Commission annually under section 50.55 (e). These reports identify both plant-specific and generic safety for further NRC regulatory action. Under current rules, these reports have formed the basis for NRC issuance of numerous NRC information notices and bulletins. (cont)

Additional Information: ABSTRACT CONT:

Alternatives to this rulemaking approach which were considered, varied from establishment of a single rule for all reporting of safety defects and operating reactors events to maintaining status quo for defect reporting. All alternatives were rejected since they would not substantially improve the current safety defect reporting situation.

Current costs of reporting under Part 21 and section 50.55 (e) are estimated at $10.08 million annually for industry and 1.74 million annually for NRC evaluations. It is anticipated that the industry reporting burden should be reduced by $1.93 million; while NRC burden should remain the same. Additional industry burden, though minimal, is anticipated in the area of reissuing procedures for reporting and record keeping.

The Commission disapproved this proposed rule on 10/20/86 and provided direction to the staff to revise the proposed rulemaking.

3865. ● + FEE SCHEDULE CHANGE FOR NRC "U" AND "Q" ACCESS AUTHORIZATIONS

Legal Authority: 42 USC 2201; 42 USC 2273; 42 USC 5841

CFR Citation: 10 CFR 11; 10 CFR 25

Abstract: The final rule would increase the fees for NRC "U" or "Q" access authorizations charged to NRC licensees and others applying for access authorizations which require full field background investigations.

The final amendment is in response to the Office of Personnel Management's notification of an increase in cost to conduct background investigations. There are no reasonable alternatives to rulemaking for implementing the increased rates. This rule will have a negligible effect on the general public. NRC resources required for processing this rule through final production are estimated to be 50 staff hours.

3866. + SAFETY REQUIREMENTS FOR INDUSTRIAL RADIOGRAPHIC EXPOSURE DEVICES

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2232; 42 USC 2233

CFR Citation: 10 CFR 34

Abstract: The proposed rule would amend the present regulations to establish performance standards for industrial radiography exposure devices. Overexposures of radiographers (and occasionally the general public) are more than double that of other radiation workers and have been a concern to the NRC for some time. Approximately 25-35% of the radiography overexposures are associated with equipment malfunction. The issue of safety requirements for these devices is a primary concern since the devices use relatively high intensity, high energy gamma-ray emitting sources with the potential for serious overexposures. Although a consensus standard for radiographic exposure devices was published in 1981, (American National Standard. N432) it is not clear that all manufacturers are adopting the standard.

The alternatives considered were to (1) take no action at this time, (2) amend the regulations to require performance standards for radiographic devices plus a requirement for radiographers to wear alarm dosimeters and simultaneously issue a regulatory guide endorsing the consensus standard, supplemented by such other (cont)

Additional Information: ABSTRACT CONT: performance standards deemed necessary, plus a requirement for radiographers to wear alarm dosimeters.

The proposed rule would require licensees to modify radiographic devices to meet the performance standards through design changes and quality control procedures. Cost of incorporating the proposed changes are estimated to be a one-time cost $1,600 per licensee to purchase alarm dosimeters and $250.00 per year per licensee to replace existing devices with devices that meet the requirements of the consensus standard. Determination of the benefits to be derived from the proposed rule are difficult to determine on a monetary basis but the potential hazards that might be averted include radiation sickness, injury, and even death. NRC resources required for processing this rule to final publication are estimated to be 0.4 person-years.

3867. ● CONTROLS OF AEROSOLS AND GASES

Legal Authority: 42 USC 5841

CFR Citation: 10 CFR 35

Abstract: During the recent complete revision of 10 CFR Part 35, "Medical Uses of Byproduct Material," the radiation safety requirements for use of radioactive gases and aerosols were combined. A petition for rulemaking (PRM-35-6) requested that use of radioactive aerosols not be confined to rooms at negative pressure. The staff has determined that confining use of TC-99m DTPA to a negative pressure room was not necessary for protecting hospital workers. Furthermore, certain patients would be deprived of a beneficial procedure if they could not be moved or a negative pressure room were not available. Therefore, rulemaking is being initiated to remove the restriction on use of radioactive aerosols only in rooms at negative pressure.

3868. + SAFETY RELATED AND IMPORTANT TO SAFETY IN 10 CFR PART 50

Legal Authority: 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The Nuclear Regulatory Commission proposes to clarify its regulations on the use of the terms "important to safety" and "safety related" by adding definitions of these two terms and of "facility licensing documents" to 10 CFR Part 50 and by discussing how these definitions will be applied in NRC licensing reviews. Significant issues concerning the meaning of these terms as they are used in this part have arisen in Commission licensing proceedings. This proposed rule would define those terms and clarify the nature and extent of their effect on quality assurance requirements, thereby resolving these issues.

Rulemaking was chosen as the method of resolving this issue as a result of the Commission's directive to resolve the issue by rulemaking contained in the Shoreham licensing decision (CLI-84-9, 19 NRC 1323, June 5, 1984).

A position paper requesting approval of the staff proposed definitions and additional guidance from the Commission was signed by the EDO on May 29, 1986. In addition to rulemaking, the position paper discusses the alternative of the Commission(cont)

Additional Information: ABSTRACT CONT: issuing a policy statement concerning the definitions and their usage.

Since the proposed rule is only clarifying existing requirements, their is no impact on the public or the industry as a result of this rulemaking. It is anticipated that the NRC will expend 3.2 to 4.4 staff years in developing the final rule over a two year period. The manpower and time frame will depend upon guidance from the Commission regarding the extent to which 10 CFR usage of the terms is to be consistent, i.e., 10 CFR Part 50 only or all of 10 CFR.

3869. DEGREE REQUIREMENT FOR SENIOR OPERATORS AT NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50; 10 CFR 55

Abstract: The Commission is considering an amendment to its regulations to require, that applicants for a senior operator license of a nuclear power plant hold a baccalaureate in engineering or a related science from an accredited institution after January 1, 1991. Other baccalaureate degrees from an accredited institution may be accepted on a case-by-case basis. This contemplated rulemaking action is due to a Commission decision to enhance the levels of engineering and accident management expertise on shift. The current requirements, for candidates with a baccalaureate degree, of two years of responsible nuclear power plant operating experience, would be amended to require one year of operating experience on a like commercial nuclear reactor operating at greater than twenty percent power. The Commission is also considering issuing a policy statement concurrently with this rule related to utility implementation of the rule.

The staff analysis of comments on the ANPRM has been completed and options for rulemaking and/or policy statements to address degree requirements and training for accident management (cont)

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The Nuclear Regulatory Commission proposes a limited amendment to its regulations to clarify a question of interpretation in regard to leakage testing of containments of light-water cooled nuclear power plants. This proposed amendment would explicitly permit the continued use of a statistical data analysis technique that the NRC has considered to be an

acceptable method of calculating containment leakage rates. Rulemaking is the only acceptable alternative for resolving this issue because the regulations specify the methods the NRC finds acceptable for calculation leakage rates. Because the proposed rule would simply make another method of calculating leakage rates available to the industry, there is no economic impact likely to result from this action.

Legal Authority: 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 40

Abstract: The proposed rule would provide procedures to license a custodian for the post-closure, long-term control of uranium mill tailings sites required by the Uranium Mill Tailings Radiation Control Act of 1978 (UMTRCA). This amendment would establish a general license for long-term possession and control of uranium mill tailings by the Department of Energy, other designated Federal agencies, or states at their option for active sites now under license. The general license would be formulated so that it would become effective for a particular site upon written NRC approval of a site specific surveillance and maintenance plan. No impact to the public or industry is expected as a result of this proposed action.

3872. + PART 51; CONFORMING AMENDMENTS

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 51; 10 CFR 60

Abstract: The proposed rule would provide procedures for performing an environmental review of High Level Waste geologic repositories. Part 51 contains no provisions for the environmental review of a license application for a HLW repository. The Nuclear Waste Policy Act of 1982 established requirements for environmental reviews which are at variance with the environmental review which NRC performs in licensing other types of nuclear facilities. The issue must be addressed in order to avoid delay in the U.S. HLW Program. The proposed rule would benefit the public, industry, and NRC by clarifying licensing procedures, thus avoiding case determinations and possible litigation during HLW geologic repository licensing. Minor revisions to Part 60 will be necessary to conform to the environmental requirements of the NWPA. Alternatives are to take no action, issue an ANPRM, or ask Congress for additional legislation.

CFR Citation: 10 CFR 52

Abstract: The Nuclear Regulatory Commission is considering adding a new part to its regulations to improve the reactor licensing process. The proposed rule would provide for the issuance of early site permits, standard design certifications, and combine construction permits and conditional operating licenses for nuclear power reactors. These procedural reforms are intended to improve the quality, effectiveness, and efficiency of nuclear power plant licensing without detracting from protection of the public health and safety or the public's ability to participate in the licensing process. They are designed to implement as much of the Commission's proposed "Nuclear Power Plant Standardization and Licensing Act of 1987" as is permissible under its existing statutory authority. The proposed legislation is based on an earlier proposal that was developed by the Commission's Regulatory Reform Task Force. If licensing reform legislation is ultimately enacted, the rules can be modified to implement that legislation fully.

3874. + DEFINITION OF HIGH-LEVEL RADIOACTIVE WASTE (HLW) IN 10 CFR PART 60

Legal Authority: 42 USC 10101

CFR Citation: 10 CFR 60

Abstract: This advance notice of proposed rulemaking (ANPRM) seeks to revise the definition of HLW in Part 60 to reflect certain changes in the legal definition of HLW contained in the Nuclear Waste Policy Act of 1982. Because of the complex issues involved in revising the definition of HLW, which affects virtually the entire radioactive waste management system, the staff is proposing an ANPRM rather than a proposed rule. A revision of the definition of HLW would affect DOE's plans for a geologic repository, costs of waste disposal for certain waste generators, and the development of new technologies and facilities to dispose of certain types of wastes.

A definition of HLW which clearly identifies these highly radioactive wastes needing permanent isolation would benefit the radioactive waste management system. NRC staff time for processing this rule is estimated to be 4 staff years. Alternatives to rulemaking would be to take no action or request Congress to amend the NWPA. The rulemaking would eliminate uncertainty and reduce costs for the public, industry, and NRC.

3875. + CRITERIA AND PROCEDURES FOR EVALUATING REQUESTS FOR EMERGENCY ACCESS TO LOW-LEVEL WASTE DISPOSAL SITES

Legal Authority: 42 USC 2021

CFR Citation: 10 CFR 62

Abstract: The proposed rule would establish criteria and procedures that will be used in the execution of the NRC responsibilities under Section 6 of the Low-Level Radioactive Waste Procedures Amendments Act (LLRWPAA). Section 6 of the LLRWPAA authorizes the U.S. Nuclear Regulatory Commission to grant emergency access to any non-Federal low-level waste disposal facility, if necessary to eliminate an immediate and serious threat to the public health and safety or the common defense and security which cannot be mitigated by other means. The proposed rule may have a significant impact on the generators of low-level waste, in that it will establish high standards for qualifying for emergency access, and will require them to provide convincing information to the NRC that their being denied access to low-level waste disposal facilities has resulted in an immediate and serious threat to the public health and safety or the common defense and security.

CFR Citation: 10 CFR 71

Abstract: The proposed rule, would in conjunction with a corresponding rule change by the U.S. Department of Transportation, make the United States Federal regulations for the safe transportation of radioactive material consistent with those of the International Atomic Energy Agency (IAEA). The IAEA regulations can be found in IAEA Safety Standard No. 6 "Regulations for the Safe Transport of Radioactive Material," 1985 Edition.

Consistency in transportation regulations throughout the world facilitates the free movement of radioactive materials between countries for medical, research, industrial, and nuclear fuel cycle purposes. Consistency of transportation regulations throughout the world also contributes to safety by concentrating the efforts of the world's experts on a single set of safety standards and guidance (those of the IAEA) from which individual countries can develop their domestic regulations. Perhaps as important, the favorable and accident experience of every country that bases it domestic regulations on those of the IAEA can be applied by every other country with consistent regulations to improve its safety (cont)

Legal Authority: 42 USC 2201; 42 USC 2021; 42 USC 5841

CFR Citation: 10 CFR 150

Abstract: This rulemaking would establish NRC's sole authority for approving onsite disposal of low-level waste at all NRC licensed reactors and at Part 70 fuel cycle facilities. There is a need to amend Part 150.15 to authorize one agency (the NRC) to regulate all onsite disposal of low-level waste in order to provide a more comprehensive regulatory review procedure of all onsite waste management activities and to avoid unnecessary duplication of effort. Uniform review procedures by the NRC will provide for greater health hazard at a later date after the site is decommissioned.

3878. PROCEDURES INVOLVING THE EQUAL ACCESS TO JUSTICE ACT: IMPLEMENTATION

Legal Authority: 5 USC 504

CFR Citation: 10 CFR 1; 10 CFR 2

Abstract: The proposed rule would implement the Equal Access to Justice Act (EAJA) by providing for the payment of fees and expenses to certain eligible individuals and businesses that prevail in agency adjudications when the agency's position is determined not to have been substantially justified. This proposed regulation is modelled after rules issued by the Administrative Conference of the United States (ACUS) and have been modified to conform to NRC's established rules of practice. The proposed rule would further the EAJA's intent to develop government-wide, "uniform" agency regulations and would describe NRC procedures and requirements for the filing and disposition of EAJA applications. A draft final rule was sent to the Commission in June 1982, but Commission action was suspended pending a decision by the Comptroller General on the availability of funds to pay awards to intervenor parties. This issue was also the subject of litigation in Business and Professional People for the Public Interest v. NRC, 793 F. 2d 1366 (D.C. Cir. 1986). This litigation is being evaluated to determine what if any changes may be necessary in the proposed rule. (cont)

Legal Authority: 42 USC 2239

CFR Citation: 10 CFR 2

Abstract: The proposed rule would expedite conduct of NRC adjudicatory proceedings by requiring intervenors in formal NRC hearings to set forth the facts on which contentions are based and the sources or documents used to establish those facts and limit the number of interrogatories that a party may file in an NRC proceeding. The proposed rule would expedite the hearing process by, among other things, requiring intervenors to set forth at the outset the facts upon which their contention is based and the supporting documentation to give other parties early notice of intervenor's case so as to afford opportunity for early dismissal of contentions where there is no factual dispute. Expediting the hearing process should ultimately provide cost savings to all participants in the process. The content of this rule is being considered as part of the regulatory reform rulemaking package.

Abstract: The proposed rule would revise existing regulations to establish specific licensing requirements for the storage of spent nuclear fuel and high-level radioactive waste in a monitored retrievable storage installation (MRS). This revision is intended to ensure that the Commission has in place the appropriate regulations to fulfill the requirements contained in the Nuclear Waste Policy Act of 1982 concerning the licensing of facilities which could be part of the MRS program.

Paragraph (d) of Section 141 of the NWPA requires that any monitored retrievable storage installation pursuant to Section 141 be licensed by the Commission. The Commission could await further development of the MRS option before proposing its MRS rules. However, this approach could result in n unnecessary delay in reviewing a license application if Congress authorizes construction of an MRS. The current requirements in Part 72 for storage of spent fuel in an independent spent fuel storage installation (ISFSI) would be unaffected by this proposed rule.

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 2241; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The proposed rule would amend the Commission's "immediate effectiveness' regulation that specifies when an initial adjudicatory decision authorizing the issuance or amendment of a license or permit becomes effective. The proposed rule would (1) remove the existing provision governing the effectiveness of initial decisions regarding power reactor construction permits and (2) revise the Commission's

existing practice regarding "effectiveness reviews" for full-power operating licenses. The proposed rule also would delete language in the existing regulation emanating from Three Mile Island-related regulatory policies, action upon which now has been completed.

The proposed rule would supersede two prior proposed rules entitled "Possible Amendments to "Immediate Effectiveness Rules," published May 22, 1980 (45 FR 43279), and "Commission Review Procedures for Power Reactor Construction Permits; Immediate Effectiveness Rule," published October 25, 1982 (47 FR 47260).

Legal Authority: 5 USC 554 (d); 5 USC 557(d)

CFR Citation: 10 CFR 0; 10 CFR 2

Abstract: The proposed rule would amend the Commission's regulations dealing with ex parte communications and separation of adjudicatory and nonadjudicatory functions in formal adjudicatory proceedings by updating the agency's rules of practice and incorporating requirements imposed by the Government in the Sunshine Act. Changes are proposed in both the form and the substance of the existing rules to clarify their meaning and to aid agency adjudicatory officials in maintaining effective communication with NRC staff personnel and persons outside the agency while at the same time ensuring that proceedings will be conducted fairly and impartially. This proposed rule supersedes a prior proposed rule entitled, "Ex Parte Communications and Separation of Adjudicatory and Non Adjudicatory Functions," (3150-AA00) published March 7, 1979 (44 FR 12428).

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 2241; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The Nuclear Regulatory Commission (NRC) is considering amendments to its rules of practice which address the following aspects of the hearing process: admission contentions, discovery against NRC staff, use of cross examination plans, timing of motions for summary disposition and limitations on matters and issues that may be included in proposed findings of fact or conclusions of law, or in an appellate brief submitted by a person who does not have the burden of proof or who has only a limited interest in the proceedings. These proposals were initially developed by the Regulatory Reform Task Force and published for public comment, together with a number of other proposals, as suggestions for procedural changes in the licensing of nuclear power plants. (49 FR 14698; April 12, 1984). The Commission has decided not to proceed with the April 1984 proposals, except to the extent that they were included in this proposed rule. Therefore, the April 1984 proposals have been deleted from the regulatory agenda.

The NRC is also considering related amendments on the process of intervention that were developed by Commissioner

3885. + STANDARDS FOR PROTECTION AGAINST RADIATION

Legal Authority: 42 USC 2073; 42 USC 2093; 42 USC 2095; 42 USC 2111; 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2273; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 20

Abstract: Radiation protection philosophy and technology have changed markedly since the present Part 20 was promulgated nearly thirty years ago. Since Part 20 contains the NRC standards for protection against radiation that are used by all licensees and affects exposures of workers and members of the public, it should be the most basic of the NRC regulations. However, because the present Part 20 has become outdated, most radiation protection actions occur through licensing actions independent of Part 20. A complete revision is necessary to: (1) provide better assurance of protection against radiation; (2) establish a clear health protection basis for the limits; (3) reflect current information on health risk, dosimetry, and radiation protection practices and experience; (4) provide NRC with a health protection base from which it may consider other regulatory actions taken to protect public health; (5) be consistent with recommendations of world authorities (ICRP); and (6) apply these standards to all licensees in a consistent manner.

Alternatives to the complete revision of Part 20 considered include (1) no action, (2) delay (cont)

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 50; 10 CFR 51; 10 CFR 70; 10 CFR 72

Abstract: The proposed rule would provide assurance that licensees fulfill their responsibility to dispose of licensed material including any associated contamination when they cease licensed activity. The proposed rule would also provide the applicant or licensee with appropriate regulatory guidance to decommission a nuclear facility. The issue is addressed through rulemaking to assure that funds for decommissioning will be available and the decommissioning will be carried out in an orderly manner. The Commission has indicated a need for this rulemaking in other previous rulemakings.

The major cost impact of the proposed rule would involve proper planning at all stages of nuclear facility operation. Proper planning includes providing for (1) financial assurance that funding will be available for decommissioning, (2) maintenance of records that could affect decommissioning, and (3) careful(cont)

For non-reactor facilities affected by financial assurance requirements, it is estimated that the major impact will result in an aggregate expenditure of 21 staff-years ($1.6 million) spread over 5 years (or $320,000 per year).

For the approximately 110 power reactors estimated to be affected (i.e., those with operating licenses and those under construction which are at least two-thirds complete) plus 75 research and test reactors, it is estimated that the major impact will result in an aggregate expenditure of 3.8 staff-years ($288,000) spread over 3 years. These expenditures will ensure that adequate measures have been taken to protect the health and safety of occupational workers, the public, and the environment within the confines of optimum cost benefit consideration.

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 70

Abstract: The proposed rule would require about 30 fuel cycle and other radioactive materials licensees to submit an emergency plan that would, among other actions, require the notification of local authorities in case of an accident and that the licensee recommend protective actions for the public. The proposed rule is intended to further protect the public from accidental exposure to radiation. The affected licensees are those whose possession limits indicate the potential for an accident that could deliver a radiation dose offsite exceeding one rem effective dose equivalent or 5 rems to the thyroid or could cause a soluble uranium inhalation of 2 milligrams (a chemical toxicity hazard). Currently, the proposed requirements are, for the most

part, required by order. The Commission has decided that these requirements should be addressed by a rule. The cost of the for licensees is estimated to be between $26,000 and $73,000 per year per licensee. The cost to NRC is estimated to be $4000.00 per year per licensee. The NRC will expend about 2 man-years of efforts to promulgate the rule.

Abstract: This proposed rule, being prepared at Commission direction, would provide comprehensive treatment of hearing procedures to be implemented by the Commission for materials licensing proceedings. In addition, the proposed rule would encompass the objective of the proposed rule, "Jurisdiction of Adjudicatory Boards," identified as 3150-AA53, which has been deleted from OMB's Unified Agenda. There are no reasonable alternatives to rulemaking for implementing these informal hearing procedures. The procedures are expected to reduce the economic burden imposed on a participant in a proceeding.

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 35

Abstract: The Nuclear Regulatory Commission is considering amendments to its regulations governing the use of byproduct material for radiation therapy. In addition to current requirements, the contemplated amendments would require that licensees offering patient care services implement a quality assurance program. The contemplated amendment also clarify plans for responding to misadministrations.

The alternatives to rulemaking considered by the staff were to take no action or to provide quality assurance guidance and request voluntary compliance. The Commission directed the staff to take the rulemaking alternative. Although data on potential cost impacts is incomplete, initial cost estimates indicated that the potential cost to each of the 1200 affected licensees would be about $1000.00 per year.

Legal Authority: 42 USC 2201; 42 USC 5841; 42 USC 7901 Note

CFR Citation: 10 CFR 40

Abstract: The proposed rulemaking is intended to incorporate groundwater standards established by the Environmental Protection Agency for uranium mill tailings into NRC regulations. This action is necessary to make NRC regulations conform to EPA standards as required by the Uranium Mill Tailings Radiation Control Act. Comments on the ANPRM helped define the nature and scope of this rule. EPA has estimated that compliance with their groundwater standards and with the stability, radon release, and other requirements recently promulgated will cost the industry from about $310 million to $540 million for all tailings generated by the year 2000. The actual cost will depend on the eventual cost of groundwater protection for future tailings. The EPA regulations are binding on NRC licensees until this proposed rule becomes effective. The comment period was extended in response to a request from the American Mining Congress.

Legal Authority: 42 USC 2132; 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2236; 42 USC 2239; 42 USC 2282; 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed rule would amend regulations concerning acceptance criteria for emergency core cooling systems (ECCS) by allowing the use of realistic methods to demonstrate that an ECCS would protect the nuclear reactor core during a loss-of-coolant accident. This action is proposed because research has shown that calculations performed under current requirements greatly underestimate the ability of the ECCS to protect the core. This restricts the operation of some nuclear reactors unnecessarily and increases the costs of generating electricity. The proposed rule would allow use of the best information currently available to demonstrate that the ECCS would protect the reactor core during a loss-of-coolant accident.

Use of the proposed acceptance criteria could result in a 5 percent power upgrade for affected plants. The present value of energy replacement cost savings resulting from a potential upgrade would range from 13 to $147 million dollars depending on the location and age of a specific plant.

Because the proposed rule represents a significant change in a regulatory requirement, the staff prepared and issued on May 15, 1987, a summary of ECCS research performed over the last 10 years which identifies the technical basis for the proposed rule. A regulatory guide was also prepared and issued on April 2, 1987. This guide provides a definition of what constitutes an acceptable best estimate model and acceptable methods of performing the uncertainty evaluation. The estimated cost to the NRC of this rulemaking is 2-3 staff years and $200,000.

The only option to rulemaking considered by the staff was the continued use of the current licensing approach. At best, this is viewed as an interim solution because two separate calculations are required to meet the requirements of the current regulation and staff conditions for use of the licensing approach and continued use of the approach risks case-by-case litigation.

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would update and revise the 1973 criteria for preoperational and periodic pressure testing for leakage of primary containment boundaries of water-cooled power reactors. Problems have developed in application and interpretation of the existing rule. These result from changes in testing technology, test criteria, and a relevant national standard that needs to be recognized.

The revision is urgently needed to resolve continuing conflicts between licensees and NRC inspectors over interpretations. Current regulatory practice is no longer being reflected accurately by incorporation in the existing regulation of an obsolete national standard that was replaced in 1981.

The benefits anticipated include elimination of inconsistencies and obsolete requirements, and the addition of greater usefulness and a higher confidence in the leak-tight integrity of

containment system boundaries under post-loss of coolant accident conditions. The majority of the effort needed by NRC to(cont)

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: This proposed rule would require licensees of light water nuclear power plants to ensure that these plants are capable of withstanding a total loss of alternating current (AC) electrical power (called station blackout) to the essential and nonessential switchgear buses for a specified duration. A draft regulatory guide was issued at the same time as the proposed rule to provide guidance on how to determine the duration.

The proposed requirements were developed in response to information generated by the Commission's study of Unresolved Safety Issue A-44, Station Blackout. The proposed rule is intended to provide further assurance that a loss of both off-site and emergency on-site electric AC power systems will not adversely affect the public health and safety.

A regulatory analysis has been prepared for the proposed rule. The estimated public risk reduction is 145,000 person-rem over 25 years, and the estimated total cost for industry to comply with the proposed rule is $60 million. This results in an overall cost benefit ratio of about 2,400 person-rem per million dollars.

The alternatives to this proposed rule are to take no action or to provide only guidance for plants to be able to cope with a station blackout period. To take no action would not yield any reduction in public risk from station blackout events. To provide guidance only, since there is presently no requirement for nuclear power plants to be able to cope with a total loss of AC power, would not result in any basis for enforcement. The proposed rule is the recommended alternative based on its enforceability and, in part, on the favorable cost/benefit ratio.

Legal Authority: 42 USC 2201; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The proposed broad scope modification of General Design Criterion 4 (GDC 4) would allow demonstration of piping integrity by analyses to serve as a basis for excluding consideration of dynamic effects associated with pipe ruptures. A final rule published April 11, 1986 (51 FR 12502) was limited to the primary loops of pressurized water reactors (PWRs), whereas this proposed rule would cover all high energy piping in all light water reactors (LWRs). The modification would permit the general but selective removal of pipe whip restraints and jet impingement shields from operating plants, plants under construction, and future plant designs, but will not impact other design requirements for containment design or ECCS performance. Alternative equipment qualification requirements developed by industry based on leak-before-break may be submitted to the NRC for review and approval in a limited number of applications.

The only alternatives to rulemaking would be the granting of exemptions to GDC 4 or reinterpretation of the text of the existing rule. The staff has, however indicated that extensive (cont)

Abstract: The Commission proposes to amend its regulations to incorporate by reference the Winter 1984 Addenda, Summer 1985 Addenda, Winter 1985 Addenda, and 1986 Edition of Section III, Division 1, of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code (ASME Code), and the Winter 1983 Addenda, Summer 1984 Addenda, Winter 1984 Addenda, Summer 1985 Addenda, Winter 1985 Addenda, and 1986 Edition of Section XI, Division 1 of the ASME Code. A limitation is placed on the use of paragraph IWB-3640 as contained in the Winter 1983 Addenda and Winter 1984 Addenda of Section XI, Division 1. This limitation requires that for certain types

of welds, IWB-3640 be used as modified by the Winter 1985 Addenda. The sections of the ASME Code being incorporated provide rules for the construction of light-water- cooled nuclear power plant components and specify requirements for inservice inspection of those components. Adoption of these amendments would permit the use of improved methods for construction and inservice inspection of nuclear power plants.

3898. CONSIDERATION OF EMERGENCY PLANNING RULE CHANGES TO DEAL WITH LACK OF GOVERNMENTAL COOPERATION IN OFFSITE EMERGENCY PLANNING

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 50

Abstract: The proposed rule would, in limited circumstances, allow a full power nuclear plant operation to begin when there is a lack of State or local government cooperation in offsite emergency planning. In earlier regulations, the Commission published revised emergency planning regulations which required that emergency plans be developed by licensees in cooperation with State and local governments. Although the Commission acknowledged the possibility that some governments might not cooperate, the Commission premised the new rules on a coordinated effort among all parties. Because this coordination has proved impossible to achieve in a few isolated cases, this proposed rulemaking is intended to cover those cases not contemplated by the 1980 amendments. The amendments will probably not impact on NRC resources. Industry may experience a positive financial effect in the earlier operation of nuclear power plants already completed but currently non-operational due to local and state government non-cooperation. The public may be affected in that there may be less coordinated offsite emergency planning as compared to sites where full coordination has been achieved.

Legal Authority: 42 USC 2011; 42 USC 4321

CFR Citation: 10 CFR 51

Abstract: The proposed rule provides a narrative explanation of the numerical values established in Table S-3, "Table of Uranium Fuel Cycle Environmental Data," that appears in the Commission's environmental protection regulations. The proposed rule describes the basis for the values contained in Table S-3, the significance of the uranium fuel cycle data in the table, and the conditions governing the use of the table. The narrative explanation also addresses important fuel cycle impacts and the cumulative impacts of the nuclear fuel cycle for the whole nuclear power industry so that it may be possible to consider these impacts generically rather than repeatedly in individual licensing proceedings, thus reducing litigation time and costs for both NRC and applicants.

The proposed rule was published for public review and comment (46 FR 15154, March 4, 1981), but the final rulemaking was deferred pending the outcome of a suit (Natural Resources Defense Council, et al. v NRC, NO. 74-1486) in the U.S. Court of Appeals. The U.S. Court of Appeals (D.C. Circuit) decision of April 27, 1982, invalidated the entire Table S-3 rule. The Supreme Court reversed this decision on June 6, 1983. (cont)

The proposed rule to provide a narrative explanation for Table S-3 was revised to reflect new developments and the passage of time while the rulemaking was deferred. However, final action on the Table S-3 rule was held in abeyance until new values for radon-222 and technetium-99 can be added to the table and covered in the narrative explanation. On October 7, 1984, EPA promulgated new radon standards for inactive uranium mill sites and in October 1985 NRC published revised uranium milling regulations conforming to the new EPA standards. However, EPA received, in August 1985, a court order requiring them to establish radon standards for active uranium mills. EPA's final standards are scheduled to be issued in August 1986. The Commission has directed staff to develop a schedule for completing the narrative explanation of Table S-3 and the new values for radon-222 and technetium-99.

The Staff's estimate is that the completion of a final Table S-3 rule covering the new values for radon-222 and technetium-99, and the narrative explanation will be completed in 1989.

Abstract: The Nuclear Waste Policy Act of 1982 directs NRC to promulgate criteria for the licensing of HLW geologic repositories. Section 121 (c) of this act states that these criteria must be consistent with standards to be

developed by EPA for the disposal of HLW in deep geologic repositories. The proposed rule is needed in order to eliminate several inconsistencies with the EPA standards, thus fulfilling the statutory requirements.

Because the NWPA directs NRC to eliminate inconsistencies between Part 60 and the EPA standard, the alternatives to the proposed action are limited by statute.

The public, industry, and NRC will benefit from eliminating inconsistencies in Federal HLW regulations. NRC resources needed would be several staff years but will not include contract resources.

Legal Authority: 42 USC 2201; 42 USC 2210; 42 USC 5841; 42 USC 5842

Abstract: The final rule will revise the ENO criteria to eliminate the problems that were encountered in the Three Mile Island ENO determination. It is desirable to get revised criteria in place in the event they are needed.

There are no alternatives to this rulemaking, as the current ENO criteria are already embodied in Subpart E of 10 CFR Part 140. The only way to modify these criteria, as this rule seeks to do through rulemaking.

There is no impact on public health or safety. The ENO criteria provide legal waivers of defenses. Industry (insurers and utilities) claims that a reduction in the ENO criteria could cause increases in insurance premiums. The final rule would also be responsive to PRM-140-1.

It is estimated that approximately 1.0 man years of NRC staff time will be required to process the final rule. No contract funding is anticipated.

NUCLEAR REGULATORY COMMISSION (NRC) — Completed Actions

3902. ● RESTRICTIONS AGAINST OWNERSHIP OF CERTAIN SECURITY INTERESTS BY COMMISSIONERS, CERTAIN STAFF MEMBERS, AND OTHER RELATED PERSONNEL: VESTED PENSION INTERESTS

Legal Authority: 42 USC 2035; 42 USC 2201; 42 USC 5841; 18 USC 207

CFR Citation: 10 CFR 0

Abstract: The final rule amends the regulations governing the ownership by NRC employees of stocks, bonds, and other security interests in companies engaged in activities relating to the nuclear fuel cycle. The final rule also addresses the treatment of pension interests held by NRC employees. Present NRC regulations require that employees not own security interests in companies engaged in fuel cycle activities, regardless of whether the company derived significant gross revenues or a significant percentage of its revenues from those activities. Under the revised regulation, the NRC's Executive Director for Operations, after consultations with the Office of the General Counsel, will designate the major fuel cycle applicants and licensees whose security interests are subject to the agency's stock ownership restrictions and thus may not be owned by NRC employees. With regard to vested pension interests, the amendment to the regulations codifies existing agency practice to provide explicitly that no employee is to provide advice to the NRC on matters affecting a company in which he or she has a vested pension interest from prior employment. {cont}

Additional Information: ABSTRACT CONT: Because these amendments relate solely to matters of agency management or personnel, they would have no impact upon the public or the nuclear industry. Adoption of the amendments regarding the prohibited securities list would benefit NRC employees to own security interests in those companies. The adoption of the amendment on vested pensions would have no effect upon NRC employees, since it merely codifies existing agency practice.

3903. ● STANDARDS AND PROCEDURES FOR CASE BY CASE EXEMPTIONS FOR DE MINIMIS INTERESTS FROM PROHIBITION AGAINST EMPLOYEE'S PARTICIPATION IN MATTERS AFFECTING EMPLOYEES'S FINANCIAL INTEREST

Legal Authority: 42 USC 2035; 42 USC 2201; 42 USC 5841; 18 USC 207

CFR Citation: 10 CFR 0

Abstract: The final rule revises NRC regulations governing the granting of statutorily authorized case-by-case exemptions for insubstantial interests from the prohibition against an employee's personal and substantial participation in a particular matter in which the employee, or certain persons or organizations related to the employee, has a financial interest. The final rule, which pertains to all NRC employees, set out revised procedures for granting case-by-case exemptions in

instances where the interests involved is not so substantial as to be deemed likely to affect the integrity of the services which the Government may expect from the employee.

Legal Authority: 42 USC 2033; 42 USC 2201; 42 USC 2039; 42 USC 2241; 42 USC 5841; 42 USC 5843; 42 USC 5844; 42 USC 5845; 42 USC 5849

CFR Citation: 10 CFR 1

Abstract: The final rule would revise 10 CFR Part 1 which was promulgated on July 18, 1977 (42 FR 36797). Except for a few revisions, such as address changes, the addition of a Commission-level office, and other minor revisions, most of the descriptions of the Commission's organizational structure have remained unaltered since 1977. During the interim, there have been numerous reorganizations in the structure and functions of many of the Commission's offices. The final rule will reflect the current functional descriptions of these offices.

3905. + ADJUDICATIONS -- SPECIAL PROCEDURES FOR RESOLVING CONFLICTS CONCERNING THE DISCLOSURE OR NONDISCLOSURE OF INFORMATION

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 2241; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The Nuclear Regulatory Commission has withdrawn this rule published in the Federal Register on May 22, 1985 (50 FR 21072). In this rule, the Commission proposed amending it rules of practice to provide special procedures for resolving conflicts concerning the disclosure or non disclosure of information relating to an NRC investigation or inspection not yet concluded or which would reveal the identity of a confidential informant and deemed relevant and material to an adjudication. The Commission decided that in view of the few remaining licensing proceedings and the consequent limited number of occasions in which the proposed procedures might be used in those proceedings, an existing policy statement is an adequate means of resolving these conflicts and thus there is no need at this time to codify the proposed procedures.

Legal Authority: 42 USC 2201; 42 USC 2231; 42 USC 2241; 42 USC 5841

CFR Citation: 10 CFR 2

Abstract: The final rule amends the Nuclear Regulatory Commission's regulations to provide for Atomic Safety and Licensing Appeal Board review of all decisions rendered by an Atomic Safety and Licensing Board in formal agency adjudications. This amendment changes the agency's rules of practice to allow routing referral of requests for certain hearings from a licensing board to an appeal board.

3907. + NONDISCRIMINATION ON BASIS OF AGE IN FEDERALLY ASSISTED COMMISSION PROGRAMS

Legal Authority: 42 USC 6101

CFR Citation: 10 CFR 4

Abstract: The final rule implements the provisions of the Age Discrimination Act of 1975, as amended. The final amendment makes it unlawful for any recipient of Federal financial assistance to discriminate on the basis of age in programs or activities receiving Federal financial assistance from the NRC. The Act also contains certain exceptions that permit, under limited circumstances, continued use of age distinctions or factors other than age that may have a disproportionate effect on the basis of age. The Act applies to persons of all ages. The final rule is necessary to comply with the Age Discrimination Act of 1975, which directs that all Federal agencies empowered to provide Federal financial assistance issue rules, regulations, and directives consistent with standards and procedures established by the Secretary of Health and Human Services (HHS).

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 9

3909. ● TELEPHONE REPORTING OF SIGNIFICANT EVENTS INVOLVING BYPRODUCT, SOURCE, OR SPECIAL NUCLEAR MATERIAL

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 20

Abstract: The final rule would amend NRC regulations regarding the telephone reporting of significant events involving byproduct, source, or special nuclear material. This action is being taken because current procedures often result in unnecessary delays before the event is reported to an appropriate NRC official. The amendment applies to all holders of licenses issued for the receipt, possession, use or transfer of byproduct, source, or special nuclear material who do not have an installed Emergency Notification System. There will be no increased cost to the affected licensees, as the amendment merely changes the initial point of contact for the telephone reporting.

3910. + REGISTRATION OF SOURCES AND DEVICES

Legal Authority: 42 USC 2111; 42 USC 2201; 42 USC 2071; 42 USC 2092

CFR Citation: 10 CFR 30; 10 CFR 32; 10 CFR 40; 10 CFR 70

Abstract: NRC regulations clearly provide for pre-marketing approval of certain sealed sources and devices, such as smoke detectors and gauges. The regulations are less clear with respect to pre- marketing approval of other products, such as industrial radiographic and in-plant gauging devices. The final rule will clearly state the procedures for manufacturers and distributors of sources and devices to obtain pre-marketing approval of products to be used under specific license. Consistent with present practice, the rule requires the applicant to submit for approval specified radiation safety information about the product.

The final rule will assure that all manufacturers and distributors (vendors) are informed of NRC's program for pre-marketing approval of sources and devices and under specific license. The rule, by improving communication with the vendors, will assure timely and efficient consideration of radiation safety features of products and thus reduce administrative costs for vendors, users and NRC.

3911. + FINANCIAL RESPONSIBILITY OF MATERIALS LICENSEES FOR CLEANUP AFTER ACCIDENTAL AND UNEXPECTED RELEASES

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 61; 10 CFR 70; 10 CFR 72

Abstract: The Commission issued and advance notice of proposed rulemaking (ANPRM) in June 1985, which sought comments on the advisability of having NRC require a mechanism to assure financial capability on the part of certain NRC materials licensees (e.g., fuel fabricators and users of sealed radiation sources) to undertake prompt cleanup of accidental releases or contamination, both on and off site. Estimates for cleanup costs in the recent past have ranged up to $2 million for a single event. To date, cleanup has been conducted only by the State or Federal government; however; public monies are frequently used only after lengthy delays.

This rulemaking was terminated by the EDO on May 29, 1987. This rule may be re-initiated upon completion and staff analysis of ongoing contractor studies.

3912. + BANKRUPTCY FILING; NOTIFICATION REQUIREMENTS

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 30; 10 CFR 40; 10 CFR 50; 10 CFR 61; 10 CFR 70; 10 CFR 72

Abstract: The final rule requires licensees to notify the appropriate regional office of the NRC in the event of a bankruptcy proceeding involving the licensee.

Notification of the NRC in cases of bankruptcy alerts the Commission so that it may deal with potential hazards to the public health and safety posed by a licensee that does not have the resources to properly handle licensed radioactive material or clean up possible contamination. This rule is necessary because instances have occurred in which materials licensees have filed for bankruptcy and NRC has not generally been aware of this.

3913. + LICENSES AND RADIATION SAFETY REQUIREMENTS FOR WELL-LOGGING OPERATIONS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 39

Abstract: The final rule establishes specific radiation safety requirements applicable to licensees who perform operations such as well-logging and subsurface use of radioactive materials in tracer studies. The final rule is necessary because current NRC regulations address these operations in a general way without providing specific guidance. The rule generally codifies existing licensing practice. Thus, there would be essentially no net incremental costs to licensees. The main benefit would be to formally state NRC requirements in the regulations.

3914. + CHANGES IN PROPERTY INSURANCE REQUIREMENTS FOR NRC LICENSED NUCLEAR POWER PLANTS

Legal Authority: 42 USC 2201

CFR Citation: 10 CFR 50

Abstract: The final rule requires nuclear power plant licensees to obtain an increased amount of onsite property damage insurance from the current minimum of $585 million to $1.06 billion. The NRC believes that this insurance should be required so that the financing and pacing of cleanup following an accident does not become a public health and safety problem. These changes will increase the amount of insurance required to $1.06 billion, impose a modified decontamination priority on any proceeds subject to the decontamination priority shall be paid to an independent trustee. All commercial reactor licensees are subject to this rule.

3915. + RADON 222 ESTIMATE FOR TABLE S-3

Legal Authority: 42 USC 2201; 42 USC 5841; 42 USC 5842

CFR Citation: 10 CFR 50; 10 CFR 51

Abstract: In a Federal Register notice published on April 14, 1978, the Commission deleted the radon-222 value from Table S-3 because it was recognized to be underestimated. Pending rulemaking action to provide a new estimate for radon-222 in Table S-3 the environmental effects of radon are subject to litigation in individual nuclear power plant licensing proceedings. The proposed rule was to deal with this question generically for all nuclear power plants; however, the NRC does not expect to receive applications for new nuclear power plant licenses within the near future, and certain regulatory issues related to radon have not yet been resolved.

This rule was terminated by the EDO on 11/29/86. The issues in this proposed rule are being combined with the proposed rule entitled, "Table S-3, Addition of Radon-222 and Technetium-99 Radiation Values and Appendix B Explanatory Narrative".

3916. + OPERATORS' LICENSES

Legal Authority: 42 USC 2137; 42 USC 2201; 42 USC 5841; 42 USC 10226

CFR Citation: 10 CFR 50; 10 CFR 55

Abstract: The Nuclear Regulatory Commission is amending its regulations to (1) require each holder of and each applicant for a license to operate a commercial nuclear power plant to establish and use a systems approach in developing training programs and establishing qualifications requirements for civilian nuclear power plant operators, supervisors, technicians, and, as appropriate, operating personnel; (2) clarify the regulations for the issuance of licenses to operators and senior operators; (3) revise the requirements and scope of written examinations and operating tests for operators and senior operators; (4) codify procedures for the administration of requalification examinations; and (5) describe the form and content for operator license applications.

The final rule is in response to Section 306 of the Nuclear Waste Policy Act of

1982. A regulatory analysis showed a public risk reduction of 268,000 person-rem at a cost of $240.4 million dollars resulting in a value/impact ratio of 1,100 person-rem/ $million.

3917. TIMING REQUIREMENTS FOR FULL PARTICIPATION EMERGENCY PREPAREDNESS EXERCISES FOR POWER REACTORS PRIOR TO RECEIPT OF AN OPERATING LICENSE

Legal Authority: 42 USC 2133; 42 USC 2134; 42 USC 2201; 42 USC 2232; 42 USC 2233; 42 USC 2236; 42 USC 2239; 42 USC 2282; 42 USC 5841; 42 USC 5842; 42 USC 5846

CFR Citation: 10 CFR 50

Abstract: The final rule relaxes the timing requirements for a full participation emergency preparedness exercise for power reactors prior to receipt of an operating license. The Commission believes that the rule will more effectively focus available resources on the pertinent issues and problems in establishing and maintaining an upgraded and effective day-to-day status of emergency preparedness.

The rule provides consistency to the regulations governing the frequency and timing of emergency preparedness exercises between the preliminary and post licensing stages, and also provide more flexibility in the timing of the full participation exercises to accomodate the needs of State and local governments prior to the issuance of an operating license.

3918. + MATERIAL CONTROL AND ACCOUNTING REQUIREMENTS FOR LICENSEES AUTHORIZED TO POSSESS AND USE FORMULA QUANTITIES OF STRATEGIC SPECIAL NUCLEAR MATERIAL

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 74

Abstract: The final rule replaces existing material control and accounting (MC&A) requirements for fuel cycle facilities that are authorized to possess and use formula quantities of strategic special nuclear material (SSNM).

It establishes a performance-oriented regulation that emphasizes timely detection of formula quantity SSNM losses and provides for more conclusive resolution of discrepancies than is currently achievable. Experience with existing regulations has demonstrated weaknesses in the area of alarm resolution principally because of a lack of timely detection of anomalies and poor loss localization capabilities. This rule would alleviate these liabilities by requiring tests on a more timely basis on small plant subdivisions.

3919. + REPORTING OF SPECIAL NUCLEAR MATERIAL PHYSICAL INVENTORY SUMMARY RESULTS

Legal Authority: 42 USC 5841

CFR Citation: 10 CFR 70; 10 CFR 74

Abstract: Prior to this rule becoming final, NRC's regulations required fuel facility licensees to conduct periodic physical inventories of the special nuclear material (SNM) which they possessed. Although the affected licensees have been voluntarily reporting summary data of their physical inventories to the NRC since 1975, a requirement for this routine reporting has never been incorporated into the regulations.

This final rule corrects the former reporting deficiency by requiring the affected fuel facility licensees to provide the necessary summary data of their physical inventories on NRC Form 327. Since these licensees are already supplying this information voluntarily and the NRC is already routinely using it, there are no additional costs or other impacts associated with the rulemaking.

3920. + CHANGES TO SAFEGUARDS REPORTING REQUIREMENTS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 70; 10 CFR 72; 10 CFR 73; 10 CFR 74

Abstract: The final rule amends reporting requirements of section 73.71 for reports of unaccounted for shipments, suspected thefts, unlawful diversion, and other safeguards events. (Conforming amendments are included for 10 CFR Parts 70, 72, and 74). The staff has found the present requirements confusing to licensees and, therefore, difficult for licensees to implement properly. These difficulties

have contributed to reports of safeguards events that lack uniformity and contain insufficient data to permit analysis of these events.

The final amendments redefine, in clearer terms, the events to be reported and classify certain of these events into different reporting categories. The current 24 hour notification by telephone is deleted. All events will be reported by telephone within one hour or logged in licensee records to be submitted to the NRC quarterly . Concurrent with the rule revision, a revised regulatory guide is being issued which provides a format for reporting to the NRC and gives example of what types of events should be reported.

Abstract: By memorandum dated January 20, 1987, the Executive Director for Operations terminated activity on this rulemaking.

The proposed rule would have moderated the current requirements for the protection of spent fuel shipments against radiological sabotage. The proposed rule would have provided the level of safeguards deemed essential to the protection of spent fuel shipments.

3922. ● REQUIREMENTS FOR CRIMINAL HISTORY CHECKS

Legal Authority: 42 USC 2201; 42 USC 5841

CFR Citation: 10 CFR 73

Abstract: The final rule adds a new requirement for the control and use of criminal history data received from the Federal Bureau of Investigation (FBI) as part of proposed Federally mandated criminal history checks of individuals granted unescorted access to nuclear power plants or access to Safeguards Information by power reactor licensees. Issuance of this proposed rule is in response to Public Law 99-399, the Omnibus Diplomatic Security and Anti-Terrorism Act of 1986, and thus, there is no alternative to rulemaking. This legislation requires the NRC to issue regulations to establish conditions for the use and control of the criminal history data received from the FBI.

Regulatory Flexibility Agenda and Rules Scheduled for Review

AGENCY: Securities and Exchange Commission.

ACTION: Publication of regulatory flexibility agenda and rules scheduled for review.

SUMMARY: The Securities and Exchange Commission is today publishing an agenda of its open and anticipated rulemaking actions, pursuant to Chapter Six of the Administrative Procedure Act and Office of Management and Budget Bulletin 87-16. The agenda is a general announcement to the public intended to provide advance notice of rulemaking actions which may have a significant economic impact on a substantial number of small entities. The Commission is also publishing a list of rule reviews expected to be completed during the next twelve months. The Commission invites questions and public comment on individual agenda entries.

DATE: Public Comments are due by December 31, 1987.

ADDRESSES: Persons wishing to submit written views should file three copies with Jonathan G. Katz, Secretary, Securities and Exchange Commission, 450 5th Street, NW., Room 6184, Stop 6-9, Washington, DC 20549. All submissions should refer to File No. S7-31-87, and will be available for public inspection at the Commission's Public Reference Room, Room 1026, at the same address.

FOR FURTHER INFORMATION CONTACT: William J. Atkinson, Directorate of Economic and Policy Analysis, Securities and Exchange Commission, 450 5th Street, NW., Room 7169, Stop 7-6, Washington, DC 20549 (202-272-7100). Additional names of persons to contact are identified with each entry.

SUPPLEMENTARY INFORMATION: The Regulatory Flexibility Act ("RFA") (Pub. L. No. 96-354, 94 Stat. 1164 [September 19, 1980]) requires each federal agency during April and October of each year to publish in the **Federal Register** a regulatory flexibility agenda identifying rules which the agency expects to propose or adopt which are likely to have a significant economic impact on a substantial number of small entities (the "significant impact criterion").[1]

The RFA also requires the Commission to publish a plan for the periodic review of all rules issued by the agency which have or will have a significant economic impact on a substantial number of small entities.[2] The Commission published such a plan in 1981.[3] The plan provides for the review of all rules in effect on January 1, 1981 within ten years of that date and for the review of all rules adopted thereafter within ten years of their adoption as final rules. The RFA further requires publication each year of a list of those rules which are to be reviewed during the succeeding twelve months.[4]

The Commission's continuing review of its rules, begun before the effective date of the statute (January 1, 1981), extends beyond the requirements of the RFA. Consequently, some rules listed in this part of the agenda may not be subject to RFA review requirements. The Commission is identifying them here in order to inform the public of its intention to review them. The agenda also identifies the rulemaking actions which have been completed (or withdrawn) since the last RFA release was approved by the Commission on April 24, 1987.[5]

The statute specifically provides that the agenda does not preclude the Commission from considering or acting on any matter not included, nor is the Commission required to consider or act on any matter which is included.[6] Furthermore, the inclusion of a rule in the Commission's agenda reflects only the staff's preliminary judgment that the rule, if adopted or as it exists, may have a significant economic impact on a substantial number of small entities.[7] This preliminary judgment may be changed upon further analysis.

The Commission's entries to the October 1987 Unified Agenda of Federal Regulations are listed below. The Commission's agenda includes new entries as well as items carried over from the April 1987 publication. New entries are marked with an asterisk. Copies of this preamble and a list of the entries (which includes next action dates and identifies a staff contact) are available from the Commission's Office of Public Affairs (Room 1015). The agenda also is available for inspection and copying in the Public Reference Room (Room 1026) (File S7-31-87), as noted above.

The Commission invites public comment on the individual entries in its agenda of rulemaking actions and rules scheduled for review in the next twelve months.

Dated: August 28, 1987.

By the Commission.

Jonathan G. Katz,

Secretary.

CFR Citation: 17 CFR 210.9-03(7)(e)

Legal Deadline: None.

Abstract: The staff is considering whether to recommend that the Commission propose amendments to its rules in Article 9 of Regulations S-X requiring disclosure by bank holding companies about loans to related parties. Assertions have been made that accumulation of the required information may be unreasonably costly.

CFR Citation: 17 CFR 240.3a12-10; 17 CFR 230.180

Legal Deadline: None.

Abstract: The proposed rule would specify certain conditions under which persons engaged in the sale of interests and participation issued in connection with certain tax-qualified retirement plans ("H.R.10" or "Keogh" plans) would not be required to register as broker-dealers under Section 15(a) of the Securities Exchange Act of 1934. In 1981, the Commission adopted Rule 180 under the Securities Act of 1933 exempting from the registration requirements of that Act interests and participations issued in connection with H.R. 10 plans. The proposed rule provides a parallel exemption from broker-dealer registration for sales of such interests and participations in H.R. 10 plans. As an alternative the staff could consider granting no-action or exemptive requests on a case-by-case basis. However, such procedure would be inefficient and needlessly expensive for both the public and the Commission staff. In addition, the Commission is proposing to amend Rule 180 to clarify that, under paragraph (a)(3)(ii) of that Rule, the employer only needs to obtain investment advice prior to the investment of plan assets. This proposal codifies a previous staff position.

Abstract: In 1986, the Commission published a release seeking public comment on three concepts relating to corporate takeovers: (1) whether substantial acquisitions of securities effected during the pendency of, or subsequent to the termination of, a tender offer for such securities present issues with respect to takeover practice and, if so, whether a regulatory response is appropriate; second, on the need to establish a shareholder approval requirement for the adoption of "poison pill" security plans; (3) whether to establish provisions in the proposed all holders rule or other tender offer rules by which issuers may "opt-out" of the requirements of such rules through the adoption of charter amendments by shareholders. The Commission has published a summary of comments made in response to this release. On September 16, 1987, the Commission approved a rulemaking proposal on the first issue discussed in the release.

Abstract: The Commission will review the existing rules and reporting forms intended to implement the provisions of Section 16 of the Securities Exchange Act. Section 16 seeks to deter misuse of inside information by imposing certain periodic and transactional reporting requirements on the officers, directors and principal beneficial shareholders of companies registered under that Act as well as certain limitations on equity transactions by those persons. Over the years the Commission has adopted a number of rules to clarify the applicability of Section 16's requirements to particular circumstances. The Commission will examine their current suitability in light of the purposes of the statute.

This initiative is a consolidation of five projects that were previously listed separately in the October 1983 agenda.

Abstract: The Commission intends to revise the disclosure requirements under the federal securities laws relating to registration under the Securities Act of 1933 of securities to be offered to employees of an issuer pursuant to certain plans. Such registration currently is made on Form S-8 (17 CFR 239.16b). The Commission is developing proposals in this area and considering alternative approaches to the problem of reducing burdens while ensuring the availability of sufficient information to employees, particularly where they already have access to much of the required information under ERISA. In the context of this rulemaking, Form S-8 will be fully

reviewed for purposes of the Regulatory Flexibility Act.

Abstract: In order to facilitate simultaneous multinational securities offerings among, initially, the United States, Canada and the United Kingdom, appropriate criteria are being sought to reconcile differences in disclosure standards, financial statement requirements and distribution systems. The alternatives being considered include (1) a common prospectus approach under which all would agree on common disclosure standards, (2) a reciprocal approach under which the offering document used by the issuer in its domicile jurisdiction would be acceptable in the countries provided certain minimum disclosures are included and (3) a modified reciprocal approach whereby a domestic supplement containing prescribed disclosures would accompany the issuer's home jurisdiction prospectus. Also, the proposal may be limited initially to certain types of offerings or issuers. Draft forms have been discussed with the Canadian and United Kingdom authorities.

Exemptions from the Act pursuant to Section 6(c) of the Act have generally been granted where: 1) the two-tier partnership invests in limited partnerships engaged in the development and building of housing for low and moderate income persons; 2) the limited partnership interests are sold only to suitable investors; and 3) requirements for fair dealing by the general partner of the issuer with the limited partners of the issuer are included in the basic organizational documents of the partnership. Legal Authority: 15 USC 77c(a)(2); 15 USC 77s(a)

CFR Citation: 17 CFR 230.180

Legal Deadline: None.

Abstract: Rule 180 provides an exemption from the registration requirements of the Securities Act for interests and participations issued in connection with certain qualified H.R. 10 plans. In order for interests in funding media issued to plans established by financially inexperienced employers to qualify for the rule's exemption, the rule, as adopted, requires those employers to obtain financial advice from an independent expert prior to adopting the H.R. 10 plan. Among other things, the Commission is considering proposing an amendment to Rule 180 that would codify a present "no-action" position regarding the situation where a financially unsophisticated employer has already established a plan for its employees without obtaining advice from an independent expert, and intends either to change the funding medium or add another funding medium to the choices already available to employees. The issuer of the funding medium in such a case would be in compliance with the rule if the issuer has reasonable grounds to believe and, after having made reasonable inquiry, does believe, that an independent financial expert reviewed the funding medium prior to the investment of the (cont)

Abstract: The proposed rules would exempt certain persons from the

requirements of Section 11(a) of the Investment Company Act. That section prohibits any registered open-end investment company and its principal underwriter from making an offer to a shareholder to exchange his security for another security on any basis other than the relative net asset values of the respective securities to be exchanged, unless the terms have been submitted to and approved by the Commission or comply with rules the Commission may prescribe. Section 11(c) states in part that the terms of any offer of exchange involving the securities of registered unit investment trusts must also be submitted to and approved by the Commission or comply with rules the Commission may prescribe. Proposed rule 11a-3 would permit a mutual fund or its principal underwriter to make certain exchange offers to its own shareholders or to shareholders of another fund in the same family of funds. Proposed rule 11c-1 would permit a unit investment trust or its sponsor to make certain exchange offers to unitholders of the same series or another series of the same trust or to unitholders of another unit investment trust

Legal Authority: 15 USC 80a-16(c); 15 USC 80a-35; 15 USC 80a-6(c)

Abstract: On December 10, 1982, the Commission issued an advance concept release (Investment Company Act Release No. 12888, (47 FR 56509)) soliciting public comment on whether the Commission should propose rules or recommend legislation which would provide for an alternative form of mutual fund governance. Specifically, this release requests comment on whether mutual funds should be exempted from shareholder voting and/or director requirements under the Investment Company Act of 1940 (the "Act") and, if so, whether conditions could be fashioned which would adequately insure against loss of investor protection. Although such changes might be effected through rulemaking, the Commission has indicated that, in its preliminary judgment, changes of this magnitude should be effected through legislative rather than administrative action. Since the costs and benefits of providing for an alternative scheme of mutual fund governance cannot be estimated at the present time, the release solicits specific comment on the costs and benefits which would result from such changes. Extension of comment period until April 18, 1983 was announced in Investment Company Act Release No. 13012 (cont)

Abstract: On May 14, 1985, the Commission issued a release (Investment Company Act Release NO.14513 (50 FR 21282) soliciting public comment on proposed Form N-7, a form for registration of unit Investment Trusts and their securities under the Investment Act of 1940 and the Securities Act of 1933, and certain related rules and rule amendments. The Commission also published staff guidelines for the preparation of Form N-7. The proposed form would establish a two-part format for disclosure to prospective investors consisting of a simplified prospectus that can be use to satisfy the prospectus delivery requirements of the Securities Act of 1933 and a statement of additional information that would be available to prospective investors upon request and without charge. The Commission is proposing Form N-7 in order to (I) integrate the reporting and disclosure requirements of the Securities Act of 1933 and the investment trusts in one document; (II) codify in the form and guidelines the disclosure standards that have been developed for unit investment trusts; and (III) shorten and simplify the prospectus while making available on request more extensive information not of routine(cont)

3952. RULE 17J-1 UNDER THE INVESTMENT COMPANY ACT OF 1940

Legal Authority: 15 USC 80a-17(j); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.17j-1

Legal Deadline: None.

Abstract: Rule 17j-1 requires every access person of a registered investment company, or of an investment adviser of or principal underwriter for the investment company to report to the investment company certain of his securities transactions. The Commission is considering whether to propose an amendment to this rule which would reduce the reporting requirement for investment company directors who are interested persons with respect to the investment company by reason of their affiliation with a registered broker-dealer. Members of the industry have characterized these reporting requirements as unnecessarily burdensome in some instances. Any such rule amendment would have the effect of lessening the reporting requirements currently imposed by the rule. As a result, the staff believes that the costs, which should be insignificant, of complying with any amendment would be significantly less than the benefits it would provide. Abstract: Absent an exception, every solicitation of a proxy, authorization or consent in respect of any security with respect to which a registered investment company is the issuer, is subject to rules adopted pursuant to the Securities Exchange Act of 1934 and the Investment Company Act of 1940 concerning solicitations of proxies. Solicitations to which the rules apply may not commence unless each person solicited is furnished or has previously been furnished with a proxy statement containing specified information prepared in accordance with certain rules and the material has been filed with the Commission. The existing proxy rules were adopted in piecemeal fashion and have been the subject of frequent changes. This has led to certain duplicative and, in certain cases, complex requirements. To the extent that a proxy statement contains repetitive material or is overly complicated and difficult to read, it may not effectively perform its intended function of communicating meaningful information to security holders in order that they may make informed voting decisions. In order to update the proxy regulations and, in doing so, improve the (cont)

There does not currently exist a basis upon which to quantify the reduced costs and burdens of such action on those registrants affected. Since the action will apply to all registered investment companies soliciting proxies, unless the solicitation is excepted, the Action is expected to have a significant impact on a substantial number of small entities. However, the contemplated revisions are still in the developmental stage and have not yet been formally proposed by the Commission. Thus, the extent of the revision actually proposed and the attendant reductions in costs and burdens are as yet largely unknown, but are anticipated to be significant.

Abstract: Form N-2 is the registration statement form under the Investment Company Act of 1940 and the Securities Act of 1933 for closed-end management investment companies other than small business investment companies and companies which issue periodic payment plan certificates or which are sponsors or depositors of companies issuing such certificates. Included within the registration statement are the companies' prospectuses used in offering their securities to the public. The Commission believes a simplified prospectus is necessary because current prospectuses have become too cumbersome for the average investor to understand and because current requirements result in the disclosure of much information that is not necessarily material to an investment decision. Simplification will, therefore, make disclosure easier for investors to understand and reduce the costs and burdens of of preparing and distributing prospectuses. Accordingly, the Commission is proposing a new form N-2A that most likely would be structured as a three-part form, one part of which would be a new simplified prospectus. Legal Authority: 15 USC 80b-11(a)

CFR Citation: 17 CFR 275.206(3)-3

Legal Deadline: None.

Abstract: Section 206(3) of the Investment Advisers Act of 1940 makes it unlawful for any investment adviser, by use of the mail or any means or instrumentality of interstate commerce, directly or indirectly, knowingly to effect a securities transaction (a) with a client while acting as principal or (b) for a client while acting as broker for a person other than such client, without disclosing in writing to such client before the completion of the transaction the capacity on which he is acting and obtaining the consent of the client to the transaction. The Commission is considering whether to propose a rule that would provide a nonexclusive method for compliance with the provisions of Section 206(3) of the Investment Advisers Act of 1940 in connection with purchases of securities from an underwriting syndicate for an advisory client under specified conditions. We are proposing a rule that would require these documents to be kept. If the rule is proposed and adopted, Commission inspectors would be able to examine these advertisements and the worksheets used to calculate performance information in advertisements which would aid the Commission's efforts to eliminate fraudulent and misleading advertisements by investment advisers. Abstract: The Commission is proposing amendments to the shareholder communications rules that would require a registrant to exclude, under certain circumstances, employee benefit plan participants from the operation of the proxy processing provisions with respect to securities of a registrant held in nominee name pursuant to the plan. The proposed amendments also would exclude plan participants from a registrant's request for a list of beneficial owners under certain circumstances. The proposed amendments are intended to avoid duplicative mailing of proxy materials to plan participants, to achieve the most efficient means of communicating with such plan participants and to realize cost savings for registrants in connection with proxy processing obligation and requesting beneficial ownership lists. In addition to these proposed amendments, the Commission is considering various alternatives including an optional exclusion of plan participants from the shareholder communications rules if certain prerequisites are satisfied, making one or both of the exclusions from the proxy processing and direct communications systems mandatory and an automatic across-the-board mandatory exclusion.

3973. PROPOSED RULE 3A-4 -- INDIVIDUALIZED INVESTMENT MANAGEMENT SERVICES

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.3a-4

Legal Deadline: None.

Abstract: In Investment Company Act Release No. 11391 (October 10, 1980) (45 FR 69479) the Commission proposed for public comment Rule 3a-4, which would deem investment management services providing their clients with individualized treatment not to be investment companies for purposes of the Act. The rule provides a "safe harbor" for any investment manager providing its clients with treatment based on the needs and goals of each client. Under such circumstances, regulation of investment management services under the Act appears unnecessary. The proposed rule was intended to clarify the Commission's position on the question of "mini-accounts" by providing a safe harbor for certain investment management services and thereby provide some certainty to the public. The Commission does not expect any final action taken on the proposal to significantly affect the cost of providing investment management services. The public comment letters on the proposal have been reviewed and alternatives for final action are being formulated.

3974. PROPOSED AMENDMENT TO RULE 17G-1 UNDER THE INVESTMENT COMPANY ACT

Legal Authority: 15 USC 80a-6(c); 15 USC 80a-17(g); 15 USC 80a-37(a)

CFR Citation: 17 CFR 270.17g-1

Legal Deadline: None.

Abstract: The Commission is considering whether to adopt an amendment to Rule 17g-1 under the Investment Company Act. The amendment was proposed for public comment in Investment Company Act Release No. 11193 (June 2, 1980) (45 FR 38407). Rule 17g-1 requires every registered investment company to provide and maintain a bond against larceny and embezzlement covering officers and employees of the company. In some circumstances, the officers and employees of a company's depositor, trustee, investment adviser or other manager and various affiliates of such persons, because they have access to the company's assets, function as officers and employees of the investment company. The proposed amendment to the rule would clarify the scope of the rule by explicitly requiring the bonding of such persons. The principal cost associated with this rule would be the cost of a bond. That cost would vary according to the persons required to be bonded by the rule. In this regard, before adopting any amendment to the rule, the Commission will carefully consider what persons should be bonded to protect investors adequately, weighing the benefits of the protection against the cost of a bond.

3975. DISCLOSURE OF LEGAL AND DISCIPLINARY PROCEEDINGS

Legal Authority: 15 USC 80B-6(4)

CFR Citation: 17 CFR 275.206(4)-4

Legal Deadline: None.

Abstract: Section 206 of the Investment Advisers Act of 1940 prohibits a wide range of fraudulent activity by investment advisers. The Commission has interpreted this section to require that advisers disclose material financial and disciplinary information to clients. On September 19, 1986, the Commission proposed for public comment Rule 206(4)-4 to codify this disclosure obligation. The proposed rule sets forth a general standard and provides guidance on some of the disciplinary events that must be disclosed. By codifying the obligation and providing greater certainty to advisers in fulfilling it, the rule should help ensure that clients are provided with this material information. See Investment Advisers Act Release No. IA-1035, 51 FR 34229, September 26, 1986. The rule's impact on small entities cannot be qualified. However, the proposal by codifying an existing disclosure obligation, should not impose additional costs on advisers.

3976. ACCOUNTING FOR DISTRIBUTION EXPENSES

Legal Authority: 15 USC 77f; 15 USC 80a-37

CFR Citation: 17 CFR 210.6-07

Legal Deadline: None.

Abstract: On July 10, 1985, the Commission proposed for public comment an amendment to Regulation S-X to require that registered investment companies account for net costs incurred as a result of 12b-1 plan as expenses. The amendment would achieve consistent accounting for 12b-1 expenditures thereby ensuring greater uniformity in the accounting practices of investment companies and allowing investors to more accurately compare investment results among investment companies. Abstract: The Commission proposed amendments to Rules 134, 436, and 482 under the Securities Act of 1933 on March 14, 1986. The amendments would, if adopted, permit certain investment companies to use in their statutory and omitting prospectuses security ratings assigned by a nationally recognized statistical rating organization (NRSRO) without first obtaining the NRSRO'S consent to being named pursuant to Section 7 of the Securities Act. The Commission is now considering whether to adopt such amendments.

Abstract: The Commission adopted amendments to the shareholder communications rules that defer the application of the proxy processing provisions in Rules 14a-13(a), 14b-2(a), (c) and (d) and 14c-7(a) with respect to beneficial owners who are employee benefit plan participants with securities held in nominee name by a bank, association or other entity that exercises fiduciary powers ("bank"). The amendments provide temporarily for a mandatory exclusion of plan participants from the bank proxy processing provisions of the shareholder communications rules pending consideration by the Commission of a range of approaches to the treatment of plan participants under the shareholder communications rules on a permanent basis. The Commission also adopted amendments that (1) change from three to five business days the time in which a bank is to execute an omnibus proxy and provide notice of that execution to respondent banks; (2) add a definition of employee benefit plan; and (3) make other clarifying and technical changes.

Abstract: Rule 13e-1 prohibits an issuer subject to section 13(e) of the Exchange

Act from purchasing any of its own equity securities after a tender offer is made by a third party unless the issuer has both filed a statement containing certain information with the Commission and conveyed the substance of that information to shareholders within the previous six months. The information required is 1) the title, amount, and source of the securities to be purchased; 2) the purpose of the purchases and intended disposition of the securities purchased; and 3) the source and amount of funds or other consideration to be used in making the purchases. Rule 13e-1 further provides that the initial statement be accompanied by a fee payable to the Commission as required by Rule 0-11 of the Exchange Act.

New edition now available....

For those of you who must keep informed about **Presidential Proclamations and Executive Orders,** there is a convenient reference source that will make researching these documents much easier.

Arranged by subject matter, this edition of the *Codification* contains proclamations and Executive orders that were issued or amended during the period January 20, 1961, through January 20,1985, and which have a continuing effect on the public. For those documents that have been affected by other proclamations or Executive orders, the codified text presents the amended version. Therefore, a reader can use the *Codification* to determine the latest text of a document without having to "reconstruct" it through extensive research.

Special features include a comprehensive index and a table listing each proclamation and Executive order issued during the 1961-1985 period—along with any amendments—an indication of its current status, and, where applicable, its location in this volume.
